PORT MATILDA.
The members of the graduating class of the Washington High school were well pleased with the excellent baccalaureate sermon preached to them by Rev. Carson, pastor of the State College Presbyterian church, on Saturday evening, April 30th. The graduating exercises will be held Wednesday, April 2nd. This year's class numbers seven members, all of whom have thoroughly equipped themselves with the essentials of success. The principal, Prof. H. C. Rothrock, as is his policy, has been uniting in his efforts to prepare the young minds for the battle of life.
Miss Katherine Williams has opened up her millinery shop and is ready to accommodate the ladies with all that is latest and best in headgear. Baptismal services will be held in the Baptist church next Sunday afternoon.
John Cowher and family have moved from the George R. Williams farm to the J. H. Turner farm, in Huston township.

HENS.
In last week's issue of the Keystone Gazette we noticed that T. W. Whitney, of Bellefonte, had a little blowing about his 24 hens which are a year old. He claims that from these 24 hens he received 700 eggs from Jan. 1st to March 20th, 1913, which is 8 86-100 eggs per day in 79 days, which to one of our citizens of Howard borough seems small. Now Mrs. W. W. Schenck thinks she has Mr. Whitney beat by far, for from 10 pullets she has from Jan. 1st to March 20th, which is 79 days, an average of 5 eggs per day which makes a much higher percentage. Another thing about these 10 pullets is that 6 of them, Rhode Island Reds, were hatched the last week of April 1912, and 4 Plymouth Rocks which were hatched August 1st, 1912. These 10 pullets are cared for by a woman in this town, not a farmer.

An Easy Method.
Don't swat the flies this year when they make their annual visit to our prosperous land as there is a much easier way. After chasing the insect around the room three times, grab him by the left hind foot, then secure a postage stamp. Stand the fly on his head on the stamp and throw brick bats at him for 27 minutes. If, after that operation, the fly can still do the turkey trot with out music, shoot both barrels of a shot gun right in his face in order to put out one of his eyes. Then, as a finishing touch, hit him three times across the small of the back with a sledge hammer and call the garbage man.

New Parcel Post Stamps.
The design of a new and smaller parcel post stamp to replace those now in use was approved recently by Postmaster General Burleson. Numerous complaints that the present stamp, all denominations of which are the same color, is hard to distinguish as to value and easily "raised," caused the change.
The new design will possess no artistic merit, but bear only a large numeral. The various denominations will be in different colors. Approximately \$50,000 yearly will be saved by the smaller stamps, it is estimated.
Free advice is so plentiful because there is an overstock of mighty poor material.

Spent 59 Years in Bed.
Taken ill with typhoid fever when 21 years old and still in bed at 80 is the record of Mrs. Sybilla Schnatz, of Philadelphia, who, as she has done for 59 years, celebrated her birthday Friday in St. Joseph's hospital. She holds all hospital time records.
Since her typhoid attack Mrs. Schnatz has been unable to move without assistance. She has been an ardent student of scientific subjects. She has a telephone at her bedside and has seen trolleys and automobiles from her window. Her greatest ambition, she says, is to see an aeroplane.

Saves You Money

The best and most economical paint for you to use is that which will produce the best results in proportion to the cost. Poor paints cost almost as much per gallon as Peninsular Paints and they do not wear so long, nor cover so much surface.

Peninsular Paints

are economical. They save you money because they wear longer and cover more surface per gallon. It doesn't take so many gallons of paint for the job. We have Peninsular Paints for every purpose—houses, barns, roofs, floors, implements, etc. If it's a paint for the outside or inside, we have it and will be glad to show you colors and estimate quantities you require.
