FRAIL, SICKLY CHILD

Restored to Health by Vinol-Letter to Mothers.

Anxious mothers often wonder why their children are so pale, thin and nervous and have so little appetite.

For the benefit of such mothers in this vicinity we publish the following letter.

J. Edmund Miller, New Haven, Conn., says: "My little daughter, ever since her birth, had been frail and sickly, and was a constant source of worry."

Several months ago we commenced to give her Vinol. I immediately noted an improvement in her health and appearance.

I gave her three bottles of Vinol, and from the good it has done her I can truly say it will do all you claim."

This child's recovery was due to the combined action of the medicinal elements extracted from cods' livers, combined with the blood-making and strength-creating properties of tonie iron, which are contained in Vinol.

Vinol will build up and strengthen delicate children, old people and the weak, run-down and debilitated. We return the money in every case where it fails.
