When partly up the heavy instrument got away from the two upper men and fell back. Dr. Weston was below, and as the piano dropped backward it struck him on the back, severely bruising him. He was fortunate enough to escape the full weight of the piano, otherwise this notice would have been found in the obituary column.

On Sunday a force of workmen put in a concrete retaining wall along the embankment of the overhead trolley leading from the Centre R. R. of Pa. tracks to the Bellefonte Furnace. A portion of wall was laid at this point some time ago, and the result has been so satisfactory that it was deemed best to cement the entire embankment. Wooden forms were built and the cement was poured into them as fast as it was mixed by a concrete machine from a car on the top of the trestle. The wall will obviate the danger of the embankment caving in upon the Central's main track.

LINGLE FOUNDRY TO BE OPERATED

LEASED FOR A TERM OF TWO YEARS.

WILL GIVE MANY EMPLOYMENT

New Firm Composed of Experienced Business Men—Will Manufacture Hammers and Other Articles—Good News For Bellefonte.

On Tuesday of this week a business transaction was consummated in our midst, which will be received with general satisfaction by the people of Bellefonte, for it means the starting up of the Lingle foundry and machine shops which has been idle for the past year or more and the giving of employment to a number of skilled mechanics and artisans.

Messrs. R. T. White and George Barry, of Philadelphia, and Henry Johnson, of Oil City, have leased for a period of two years the Lingle foundry plant, from McCoy and Linn estate, with the privilege of buying the same, or continuing the lease, if the venture is successful.

It will be recalled that about four weeks ago, these same parties were here and were in negotiation with the Board of Trade and some of our prominent business men, looking to the organization of a company and the purchasing and starting of the plant, but nothing was accomplished. About a week or two days ago Messrs. Barry, White and Johnson again entered into negotiation with some of our business people with the above results.

It is the intention of the lessees to manufacture certain specialties in iron and steel and to make the famous Jenkin-Lingle power hammer, which it is believed will have a ready sale at a good profit. Messrs. White and Barry are energetic young business men who have had a large experience in this line of work. Mr. Johnson is a practical steel manufacturer, coming originally from Sheffield, England. He has patented a process for what is known as semi-steel, and is used in making castings. This will be manufactured and used at this foundry.

A force of men will be put to work next week making the needed repairs and it is likely the plant will be in operation by the first of the new year. The old Lingle foundry was in operation for over 25 years and gave employment to the best class of skilled mechanics. Therefore, the re-opening of this industry cannot help but be a blessing to our community, and it is hoped the new firm will have a long and successful business career.

Charity Ball.—A charity ball will be held here on November 14th, at the Armory Hall. Bellefonte is well known for her fine dances, but this Barn Dance will outdo by far all of the other successful dances, in its decorations, beauty, pleasing music and dancing. The peasant costume is not obligatory, but all who join in the Grand march must wear a mask, whether in costume or not. 75 cents a ticket slips easily from the purse to swell a fund to relieve the suffering.

CLAIR.—Moses Clark, father of Mrs. George Chambers, of Bellefonte, died at his home near the Old Fort Hotel, at 7 o'clock, on Monday, after a lingering illness which he contracted at Sprucetown on Wednesday morning.

Is our Liver the Cause?

Many common ailments are caused directly by liver trouble. The proper way to relieve such ailments is to remove the cause. Very frequently in nervousness, irritability, bowel, kidney and stomach troubles, jaundice, sluggishness—that tired-out feeling—the liver is at fault, and the only satisfactory remedy for permanent relief is obtained through some remedy that will remove the cause by restoring the liver to health.

Renall Little Liver Pills are specially designed for that purpose. They contain powerful remedial agents in the proper proportions to assist the liver in regaining health. Every sale is accompanied with a positive guarantee that if they do not do all we claim for them—if they do not relieve from liver trouble and, by thus removing the cause, prove an effective remedy for all ailments arising from a faulty liver—all you have to do is to say so, and we will cheerfully refund your money.
