Every Woman Thanks Anty Drudge for Her Advice

Anty Drudge—"Why, Mrs. Smith; you look much better than the last time I saw you. You were all tired out with your housecleaning then."

Mrs. Smith—"Anty Drudge, I certainly am glad to see you! I never thanked you for telling me about Fels-Naptha Soap. Just step in the house, and when I get these last few pieces hung up I will be in. I never used to get through my wash till supertime, but since I use Fels-Naptha Soap, and follow directions, the work seems to do itself, and I am so much better and stronger."

Fels-Naptha Soap eases your work and saves your strength. The old-time way of doing the week's wash meant that women all over the country hated Monday. It is no fun to stand over a tub all day, rubbing your hands sore on a washboard, or keep up a hot fire, with a heavy boiler full of clothes to lift up and down from the stove.

Fels-Naptha Soap has changed all this. It is equally good for delicate summer fabrics and for heavy washing and scrubbing. It works best in cool or lukewarm water; it loosens the dirt, so that no hard rubbing is necessary, and the clothes do not need to be boiled.

And it does this in half the time that the old way took. The Fels-Naptha way is easier on you and on your pocketbook, for it saves your health and it saves your clothes, as well as cleans them.

Full directions are on the Red and Green Wrapper.

With the coming year we are ambitious to improve the correspondence department of the paper. Every town in the county should be represented in these columns. If your community is not represented will not some one volunteer. Send us the news and we will publish it.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a 10 cent bottle on our guarantee that it will cost you nothing unless you find that it does the work.
