The following items were contribu-ted by the young folks as per request

made in last week's items:

A disease not known to medical science, but which has been given the name "Fiddleites" has broken out in our town. The peculiarity about it is that the effects of the disease are felt by other members of the family and not the one afflicted. In the writer's opinion Harry McElwain is responsible for the spread of the dis-ease. That is he "distributes" the germs. What is it? M. Mc. the

Miss Bess Lansberry, one of Unionville's most popular young ladies, was a pleasant visitor among friends in Altoona over last Sunday. Gee, you should have seen the boys look around the corner and say, what a nice looking young lady that is, little dreaming that she came from a small town as this. But you must remember Bess the hearts of the Altoona boys are not made of tin.

About 9 o'clock a. m., Saturday, February 15th, a few boys, including myself, started on a skating trip. We first went down towards Snow Shoe On our way down we passed a boy from Bellefonte coming up the valley toward Unionville. At the Int. we met some boys from Milesburg coming up. So we all came up to Unionville together. When we reached home another boy and myself start-ed for Julian. When we were about half way up, a turkey flew up quite close to us which I could have shot. At last we reached Julian where we ight some crackers and a can of baked beans which were eaten for dinner. We then came home with some other Unionville fellows which had been up to Martha Furnace.

H. G. F. Mary was at the party the other night, but hadn't said a word, most every person had done a little stunt. Finally Mr. "Skeet" pumped up and insisted that Mary recite; she blush-ed and said, "Oh. I can't," Then she went forward and chirped:
"There was a maiden of Main St.,

Who said to her lover, "Oh, Skeit," You may kiss me of course, But you've got to use force,

And goodness! you're stronger than I." R. C. P. Our ticket agent, Mr. W. B. Parsons, makes quite frequent visits to Julian since the misfortune of his aged father of that place. J. A. P.

A delightful party was held at the home of Mr. and Mrs. S. W. Holt, Fri-day evening in honor of the 19th birthday of their son Irvin. There were about thirty young people present. The evening was spent in playing games. We also had some music rendered. Margaret Eckenroth ing the organist and Harry McElwain the violinist. When the time came to serve refreshments, which consisted of ice cream, cake, candy and coffee, it fell upon some young men to escort two young ladies to supper. Then a confusion arose between the girls, as to which one he would prefer. Be-fore the departure a flash light was snapped by George Stere, the photog-rapher. M. L.

Deafness Cannot Be Cured by local applications, as they cannot reach the disassed portion of the car. There is only one way to
cure deafness, and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the
mucous lining of the Eustachian Tube. When this
tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be
taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases
out of ten are caused by Catarrh, which is nothing
but an inflamed condition of the nucous surfaces.

We will give One Humdred Dollars for any case of
Deafness (caused by catarrh) that cannot be cured
