DEMOCRATIC MEASURES.

That Will Bring Relief to the American People.

Few persons realize the far reaching importance of the fact that the United States will soon have an income tax on its statutes. First of all it means that million-aires will, for the first time since this

nation has stood, bear a fair proportion of the burden of taxation. It is estimated that one hundred million dollars will be raised annually by taxing incomes. This will mean that that amount of taxation is to be taken off of the things that the people must have in order to live and

placed on wealth. Under the system of protection as played in this country, nearly every penny of the money necessary to run the government, maintain the army and navy, construct public buildings, etc., is raised by taxing the things the eat, wear and use. The only thing that protection does not tax is wealth. A man with a fortune of ten million dollars has not been required to pay a single penny of tax to the national government. This seems al-most unbelievable, but it is true. The man working on the section for one dollar and fifty cents per day, with a family of five children, is at the present time actually contributing more run the national government than

The United States of America is practically the only one of the great ists. Nearly every first class nation on earth levies either an income tax or an inheritance tax. We have the state of the or an inheritance tax. We have nei-

Why have we never been able to place an income tax on the statute books, is the question that naturally Here is the answer: High protectionists have prevented the passage of an income tax law, because they knew that the more money the government collected from taxing incomes, the less excuse there would be for a tariff tax. To take protection away from the tariff trusts is to inhow could the tariff trusts gouge consumers without having monopolies of American markets?

The Cotton Tariff Robbery. The American people are paying annually about \$80,000,000 more for their cotton goods than they ought to pay, because of the iniquitous Payne-Aldrich tariff law. The 63rd Congress is preparing to interfere with this robbery. There will be a big down-ward revision on all kinds of cotton

cotton schedule of the Payne-Aldrich law carries an average duty of about 53 per cent. This means that every article of cotton cloth and every piece of cotton yarn that comes through the custom house, has 53 per cent, added to its foreign price. And on cotton goods that dees not come through the custom house, but is manufactured in this country, the 53 per cent. is added just the same by the home manufacturer.

When the tariff on cotton goods is reduced one-third or one-half of the by women and children, may be had dren: Vira, Hazel and Edward, at present rates, this article so much used at prices more nearly representing the actual value of the goods.

Important Realty Deal at State College One of the most important changes in realty that has ever taken place in State College was recorded last week, says the State College Times, when the rights and interests of the Nit-Real Estate company were acquired by Charles T. and James P. Aiken. The deal involves the Nittany Inn block, the Times building and all of the vacant lots and buildings on Frazier street between the Henry Fry

first floor of which has already been rented by a Shamokin man for a mov-ing picture theater. The upper floors the hotel. The management of the personal attention to it.

25 Cents For \$10 Coins.

When five Scranton boys commenced to sell \$10 and \$20 gold pieces on the streets of North Scranton Monday, for 25 cents each, with the supply apparently unlimited, curiosity was at once aroused as to the source of supply, and the boys, John McAllister, Patrick O'Mally, John Loftus, Eugene Foley and Joseph McNulty were taken into custody and given the third degree. When searched the youths' pockets produced over \$500 in gold coin and when questioned they admit-ted that they had found a "pot of

The money was buried in a box in the cellar of a house formerly occu-pied by Peter J. Scanlon, who, during his lifetime, had the reputation of being a miser. There were \$620 in shiny gold pieces in the box. The boys, none of whom was over 8 years of age, thought they were brass medals and sold about 20 of them before being arrested.

Then the esteemed marmot came out of his hole at matins on Sunday, Feb. 2, saw his shadow and at once issued an ukase, the purpose of which was that we should have real winter for six weeks to come. For two weeks the weather was real winterish. Ice of the desired thickness formed and the ice men were on the jump the entire week storing away the cold stuff for use when the torrid rays of a summer sun are at work in the land and a sweltering populace needs something that has a tinge of winter to revive Their drooping spirits.

Blow at Marriage Business. If a bill introduced at Harrisburg last week became a law, the Cumberland marriage business will receive a death blow. In addition to providing that persons affected with various diseases and persons of unsound mind are not to be married, it is stipulated that persons who go to other states to be married in violation of the law and re-turn to this state to reside, that their marriage is to be declared illegal. At present should there be any difficulty in being married in this state the couples rush off to Cumberland and are made man and wife in defiance of marriage laws of Percentage in the couples rush of the Cumberland and are made man and wife in defiance of marriage laws of Percentage in the couples in the couples in the couple of the couples in the couple of the couple o riage laws of Pennsylvania.

> The Quickest, Simplest Cough Cure

Eastly and Cheaply Made at Home. Saves You \$2.

This recipe makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually stops the most obstinate cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, croup, sore lungs, asthma, throat troubles, etc.

Mix one pint of granulated sugar with ½ pint of warm water, and stir for 2 minutes. Put 2½ ounces of Pinex (fifty cents' worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pine is one of the oldest and best known remedial agents for the throat membranes. Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the other natural healing elements. Other preparations will not work in this formula.
