Pennsylvania State Grange is in ses sion this week at Clearfield, Pa. Wil-liam T. Creasy, the State master, sub-mitted his report for the year.

Mr. Creasy reviewed the work of the farmers' organization, attacked alleged defects in State government and then plunged into the matter of legislation from the viewpoint of the State Grange. He said in part:

"At the bottom of the whole discussion on the subject of agriculture lies great misrepresentation that the pros-perity lies in improved methods. The facts are that adverse legislation has made the farmer the hewer of the wood and the drawer of water for his fellow man. The continued independence and prosperity of the farmer depends not so much upon scientific and and a number of meritorious bills improved methods but upon the destruction of adverse legislation and the accomplishment of constructive legislation that will enable him to hold est, we hope that the Democrats will and enjoy the increment of his labor and thrift.

"Special privilege, watered stocks, taxation, direct and indirect, all need thought and action in any constructive program of legislation to better conditions. On the currency question the Grange is decidedly opposed for the government to surrender its right to others to issue the money of the country.

"We demand that American made women suffragettes, and a few of his goods be sold as cheap at home as former followers. Their arrival in abroad, and therefore that the tariff on all other articles controlled by monopolies be removed.

Oppose Bank Scheme.

"We are opposed to the Aldrich central bank scheme, or any other plan that looks toward the taking of the control of our monetary system from the federal government.

"The Grange secured the passage of the denatured alcohol law, in the belief that the waste and unsalable products of the farmer would be used for the manufacture of alcohol for industrial purposes. We, therefore, insist that such steps be taken as will make the general manufacture of denatured alcohol possible."

Mr. Creasy hopes for many improv. ed laws from the next Legislature.

Do Away With Bosses.

"The first real reform to be in-augurated at Harrisburg," he continued, "is a change of the rules of the House and Senate, doing away with Mitchell Palmer, in the hope of dis- the one man power, and lessen the work of the bosses. This is a basic throughout the state. It is a reply to dation of every reform in Harrisburg." Mr. Creasy also took up the matter account of the Democratic Chairman of equalization of taxes; initiative, of Northampton county trying to injure Mr. Palmer by issuing a letter to propriation to State College "that it coming favors the great State Pennsylvania" the erection of a building to be used as a model for buildlaw permitting the manufacture oleomargerine of any shade of yellow; of licenses to hotel keepers alone, plac-

PAYING POLITICAL DEBTS.

The Clarion, Pa., Democrat makes

"A bill has been introduced by Senator Penrose to appropriate \$75,000 for a postoffice building at Ridgway, Pa. This is probably to compensate Hon. J. K. P. Hall for all his valuable service in the recent past in handling the old Democratic machine and selling out and trading off that party to Penrose and his gang. The interest on \$75,000 is \$4,500.00 annually and that is what the people will have to pay for a postoffice at Ridgway, providing it costs only \$75,000, but it is likely cost considerably more. At the present time we venture to guess that it does not cost Ridgway more than \$500.00 to \$750.00 per year to rent a good and sufficient postoffice for that place. Doubtless, however, the people will have to pay the difference between the \$500.00, or \$750.00, and \$4,500.00 to enable Boss Penrose to reward the Hon. J.K. P. Hall for his treachery to the Democratic party and to Dem-ocratic candidates."

more bland. If the hard cake is rubbed directly upon the hair it is bound to be harsh and less bright than if the head is washed by a regularly prepared soap as directed.

Toothbrush Wisdom.

Tooth powders containing charcoai have the effect of whitening the teeth as well as purifying the breath. An excellent idea is to rub a little dry charcoal powder into the crevices between the teeth upon retiring at night, then brush it away in the morning. Charcoal absorbs all impurities, either solid or gaseous, leaving the teeth white and glistening and the gums clean and rosy. Any stray particles of charcoal that might be carried into the stomach would act as an aid to digestion rather than as a detriment. Bicarbonate of soda (common baking soda) has much the same effect, being a benefit both to the teeth and to the stomach.

A Toilet Water.

A good toilet water may be made in the following way: Take six ounces of deodorized alcohol and two ounces of powdered Florentine orris root. Put the powder in a china basin and pour the liquid on gradually until the whole is well mixed. Then add six drops of essential oil of violets, and pour the whole into a bottle and cork it. This should be kept three weeks.

When it is wanted, a little of the fragrant water should be poured into the bath.

It's Good For Insomnia.

An entire milk diet is an excellent thing for the woman who is troubled with insomnia. It is also good for the one who is so nervous that when she does go to sleep she has the sensation of falling and wakes with a terrific start. When these conditions exist it is well to subsist on milk alone for some time. A grown woman should take a pint of milk as a meal, but to keep her strength she should take four meals a day instead of the usual three.

A Difference of Opinion.

A friend once asked Uncle Joe Cannon for information as to the prospects of a politician who was at that time generally thought to be "on the ragged edge.' "He seems to think he's getting on

all right," said Uncle Joe, "but others entertain a decidedly different opinion. His situation brings to mind the story of the old lady up in Maine. When she was asked as to the whereabouts of ber husband the dame replied:

"'If the ice is as thick as Henry thinks it is he is skating; if it is as thin as I think it is he is swimming." ---Lippincott's.
