As Mr. Mansell had but one good leg, having lost his left foot in a mine accident several years ago, this last day of fate has been extremely unfortunate.

Excellent for Eczema or Salt Rheum, it cures sore lips, chapped hands, chilblains; heals burns, cuts and bruises. Unsurpassed for its uses. 25c at C. M. Parrish, Ph. G., Bellefonte, Pa.—Adv.

PARCEL POST RULES.

Farm and Factory Products to Be Admitted Under Regulations.

Postoffices have received communications from Washington concerning the parcels post that becomes effective with the beginning of the new year. Its contents show that from and factory products will be admitted under regulations that govern the addition to the mail service.

The following rules have been promulgated in connection with the system that apply on and after January 1, 1913:

"Seeds, cuttings, bulbs, roots, scions and plants will be permitted in the parcels post mails under the regulations as to size and weight applicable to other parcels post packages, but at the rate of postage of one cent for two ounces or fraction thereof, regardless of distance.

"All matter classified as third class matter will not be permitted in the parcels post mails.

"Farm and factory products will be admitted to the parcels post mails under regulations contained in the parcels post mails.

"Distinctive parcels post stamps must be used on all fourth class guide matter, including that weighing four ounces and less, beginning January 1, 1913. Such matter bearing ordinary postage stamps will be treated as held for postage."

"A parcel not more than three feet six inches in length may measure as much as two feet six inches in girth, or around its thickest part. A shorter parcel may be thicker; thus if it measures no more than three feet length it may measure as much as three feet in girth, or around its thickest part.

"Measurements will be made by means of a six-foot tape line, furnished to postmasters by the department. So much of the tape as is not used in measuring the length is the measure of the maximum girth permissible.

"Parcels will be mailable only at postoffices, branch postoffices, lettered and local named stations, and such numbered stations as may be designated by the postmaster or presented to a rural or other carrier duly authorized to receive such matter.

"All parcels must bear the return card of the sender, otherwise they will not be accepted for mailing.

"An explanation of these rules and other regulation concerning the parcels post, it might be said that maps and parcels post guides will be published which will be on sale to the public after January 1 at a nominal price.

SHE TALKED ABOUT IT.

A very good thing to do, especially when it was her own doctor that she talked with. She wanted to know about Hall's Hair Renewer for falling hair, dandruff, and for promoting growth of the hair. Now she is going to use it, will have every confidence in it. No coloring of the hair, not in the least.

Rain Doesn't Bother Anty Drudge

Mrs. Housekeeper—"Oh, Anty Drudge! It's clearing off just too late for me to do my week's washing. Isn't it too bad?"

Anty Drudge—"Nonsense, my dear. You get a cake of Fels-Naptha Soap. We'll get to work and put your clothes to soak in cool or lukewarm water, and we'll have your wash hung out on the line in no time. It would be too late to wash the old way, but you just try Fels-Naptha Soap."

You don't need an extra pair of hands if you use Fels-Naptha Soap. What's the use of hunting your good fortune at the end of the rainbow? The best fortune that you could find is done up in the Red and Green wrapper around a cake of Fels-Naptha Soap.

No housekeeper could ask better fortune than to have her work made easier, especially her washing. That's what Fels-Naptha Soap does. It does your washing for you, in cool or lukewarm water, thus saving a hot fire. The clothes need no boiling and no hard rubbing. It is the new, easy way for a woman to do her work.

Good for house cleaning, scrubbing painted woodwork, washing dishes and for all kinds of housework.

Equally good, also, for washing fine laces and delicate fabrics. It won't hurt them nor cause the colors to run, as they often do when washed in hot water.

Full and easy directions are on the Red and Green Wrapper.
