—The Sunday service and musical entertainment held in Petrikin Hall Sunday afternoon was a great success every seat being occupied. The principal feature of the service was the talk by Dr. E. E. Sparks, president of Pennsylvania State College, who spoke of his recent trip to the Holy Land, and very interestingly described his observations of the country that are applicable to the teachings of Jesus Christ. The selections by the double quartet, the orchestra, violin solo by Miss Dorothy Bible, soprano solo by Mrs. Brandon, were of a high order and very much enjoyed by the large audience. The collection entertained proved a very liberal one.

—The entertainment by the South African Kaffir boys was an exceptionally delightful surprise to the patrons of the Star Course on Friday night, who by the way, formed one of the largest audiences that ever assembled in Petrikin Hall. The boys of the company, whose ages range possibly from 4 to 17 years, captured the audience at once by their sweet voices, and the "prima donna" was applauded to the limit. The next number on the course will be held November 8th, by the Pilgrim Girls of Boston, each one of whom is an artist. Seats will be reserved two days in advance instead of one, as there were about 150 persons who could not secure seats at the last entertainment. This season's Star Course will eclipse all former efforts in this line.

BOARD OF TRADE MEETS.

Special Committee Rejects Lingle Foundry Proposition.

As stated in this paper last week there were prospects for a revival of business at the old Lingle foundry south of town, in view of the fact that several gentlemen from other cities, among whom was Henry Johnson, of Oil City, a practical steel manufacturer, were seeking a site to manufacture certain iron and steel specialties. The gentlemen in question, Messrs. Henry Johnson, George Barry and R. T. White, as stated last week, came to Bellefonte with the idea of forming a company and acquiring control of the Lingle machine shops and foundry. Their conference with the Board of Trade led to that body appointing a special committee to investigate the proposition, and on Monday evening, following a call by the secretary of the Board, a report of the committee was heard. Colonel Reynolds presided at the meeting and about forty citizens were present. C. M. McCurdy, speaking for the committee, said that \$20,000 would be required to purchase the Lingle plant, and that was the sum asked by the McCoy and Shuler estate, the present owners. In addition to this, Mr. McCurdy stated, the proposed company would require a working capital of \$10,000, making a sum of \$30,000 to be raised, all of which would be as common stock. After debating the matter to some length, the report of the committee was ordered to be accepted and the proposition rejected as being not feasible.

Another plan was then suggested, that the Lingle plant be purchased as it now stands, and the same machinery and tool equipment, some of the experienced machinists present maintaining that much of the equipment was obsolete and out of date. Geo. R. Meek, Messrs. H. S. Moore, James Selbert, C. G. MacAvoy and Tom B. Hamilton were appointed a committee to visit the Lingle foundry-machinists shops and ascertain the physical value of the machinery and tool equipment. Adjournment followed.

Dr. F. N. Seely Visits Bellefonte.

On Monday the students at the Bellefonte Academy had the good fortune to meet and listen to one of the greatest educators and Y. M. C. A. workers in the country. We refer to Dr. F. N. Seely, of the International Training School, of the Young Men's Christian Association at Springfield, Mass. Dr. Seely is now making a tour of the great colleges of the country, talking to young men, personally and in classes, on the subject of "Social Duty in Industry." He was at the Pennsylvania State College and from 6 o'clock in the morning, until after 1 o'clock in the afternoon, he talked to young men, taking one class after another. His remarks made a profound impression.

Dr. Seely's learning of his presence at the College and the fact that he would pass through Bellefonte Monday morning, met him at the Lewisburg train and got him to make an address at the Academy from 9 to 10 o'clock. His remarks upon the subject of "Social Duty in Industry" were listened to with close attention by the young men, who no doubt will be greatly benefited. He left at 1:05 for Carlisle and goes from there to Princeton College, where he will talk to young men. He is doing a wonderful work.

A Log on the Track

Of the fast express means serious trouble ahead if not removed, so does loss of appetite. It means lack of vitality, loss of strength and nerve weakness. If appetite fails, take Electric Bitters quickly to overcome the cause by toning up the stomach and forcing the indigestion. Michael Heiser, a well known Neb., had been sick over three years, but six bottles of Electric Bitters put him right on his feet again. They have helped thousands. They give pure blood, strong nerves, good digestion. Only 50 cents.
