## Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged. This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. a trial. That will be enough to prove it.

Of course all other druggists have D.D.D. Prescription—go to them it you can't come to us—but don't accept some big profit substitute.

The maid was in the garden, hanging out her

Down flew a blackbird and perched upon her nose; "What makes your clothes so very white," the saucy blackbird said,

"I washed them with Fels-Naptha," replied the pretty maid.

Most labor-savers cost money.

A new-fangled washer, an electric sad iron or a gas range mean you have to pay out a good sum to start with.

But Fels-Naptha Soap will save you more work than all these other things put together and it costs no more than other soaps.

Labor-saving and economy are combined in Fels-Naptha.

And labor is not the only thing saved. When you wash with Fels-Naptha Soap the Fels-Naptha way, in cool or lukewarm water, it saves the clothes.

No boiling to soften them; no hard rubbing to wear them out.

They last twice as long.

No matter how big the washing is, it doesn't take half as long as if you boiled and hard-rubbed the clothes.

They'll be sweeter, whiter and cleaner. Isn't it worth trying?

Be sure and use cool or lukewarm water in Winter or Summer—no boiling according to directions on the red and green wrapper.
