Bellefonte Academy added the scales of Bloomberg and the Lyceum school team of Altoona to their string of victories last week by scores that were close enough to make interesting sport for the many fans who witnessed the games. Friday's game was with Bloomberg and was played on Hughes Field. Academy won 7 to 5. An interesting feature was the pitching of Calvin Smith, son of Reelster J. Frank Smith, who allowed the visitors but four hits. Saturday's game was played on the P. R. grounds at Altoona, and in spite of Lyceum's aggression of old stars, Academy brought home an 8-6 score. Symes was in his usual good form and pitched a star game.

The frigid weather that prevailed the forepart of the week has damaged the fruit and garden truck to a considerable extent in some localities while in others its effect is hardly perceptible. In Bellefonte the mercury dropped below 20 degrees Sunday morning and again on Monday morning. A heavy frost prevailed both mornings and ice was formed in patches of water in many gardens. Tomato plants became withered and beans and early potatoes, which had just come through the ground, were badly frost bitten. Grapes are beginning to blossom and in many instances the vines of the vines were frozen and turned black, and nearly the entire crop has been ruined. The damage to fruit cannot be fully ascertained, but there is no doubt that the freezing weather will result in a short crop in some sections of the county.

A Progressive Poultry Farmer. A recent visit to the poultry farm of William Harshberger, near Roopersburg, gave the writer a clear insight of modern methods of raising poultry on an enlarged scale. The proprietor deals exclusively in White Leghorns, and it is an interesting sight to stand at the door of his 160-foot pen and view his flock gathering in the pen. Mr. Harshberger is planning to erect more buildings that will give him room for expansion. Eighty feet will be added to one end of the already large pen, and at the other end will be erected a three-story building, fifty feet in length. BAN ON CIGARETTES.

Boys and cigarettes will from now on part company, if the provisions of the new Thompson bill, recently signed by Governor Tener, are carried out. The bill prohibits the sale of cigarettes or cigarette papers to persons less than 21 years. Such sale is made punishable by a fine of from \$100 to \$300. A minor in possession of cigarettes is required to tell where they were obtained. Refusal to do so is made a misdemeanor. "If the offender is over 16 years of age, the penalty is a fine of \$5 or imprisonment for five days. If under 16 years the juvenile court is to take charge.

Whether or not the new law will be effective in decreasing the injurious cigarette habit among youths, is a question. All the laws that man can devise will amount to little if they are not carried out. Heretofore the law has been a dead letter, simply because its provisions have never been rigidly enforced. True it is some dealers have been careful in their sale of cigarettes, but the number who have not is large enough to kill the good effects of the law.

Another factor to be considered will be that of men of mature years furnishing minors with cigarettes. In many cases young boys are unable to purchase the forbidden "smoke" and will get others to buy them. It will now be the duty of police officers and constables to see that this practice is also stopped, and in every case that comes to their notice to prosecute same. In this way only will the consumption of cigarettes among boys be diminished.

Judge C. B. Staples, of Stroudsburg, has taken the right stand by announcing on Monday that he will see that the new law is rigidly enforced within his jurisdiction. Judge Staples said that it will not do for a boy to say that he found the cigarettes, for that excuse will not be received. If a boy sees cigarettes lying in the street he has no business to pick them up, he said. Judge Staples stated that it is his duty to see that the law is enforced to the letter, and he added that under the provision of the same a boy has no right to have a cigarette in his possession. The constables were informed by the court that it is their duty to take a boy to jail when he gets his cigarettes and to help enforce the law.

"Yes, Mother—" "John, shut that trapdoor." "All right, Mother, if you say so, but—" "John!" John slowly climbed the stairs and shut the trapdoor. The storm howled and raged.
