Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; this comes out of tons caused by catarrhs, which nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrhs that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SCOTT & BOWNE, Bloomfield, N. J. 13-08

608 Clearview St., Scranton, Pa.—"I fell down on a piece of coal and cut my knee about an inch in length and almost a half of an inch deep. It turned into a running sore and got full of pus. It looked dark, and around it looked red and inflamed. I could hardly walk. Every time I touched it, it started to itch and hurt. The itching was very bad always. I tried different medicines on it but they did me no good. So I sent for some Cuticura Soap and Ointment and tried them in a few days or a week I found relief. I noticed that the knee was feeling better and that it did not hurt and I could walk much better and easier. There was not so much of the pus coming out of it. In about three or four weeks the sore stopped running and was completely cured."

"I also tried Cuticura Soap and Ointment for itching on my body from which I could not sleep. I used several different kinds of salve without result. I took a few baths with Cuticura Soap and then applied the Cuticura Ointment at night and in a short time the itching stopped. Cuticura Soap and Ointment cured me." (Signed) Julius J. Pazokas, Apr. 5, 1912.
