

THIRD TERM QUACK PLANK

Fraudulent "Blanket Policy" Offered For Protection of Health and Life.

IN INTEREST OF FAKERS.

Theodore Rex" Promises to Shield Them Against Discrimination by Educated Physicians.

The political tentacles of the third term candidate have been extended in every direction from which might be gathered voters irrespective of sex, race, color or previous condition, of all locations, factions and trades into the progressive fold. By specious promises cunningly adapted to each the plunger beckons them to follow with beating approval wheresoever his bellwether adjutants may lead in order that Theodore Rex may again sit in the White House.

Tempting bait is thrown to the working people in the minimum wage, to the Socialist in the enlargement of government ownerships, to the women in the furtherance of suffrage aspirations, to the farmer in blissful betterments of rural life, etc. Now he appeals to the quacks, those true and hitherto despised men of predatory wealth, offering them tenderest regard and freedom from prejudice "for or against." The following "blanket policy" is offered for protection of our most precious possessions—health and life:

"We favor the union of all the existing agencies for fundamental government dealing with the public health into a single national health service without discrimination against or for any one set of therapeutic methods, school of medicine or school of healing, with such additional powers as may be necessary to enable it to perform efficiently such duties in the protection of the public from preventable diseases as may be properly undertaken by the fundamental authorities, including the execution of existing laws regarding pure food, quarantine and cognate subjects, the promotion of appropriate action for the improvement of vital statistics, the extension of the registration area of such statistics and co-operation with the health activities of the various states and cities of the nation."

Thus would votes for Theodore Rex be multiplied.

Insults Educated Physician.

This quack plank of the Progressive platform not only insults the intelligent voter, but wounds the educated physician, in that it places the latter in the same category with empirics of high and low degree, rubbers, sun turists, magnetic and other healers and all other pretenders who fatten upon the credulity of the helpless sick and their terrified relatives. The Sun has adverted to the outrageous violation of propriety and justice which characterizes the medical laws of several states in the Union, the last instance of which we deplored in the medical regulations of the canal zone and which the bull moose platform threatens to inflict upon all the states in the Union.

These legislative enactments require all persons who propose to become physicians not only to pursue a more or less thorough course of preparatory education, but also to be trained in all branches of medicine and, besides, to be subjected to a rigid examination by appointees of the state. All these serve to protect the public against ignorant pretenders and would be perfectly fair did not the very same enactments exempt the latter from the provisions applying to educated practitioners.

Favors For Cormorants.

Thus do our sagacious legislators tuffify themselves in the interest of the cormorants to whom they grant special privileges, because, forsooth, they claim to "heal" without medicines! There is now no discrimination against "schools of medicine." Therefore the special protection demanded or them by the bull moose platform is gratuitous and intended only to entrap votes. The "healers" belong to no school. Now comes Theodore Rex and dignifies them by a special provision and, expressing a most tender regard for their sensibilities, promises to shield them against discrimination by educated physicians.

This platform would raise the quack and healer above the man who daily exemplify their personal and professional superiority by some unselfish devotion to the public weal. In his eagerness to placate the influential horde of empirics Mr. Roosevelt would have us oblivious of the fact that the educated physician is the only real trust in the community. Instead of rousing the public conscience (T. R.'s favorite slogan) this self appointed reformer deepens the crying shame and has exemplified again that "under circumstances" need he be bound by his prior professions.

President Taft has won the approval of the quacks and healers by his medical regulations of the canal zone. Future generations will substitute "Rooseveltian" for "Machiavellian." Politics makes strange bedfellows indeed. Be hold Taft and Roosevelt under the same blanket!—New York Sun.

THE NEXT BIG REVIEW, NOV. 5TH.
From "The Philadelphia Record," Wednesday, Oct. 15, 1912.

DANGER AHEAD! SIGNAL'S A FAKE

Republican Circular Warning Railroad Men Is Palpable False Alarm.

EASY TO MAKE FIGURES LIE.

Old Trick of Setting Red Lights on a Clear Track—Facts Presented So Railroad Men May Judge.

The Republican national committee is distributing circulars among railroad men predicting a panic and hard times in the event of Democratic victory. Among their statements intended to mislead railroad men is this:

RAILROAD MEN, STOP! LOOK! LISTEN! LEST YOU FORGET \$71,338,878.

Big sum of money, isn't it? Nevertheless it's exactly that much more paid to the railroad employees of the United States under the administration of President Taft in 1909 than was paid in 1907, the year before Mr. Taft became president.

This is a sample of the old time Republican habit of claiming credit for all natural progress—credit even for good crops.

It is true that in 1910 the wages of railroad employees amounted to some \$71,000,000 more than in 1907.

But that represented three years' progress.

In 1906 the amount paid to railroad employees was \$900,801,653. In 1907 it was \$1,072,386,427. This was an increase of \$171,584,774 in a single year preceding the Taft administration, amounting to more than double the increase during three years of the Taft administration.

Isn't it obvious that they are pressuring you won't have the statistics at hand to inform yourself and that therefore they will fool you into believing that the Taft administration made railroad men's prosperity?

Then stop, look, listen again! In four years preceding Taft's administration 1,193 miles of railroad were sold under foreclosure. The stocks and bonds of these roads amounted to \$47,031,000.

Under three years of the Taft administration 5,115 miles were foreclosed, involving \$384,434,562.

The Tariff Humbug Again. A still more palpable presumption by Republicans that railroad men are fools is the following statement in their circular:

The total number of railway employees in 1896 was 785,034. The total number of railway employees in 1911 was 1,699,869.

Under Republican administration the number of railway employees has increased from 785,034—during a Democratic administration—to 1,699,869, an increase of 914,775, nearly 1,000,000 men.

Do you want a Democratic president and return to conditions and number of employees of 1897?

The Taft people take 1896 because the last Democratic low tariff bill, known as the Wilson bill, went into force in 1894, and they would like to have railroad men believe that a Democratic tariff revision made the hard times.

What the Facts Prove. Now, what are the facts? The "hard times" began back in 1890, right after the Republican high tariff, known as the McKinley tariff, went into effect. Grover Cleveland, the last Democratic president, was elected in 1892. The panic came on in

1893, not as a result of Cleveland's election, but as a result of conditions that had been growing steadily worse under Republican rule. The panic was over before the Democratic tariff bill was passed in 1894, and after that prosperity began to return.

Now let us make a fair comparison of these railroad figures.

In 1893, under the Republican high tariff, and with the panic on, there were 873,902 railroad men employed, or 515 per 100 miles.

In 1894, part high tariff and part low tariff, the number fell to 779,698, or 444 for 100 miles—decrease 71 per 100 miles.

From this year on, so long as the Democratic administration was in power, conditions improved steadily.

In 1895 the total number of railroad men at work was increased to 785,034.

In 1896 it was 826,620.

In 1897 McKinley came into the presidency, and the Republicans set about to "redeem the country" with high tariff. AND IN 1897 THE TOTAL NUMBER OF RAILROAD EMPLOYEES FELL OFF TO 823,476.

Republican Panic of 1907.

Then in the fall of 1907 there was another panic under the Roosevelt administration and under a Republican high tariff. Were the railroad men protected from loss of jobs? Scarcely! The next year, 1908, the number of railroad employees fell off by 235,796, a decrease of 112 per 100 miles against 71 per 100 miles in 1894, the year when the results of the panic of 1893 were felt most severely.

So what is the use of trying to make fools of railroad men or of any other Americans by distorting figures? The truth is that these fluctuations were not due to high tariff or low tariff.

The program of the new party legalizes monopolies and systematically subordinates workingmen to them and to plans made by the government both with regard to employment and with regard to labor.—Woodrow Wilson.

As an introduction to a dainty luncheon no better selection could be made than grapefruit cocktail, an appetizing and refreshing development of this favorite fruit. Left over chicken meat can be transformed into a palatable dish and served as a creamed hash on toast. The new asparagus is just as good as it looks, especially in salad form. French pastry completes the menu:

- Grapefruit Cocktails. Chicken Hash on Toast. Asparagus Tip Salad. Pastries. Tea.

One cupful of chicken meat (cold), one cupful of white sauce, half a cupful of sweet green pepper, one and a fourth teaspoonfuls of onion juice, four slices of toast, trimmed and buttered.

Cut the chicken in quarter inch cubes, chop the green pepper very fine, add to the chicken and cook all in the white sauce until the chicken is heated through (use double boiler). Arrange on the toast and serve very hot.

With the Cook in the Kitchen.

Wafer-like slices of bread spread with caviar sprinkled with lemon juice and salt make tasty sandwiches.

Banging the oven door is responsible for half the heavy bread and cake. The door should be closed very gently.

For spring suppers sliced oranges and shredded cocoanut put into a dish in alternate layers is appetizing.

Macaroni prepared in any of the various ways in combination with cheese, butter and tomatoes is nourishing.

Shredded chocolate cocoanut, which is bought already prepared, makes a tasty addition to different kinds of salad.

Meat loaf of chopped beef or veal can be made more moist if three or four tablespoonfuls of cream are added just before baking.

The Scrap Book

His Motto.

The young hopeful had secreted some bright buttons in his pocket which came from the automobile show. When Sunday school was well under way he took one out and pinned it on his coat, feeling it an ornament. Unfortunately, when the minister came round to speak to the dear children, his near-sighted eyes were caught by the color.

"Well, Richard, I see you are wearing some motto, my lad. What does it say?"

"You read it, sir," replied Richard, hanging his head.

"But I cannot see. I haven't my glasses, son. Read it so we can all hear you."

Richard blushed. "It says, sir, 'Ain't it hell to be poor?'"—Metropolitan Magazine.

Life.

This life's a mystery. The value of a thought cannot be told. But it is clearly worth a thousand lives. Like many men's. And yet men love to live.

As if mere life were worth their living for. What but perdition will it be to most? Life's more than breath and the quick round of blood.

It is a great spirit and a busy heart. The coward and the small in soul scarce do live.

One generous feeling, one great thought, one deed

Of good ere night, would make life longer seem.

Than if each year might number a thousand days. Spent as this is by nations of mankind. We live in deeds, not years; in thoughts, not breaths;

In feelings, not in figures on a dial. We should count time by heart throbs. He most lives

Who thinks most, feels the noblest, acts the best.

—Philip James Bailey.

A Surprise.

The Rev. E. J. Hardy, in his book "The Unvarying East," tells a delightful story. A young lady about to visit the Holy Land called on an old lady friend. She mentioned that she soon hoped to see Jerusalem, Bethlehem, Galilee and many of the other places mentioned in the Bible.

The old lady put down her work, removed her spectacles and exclaimed in great surprise, "Well, now, I knew that all these places were in the Bible, but I never thought of them being on the earth."

SYMPTOMS OF CONSUMPTION

Yield to Vinol.

The medical profession do not believe that consumption is inherited, but a person may inherit a weakness or tendency to that disease.

A prominent citizen of Evansville, Ind., writes: "I was ill for five months with pulmonary trouble, and had the best of doctors; I had hemorrhages and was in a very bad way. Through the advice of a friend I tried Vinol, and I feel that it saved my life. It is all you recommend it to be. I believe it is the greatest medicine on earth. I have advised others to try Vinol, and they have had the same results." (Name furnished on request.)

Vinol soothes and heals the inflamed surfaces and allays the cough. Vinol creates an appetite, strengthens the digestive organs and gives the patient strength to throw off incipient pulmonary diseases.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. C. M. Parrish, Bellefonte, Pa.

Phillipsburg Journal: Ben. Habbershon, of Osceola, Sealer of Weights and Measures for Clearfield county, was in town Monday morning enroute to one of the outlying sections of his territory. He tells us that out of 450 scales examined thus far in the county, he found 125 that failed to measure up to the standard. He has encountered many other experiences that show the need of such officials as a Sealer of Weights and Measures in every county in the state. The Commissioners of Centre Co. should get busy and make a similar appointment.

Skin On Fire?

Just the mild, simple wash, the well known D.D.D. Prescription for Eczema, and the itch is gone.

A trial will prove it. We have sold other remedies for skin trouble but none that we could guarantee as we can the D.D.D. remedy. If the first regular size \$1.00 bottle does not do exactly as we say, it will not cost you a cent.

GREEN'S PHARMACY CO. BELLEFONTE, PA.

Little Jack Horner sat in a corner eating his Christmas pie, He let a piece fall on his waist and said "What a careless boy am I, But I needn't worry about this stain, Fels-Naptha'll make it all clean again."

Did you ever think of the difference between washing and cleaning?

You can wash with any kind of soap in any kind of water, hot or cold.

You can boil clothes and rub them on a washboard until your back aches.

All that is washing.

But it isn't always cleaning.

Most soaps are just washing soaps.

They furnish a little lather and let you do the work.

Fels-Naptha is a cleaning soap.

It works all by itself in cool or lukewarm water, saving all the trouble and discomfort of boiling and hot suds.

Fels-Naptha Soap cleans your clothes.

It really reaches the dirt and dissolves it.

It does this while the soaped clothes are soaking in cool or lukewarm water, while you are thinking of something else or resting.

When Fels-Naptha Soap gets through with them—thirty minutes or so is long enough—you rub lightly, rinse the clothes and they're cleaner, sweeter and whiter than you could get them by washing all day in the old-fashioned manner.

You'll find directions for using Fels-Naptha printed on the back of the red and green wrapper.
