#### EDITORIAL.

#### IS PENNSYLVANIA REALLY FREE?

(The following editorial is from the National Monthly, a Democratic magazine published by Norman Mack, National Committee. It is a message to the progressive Democracy of Pennsylvania that should spur every good citizen to join in the movement t redeem this state from the tyrrany of Bosses,-Editor.)

Pennsylvania, concededly the most corrupt of the commonwealths of the Union, is undergoing a political transformation the like of which we would have to travel many years astern to find. Corrupt and contented Philadelphia, and Pittsburgh the city of wealth and crime, have grown, under the rule of Republican bosses, to be striking examples of boss-ruled American com-munities. There the sway of the corrupted political boss is unquestioned and unquestionable. The late Matthew Stanley Quay made the Republican organization of Pennsylvania the most powerful political machine of the country. It exacted its political trib-ute from man, woman and child until the very business existence of the State's industries became a matter of

official barter. The municipal ring of Philadelphia, which sold every privilege of munici-pal government to the highest bidder; and the boodlers of Pittsburgh, a never ending string of whom wound their corrupting trail around the business houses of that great industrial community, have contributed their unpar-donable share towards commercializing the government of Pennsylvania.

As years rolled on and corrupting policies went unchecked, the corrupt business man and the corrupt politician prospered under Republican leadership in the state and the strength Republican party grew amazingly fast. In some sections the fighting Democracy was very frequently betrayed by its leaders. To be a Democrat was to be scorned by the "best society." The ranks of the Jeffersonians grew thin and wavering. The old timers died and recruits were few. Young men feared to associate themselves with any save the Republican party councils imparted a new fighting spirit into the Pennsylvania De-mocracy during the last decade, and Mr. Taft should have no understandthe accumulating exposures of Reput

Theodore Roosevelt and Boss Flinn, ostensibly reform leaders, are fighting not for principles but for control. The Republican machinery, not social justice, is their goal, and religion, money and politics will be utilized as occademands as a means to this end. Still the new Pennsylvania is not wholly concerned in this. The Key-stone State having thrown off the grants special privileges. Every great domination of the Penrose machine has attracted the attention of the and government. Every crooked leger Pennsylvania is going to slide back now, or whether the state is going to stay free. Mr. Roose-velt, Mr. Perkins, Mr. Flinn, Mr. Munsey and the other gentlemen who are associated in the promotion of the Progressive party are Republicans, but the platform on which they stand law.
in Pennsylvania is not a Republican A platform. As President, Mr. Roosevelt gave no encouragement to any advocate of popular reform. Mr. Earl, the Pennsylvania sugar man, whose complaints against the practices of Sugar Trust at the port of New York went unheeded throughout the Roosevelt term, could speak volumes of Roosevelt's corporation Republican-

The most progressive platform ever adopted by any party anywhere is the Pennsylvania state platform on which present Legislature was elected. Will Pennsylvania live up to that platform? Is the domination of the machine to give way to the absolute rule of the people? Will Pennsylva-nia senators hereafter be chosen by direct vote? Will her judges and their decisions be subject to recall? Will the burdens of taxation be equitably distributed among rich and poor? The coming year will tell. The state's tremendous vote against standpattism has been recorded. Will the Legisla-ture continue to stand pat?

WILSON A PROGRESSIVE. Announces That He Approves Pro-

Governor Wilson on Monday pro-claimed in a speech to the New Jersey presidential electors that he in-terpreted his election as the distinct ession of the progressive impulses of the country.

"I shall not be acting as a partisan when I pick out progressives, and only progressives, to aid me," the Governor said in analyzing the spirit that he said had produced his election.

The Governor predicted no division in the counsels of the Democratic party but foresaw solidarity. "These Democrats," he said, "who hitherto have been slow to align themselves with the Progressive banner of the party are everywhere yielding. The business men of the country too, are swinging around to an unselfish and broader view of their duties to the people."

Davis will continue as director of the publicity bureau.

WILSON'S CABINET.

Bryan Gives Some Healthy Advise t

Cabinet positions ought not to be regarded as currency with which to pay debts; they are responsible posi-tions, and in filling them the Pesident-elect should look to the future and not to the past. A public official has no right to discharge political obligations at the expense of the iic. The man selected by Mr. Wilson for the Cabinet should be selected not because of personal service rendered to him nor even because of past serrice rendered to the party. The individual counts for much.

An individual, if he has had a proper motive for working, finds sufficient ompensation in the triumph of ideas, principles and policies. He does not need the consolation of office. Offices should be used to strengthen the party and to advance the things for ant to reward those who have been non and promise to supply all this faithful where that reward can be section with good electric service. given without sacrificing public interest, but where past service is considered it is better to consider an assurance of future service than merely because it has been rendered.

#### PROGRESSIVES TO ORGANIZE.

"Straight-out political organization throughout the United States" is to years. So says a statement issued in

New York recently.
"The first objective," says the statement, "is the organization of the Progressive party in every county and Congressional district throughout the country for nominating county tickets for the election of 1914, and making an effective congressional cam-

paign in that year."
As to plans for Progressive meetings in the near future, the statement

says: "A great conference of five states is to be held at St. Paul on January 24, at which the organization of the party in the states of Minnesota, Michigan, Wisconsin, North Dakota and South Dakota will be reported and plans discussed for extending its work. At a later date a conference will be held in Iowa at which representatives from all parts of the state will be present, and work of organization in that state will be thoroughly discussed. A similar meeting will be held in Kansas, where the Progressives will be form-

ally organized as a party."
Permanent headquarters will be maintained in New York and O. K. Davis will continue as director of the
