enjoys domestic life, who knows how to care for the money brought into the home by the husband, how to use it wisely and well for the comfort of her family, certainly understands domestic economy and should be an object lesson held up for study in the town in which she lived.

Those who are much together grow singularly alike as time goes on.

The circle of human duties is only complete by the union of those of man and woman.

Memories of what we learn through bitterness and sorrow may not always be held in regret.

Home grown virtues are not counterfeited.

Why are some people all smiles when their visitors are about, and all frowns when all are gone but their folks? Why not have some smiles for the family?

Poverty wants much and avarice everything.

Better three hours too soon than one minute too late.
