While jumping on a freight train on Sunday evening, he struck his head against a car on an adjoining track, causing some ugly bruises. Lucky he escaped without serious injury. This should be a warning to boys to stop this awful risk to loss of life and limb.

MARTHA FURNACE.

The farmers are about all done planting corn. The weather is very dry and cold. The fire in the woods and on the mountains is raging at present. There was quite a destructive fire took place on Saturday afternoon which burned all day Sunday. Someone set fire to the woods near the Henderson Bros saw mill located on the A. C. Williams timber tract, and before help could be gotten the fire had burnt up quite a lot of lumber and two shantys and all the contents and a lot of railroad ties. The fire spread very rapidly, it being very dry and windy. It ran all over O. D. Ebert's tract of timber, about two hundred acres, and burned up about a carload of bark that had just been peeled last week; burned a portion of Joseph Stover's and D. W. Heaton's timber and destroyed portions of Frank Devine's fence. While the fire was raging on Sunday about fifty people volunteered to help subdue it, but could do nothing as the wind drove the fire so fast that it was impossible to get control of it. The fire on Muncy mountain is still raging and D. O. Downing's saw mill is in danger at present. Since fire wardens have been appointed it seems strange that we have more fire in this and adjoining neighborhood than there has been for some time.

H. Williams, wife and two children were visiting at his parents at Mountaineers over Sunday.

Gorden Huey and brother, of Fillmore, were visiting among friends on Sunday.

Last week while some of the men were working at the fire on Muncy mountain they found two dead wild turkeys where they had been hatching, and the eggs destroyed. These forest fires are doing a great deal of damage to the small game.

Facts in Nature

FOR centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute at Buffalo, N.Y., used the powdered extracts as well as the liquid extracts of native medicinal plants, such as Bloodroot and Queen's root, Golden Seal and Stone root, Cherry bark and Mandrake, for the cure of blood diseases. This prescription as put up in liquid form was called

DR. PIERCE'S Golden Medical Discovery

and has enjoyed a large sale for all these years in every drug store in the land. You can now obtain the powdered extract in sugar-coated tablet form of your medicine dealer, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Invalids' Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—as thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

Ere then—yes, right now—start a picture record 'of them. You will have, in a few years, a collection you will value far above the slight cost. And the little ones, then grown up, will appreciate your thoughtfulness in having them photographed while young. Better start NOW.
