Bright, Newsy Letters From the Various Sections of the County.

REBERSBURG.

Judge Harry Alvin Hall, of Ridgeway, Hon. Thomas Harter, of Loganway, and Hon. Mr. Kuester, of Lock Haven, recently made an automobile trip through here, stopping at Inn de Long and also at Mazon Schawver, Milheim, where they met some of our leading citizens. There is no connection between this tour and that of the State Highway mapulation.

The fish catchers in these parts are not very numerous. Wes. Hackenberg, thus far, holds the longest string.

"Fair and dry" said the expensive omniscient weather bureau, for Sunday. But the birds and tree frogs and other denizens of the woods said: "rain, more rain." The old farmer, with whom "the wish was father to the thought," repeated to himself the old saw: "When the winds from the south, it's in the rain's mouth—and nature was refreshed by a soaking rain on Sunday.

The ice cream purveyors in our burg did a thriving trade in the delicious kinds that tickle the palates of our maidens and swains, on Saturday night.

Mr. Gulsewitz farms the Thaddeus Stover plantation at Smulton, this year.

The voice of the old turkey gobler on south mountain indicates that he is standing guard over Mrs. Turkey's hatching grounds.

Prof. Karl Reed Bierly, of Seattle, Wash., arrived here last week on a visit to his father, W. R. Bierly, and aunt, Mrs. W. H. Frank. He brought his violin and music with him and expects to spend the summer at Singing Brook.

Robert Hackenberg has a team of work horses that keep him on the trot, to follow them all day.

Our merchants are well stocked with goods for the summer trade.

The Inn de Long has a reputation among traveling men as the best place in Pennsylvania for a good square meal at a moderate price and hence they like to tarry in this Arcadia of the Alleghenies.

Last week, one day, seven fair, husky, athletic artists of the Ancepagus, (Bellefonte), blew into our quiet burg, in a two-horse democrat wagon, loaded with spades, surveyor's implements et cetera, and stopped with Clarence Long. These typical engineers of the State Highway department, at once made themselves possessors of the fat of the land and other useful and pretty things. They took a bayouche across the ditchy north mountain on the way to Tylerville and having surveyed the delicity from their aforesaid democrat wagon, took the bearings of John W. Harter's inter-mountain plantation and likewise a piercing scientific perspective of Chestie Stover's gold mine, due 20 degrees west of north, two hundred perches to a black oak near run, as staked by the late Joel Royer.

Having again returned to the vale they surveyed the due westward to Noll's mill, at the entrance to Hubler's Gap, now the joint possession of Clarence Long and Jerome Spigelmyer, of Millheim the urban. Thence they proceeded in a southerly direction two degrees and seven minutes east of south to Rockville, (so-called because there are no rocks there any more). From Rockville they sped eastward past Garrett's cider factory to the place of beginning, to seek repose and "Nature's sweetest restorer, sleep." During their sojourn at the inn they were entertained as becometh gentlemen of quality. Mrs. Long, who is a hostess of excellent taste, placed upon the bounteous table the choicest plants and ferns of rare pattern. Thence seven wise men of the western hills and ridges, the home of state scholasticism, exercised their scientific wit and culture in a truly exemplary manner. They made a microscopic segregation of the pretty plants into various sections, and analyzed them by calculus, to see which were the capillaries and the lungs thereof; how a plant as well as a tree grows by xisomosis and endomosis—how it will drop and die when severed from its aerial periphery. The beautiful ceramics also enlisted their scrutiny. These were not porcelain from Dresden, but a really nice china made in Patterson, New Jersey, of a quality which even "the middleman," might have found to be valuable in solving the equation of a non-fragile brittle substance. The good landlady cheerfully swept out the debris of the scientific immolation. Starting at 1 p. m. from the Inn de Long, fed to repletion on nice fat beef, white bread and souse, etc., etc., they made a flying trip eastward over the Brungart hills and far away to Stover's taking aquilla observations for future maps and charts and from Livonia, winged their flight like Regasus of old, across the classic mountains, to the stirring scenes of Loganway. Of the many valuable discoveries they made thence and thence down the saccharine vale to Culvey's Gap, and hither and yon, the chronicles are silent. One of our wisest gentlemen suggests, however, that if, like the famous Dr. Cook, who discovered the north pole in a dream at "Fire Island," their observations and data are inadequate to pass the State Highway inspection, a la Copenhagen, they can find a complete and detailed survey of Brush valley, made several years ago by Hon. Surveyor Wetzel of Bellefonte, who we do know is gracious enough to place it at the disposal of the seven wise men from the altitudinous Alleghenies.

If our local institutions have placed their claims for state money in the guardian angelship of Pittsburg gangsters, no one will bemoan their fate. J. Nevin Meyer is one of our most progressive farmers and citizens, and forebanded in his work.

John Ziegler has sprayed many fruit trees this spring.

Our church services were well attended Sunday, notwithstanding the showers.

Mr. Heller shipped his meats to the Lock Haven market last week. He usually makes a weekly trip through the Culvey narrows, but owing to the condition of the roads there, being cut up by trout fishers from everywhere, he deemed the narrows impassable.

Mrs. Anita Hoy visited her mother at Smulton, for several days. If Millheim beats us to a Y. M. C. A. why can we not beat Millheim to a Y. W. C. A? We have the goods.

PLUM GROVE.

Miss Myrtle Iddings, of Altoona, youngest daughter of P. B. Iddings, of Plum Grove, came home on the late train Saturday night to pay a visit to her relatives and friends, returning on Sunday evening. She says she is a reader of the Centre Democrat. She did not forget to call on the scribe to see if he could give more items as they come from her native home and the first items looked for. My hat off to you, Miss Iddings. The young man from Unionville, don't tie your horse to a kitchen post. Put him in a stable and the people won't know where you were.

Farnell scribe, your question I will answer. Two shepherds met, each had a flock of sheep. The one says to the other, how many sheep have you? If you give me two of yours I will have as many as you; the other shepherd says, give me two of yours and I will have as many more than you. Ans: The one had ten and the other had fourteen.

You wanted to know the best time to catch suckers. The best time is on Saturday night between eight and nine o'clock. Call on some one by phone on business and you will get a whole line full of young suckers.

Now I will cross bats with you. Suppose a room 20 ft. square, eleven ft. up to the ceiling. A man 5 ft. 2 1/2 in. from the floor to his mouth, standing 8 ft. 4 in. from the center of the room. Now what length of a cord must I raise to attach to the center of the ceiling an apple, that when I swing the cord the apple will strike the man in the mouth. Free for all to answer.

D. W. McCloskey is suffering with a very sore hand, at present time very much swollen.

Winter grain in this place has the appearance of a flue harvest.

Such is the ways of this world, get married start in lonesome, raise a family and in old age be left lonely. Such now is the condition of Mr. and Mrs. Ellis Way, of Plum Grove. On April, 17th, their only daughter was united in holy bonds of matrimony to Guyer Alexander, of Union township, one of our enterprising young farmers. Bessie Way was one of Union township's respected young ladies, always has a kind word for everybody she meets, young and old. The call-thumpians turned out to the number of over one hundred. The treat set up was no half way treat, either.

Boggs township to the front for bad roads. Any persons traveling from Elias Hancock's to Yarnell had better take it on foot as I did, you have a little chance, but with a team you have no chance to dodge the mud holes.

In the last week's Centre Democrat the photograph of Z. S. Welch, of Howard shoeing a horse looks natural to the scribe as he distinctly remembers holding a colt for them to shoe fifty-five years ago at Marsh Creek.

Mrs. Ed. Wood, of Plum Grove, bought a hen at George Hoover's sale. She is a large hen, weighs 9 lbs. She has laid twelve eggs and they don't fill a tea cup. She broke one and found them as perfect as a large egg with a full yoke.

The scribe took a trip over to Yarnell and found the winter grain along the road looking promising to yield a big crop. The people of Yarnell can feel proud of their beautiful church they built. It is a great credit to the place and an honor to the citizens.

HOW TO RESIST Chronic Coughs and Colds. Strong, vigorous men and women hardly ever catch cold; it's only when the system is run down and vitality low that colds and coughs get a foothold.

Now isn't it reasonable that the right way to cure a cough is to build up your strength again?

Mrs. Olivia Parham, of East Durham, N. C., says: "I took Vinol for a chronic cough which had lasted two years, and the cough not only disappeared, but it built up my strength as well."

The reason Vinol is so efficacious in such cases is because it contains in a delicious concentrated form all the medicinal curative elements of cod liver oil, with tonic, blood-building iron added.

Chronic coughs and colds yield to Vinol because it builds up the weakened, run-down system.

You can get your money back any time if Vinol does not do all we say. C. M. Parrish, Bellefonte, Pa.

FACE DISFIGURED WITH BARBER'S ITCH
Pimples Came Out With Great Itching, Scratching Made Sores, Much Pain, Burning and Loss of Sleep. Cuticura Remedies Cured Him in Three Months.

2121 Moore St., Philadelphia, Pa.—"About twenty-three years ago I contracted a severe case of barber's itch. The trouble began on the left side of my face and extended down to the neck and around to the right side of my face. The pimples came out with great itching and I scratched and made sores. They caused me much pain and itching and burning and great loss of sleep. I suffered for four years and tried everything I heard of and different remedies. I had them lanced and it caused my face to be disfigured and disgusting to look at.

"Finally I began using Cuticura Soap, Cuticura Ointment and Cuticura Resolvent. I saw a great change from the first. After using two boxes of Cuticura Ointment, four cakes of Cuticura Soap and the Resolvent I was entirely cured in three months of the terrible disease and there is not one single mark on me." (Signed) Wm. J. Holmes, Apr. 6, 1912.

A single cake of Cuticura Soap and box of Cuticura Ointment are often sufficient when all else has failed. Cuticura Soap (25c.) and Ointment (50c.) are sold by druggists and dealers everywhere. Sample of each mailed free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. T, Boston."

"All is Well That Ends Well"
Along with dyspepsia comes nervousness, sleeplessness and general ill health. Why? Because a disordered stomach does not permit the food to be assimilated and carried to the blood. On the other hand, the blood is charged with poisons which come from this disordered digestion. In turn, the nerves are not fed on good, red blood and we see those symptoms of nervous breakdown. It is not hard work that does it, but poor stomach work. With poor thin blood the body is not protected against the attack of germs of grip—bronchitis—consumption. Fortify the body now with
