The fight is on in the United States Senate to take up the 1500 recommendations for appointments that were sent in by President Taft at the close of his term. It promises to be the liveliest contest of the year. It is a plain contest for the spoils, and it will win out.

The Bellefonte Republican sung its swan song for the Hon. Cephas Gramley last week, who seems to have been forgotten in the shuffle when legislative committee assignments were announced. Certainly Centre county was not properly recognized, but then it is hard to tell whether the Hon. Cephas is a "Regular," a modern "Bull Mooser" or a political trimmer. It looks as though they failed to locate him

It is announced from the laboratories at State College that they have evolved an electrical apparatus in the \$1200 for the purpose of sending their experimental station that will abate own representative to Europe with the the smoke nuisance where bituminous coal is extensively used. If they can do that they have won a great success and are entitled to more than million dollar appropriation.

Up to this time the Democrats at Harrisburg have gained many points in the line of progressive legislation, and the reform of many long-standing abuses. While they are in a minority they may not realize all their hopes, but thus far they have made good and there is general applause from all islature, their profession of Progressive is the state. GRAMLEY'S VOTES.

Last week when the vote for resident clerk of the House of Represen-tatives was counted Lieb—the Republican-Penrose candidate—was declar-ed elected by a majority of only two votes. Later Hon. Mr. Gramley started in by voting for Alter for speaker who proves to be a gangster; he voted for the notorious Garvin for chief clerk; for resident clerk he supported Young, Bill Flinn's candidate.
