Deafness Cannot Be Cured by local applications, as they cannot reach the dismased portion of the ear. There is only one way to
cure deafness, and that is by constitutional remedies.
Deafness is caused by an inflamed condition of the
mucous lining of the Eustachian Tube. When this
tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be
taken out and this tube restored to its normal condition, hearing will be destroyed forever: nine cases
out of ten are caused by Catarrh, which is nothing
but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of
Deafness (exissed by catarrh) that cannot be cured
by Hall's Catarrh Cure. Send for circulars, free.

Or Does Everything You Eat Distress You?

Experts declare that the reason tomach disorders are so common in this country is due to hasty and careless habits of eating. Stomach troubles and run-down conditions also usually go together.

John Lind, of Oneonta, N. Y., says: "I have been troubled with a bad stomach trouble for fifteen years, and became so weak that I could hardly walk or do any work. My appetite was very poor, and it seemed impossible to get any relief. Since taking two bottles of Vinol I find that it has already made a remarkable improvement in my health; my digestion is much stronger, and I have gained in
