Ralph Malone spent Saturday night at Howard with his best girl.

Would it be proper for the minister of this place to offer up a prayer for the old and the poor and as we suppose God would bless him for doing his work right, and be kind to all whom you meet in the prayer of the scribe of this place.

We would say to the Plum Grove scribe that the supervisors of this place, instead of filling their mud holes with wind and dust the roads will never be any better as long as they are made in such a condition and we would say to the voting men, if they would vote for the state to take care of the roads it would be better.

## REBERSBURG.

Miss Bertina Stover, the music teacher, was detained from her calling, for more than a week, by indisposition which affected her throat and the nerves of her hands. She is again energetically instructing her numerous pupils in Brush valley and Sugar valley.

O Whoa! Am I so poor a scribbler that your linotypist should mistake for "the motto of Bulwer," "the moth of Bulwer," in the reminiscence of Dr. Bierly's feat at Bellefonte? In rhetoric, this would be termed a step from the sublime to the ridiculous.

The citizens here are generally satisfied with the votes of our representative, Hon. C. L. Gramly. He voted for Lovry Humes' bill for a non-partisan ballot in the interest of fair play and intelligence. Next to the "vest pocket" ticket and the "sticker" under the Act of 1939, Mr. Humes' bill comes the nearest to intelligence suffrage. The law should be so made that only those who can make up their ballots themselves, men and women, may vote, and those who sell their votes, or buy votes shall be forever disfranchised.

There is a skurrying now to hunt up fiddles since a violin professor came to town.

Some of our leading amateurs raised the dust, at about sixty miles an hour, to attend the last horse sale at Millheim.

What's the need of using a meat ax when a surgeon's knife will do?

Miss Mary Bright, daughter of Dr. Bright, is making progress admirably at the Columbia Musical Conservatory in Philadelphia. The opportunities to hear all the top-notch musicians of the world is unexcelled at Philadelphia.

Speaking of Bellefonte as the areopagus of Centre county leaves an opening for the inference that the beautiful is the fountain head of legal lore as well as a fish hatchery.

Centre county certainly is favored as the home of navigators. During G. C.'s administration, Hon. P. G. Meek of the Watchman held the post at the port of Philadelphia and now W. W. favors the county again in the choice of Hon. Chas. R. Kurtz of the Democrat, a well-earned position. Democratic newspaper men who mold public opinion deserve the party rewards.

The constitutional convention of 1873, to amend the constitution of 1838, cost over \$500,000, for the convening of the convention itself, and the salaries of the members at \$1,000 each. The subsequent cost of advertising the constitution was \$500,000 more. The Philadelphia noodles and flappoodles who expatiated before the legislature last week simply sprayed the lawmaking animalcules with hot air and vagaries. Those Philadelphia bugs imagine that the little confines of that city of nincompoops embrace the whole of North America. The people at large, can see no reason why the constitution we have is not sufficient. It would be a blessing to the poor tax-ridden, exploited people of Philadelphia, if the state at large rejected the convention at the polls and saved them from confiscation.

## DANGER FROM GRIPPE

Lies in That Cough and Weak, Worn-out Condition.

Grippe, pleurisy, pneumonia, these are greatly to be feared at this time of the year.

To prevent grippe from being followed by either pleurisy or pneumonia, it is important to drive the last traces of it out of the system quickly.

Our advice is to take Vinol, our delicious cod liver and iron preparation without oil, and get your strength and vitality back quickly.

Mrs. A. A. Grabill, of Strasburg, Va. says: "Grippe left me weak, run down and with a severe cough, from which I suffered four years. I tried different remedies, but nothing seemed to do me any good until I took Vinol, from which I received great benefit. My cough is almost entirely gone, and I am strong and well again, and I am glad to recommend Vinol to others who suffer as I did."

Try Vinol with the certainty that if it does not benefit you we will give back your money, G. M. Parrish, Bellefonte, Pa.

## The Best Treatment for Itching Scalps, Dandruff and Falling Hair

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura ointment on the scalp skin rather than on the hair. The next morning, shampoo with Cuticura soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair. Cuticura soap and ointment sold everywhere. Sample of each mailed free, with 32-p. Skin Book. Address "Cuticura," Dept. 3, Boston. Tender-faced men shave in comfort with Cuticura Soap Shaving Stick, 25c. Sample free.
