Bright, Newsy Letters From the Various Sections of the County.

### To Our Correspondents.

For the past month or more our correspondents have been failing to send to this office their weekly letters of news happenings from their locality. We desire that our correspondents in the county send us the letters weekly and in that way co-operate with us in our effort to make the paper the best in this section. We have many good correspondents and we have but words of praise for all of them, but we miss the weekly letters very much and desire to ask them to continue the communications weekly.

### REBERSBURG.

"He that by the plow would thrive, must either hold himself, or drive." A thrifty example was set when the lady held the lines in Rebersburg, the other day, while a young gent, held the plow. The potatoes ought all be fine.

Your Unionville correspondent last week gave an interesting account of the death of William Kreamer at Petersburg and inquired about the sister to whom William's watch was sent. We think Charles Beck of Smulton could give the desired information to Major Alexander. According to our information this sister married Benjamin Beck and both are now dead. Shortly after the disastrous Pope campaign from Culpeper to Manassas Junction, William Kreamer was given a furlough to visit his parents who then resided in Rebersburg. It was his last visit home. He then gave his young friends a thrilling account of the desperate hand to hand fighting in which he had engaged on several occasions. When asked about a bayonet charge, he said it was devilish slaughter. He said the running of a bayonet through a person was easier than drawing it out; for, when the impaled man sank and writhed, his assailant could hardly withdraw. In a charge, and was himself liable to get thrust through by the next man.

On Saturday a highly exciting game of baseball was played between the Juniors of Rebersburg and Wolfs Store, the game tallying 37 runs for the latter and 34 for the former. The way they hit the ball and ran bases was a reminder of the status of the game, when there was some real sport in it.

Clark Gramly returned from a week's tour of the state in the interest of his machine house.

Wes Hackenberg came home from a western trip, on Saturday.

Mrs. Boyd Hazel, of Madisonburg teaches piano to some of our youths. There are several kinds of "saws"—with some you saw wood with some you try to "point a moral" to adorn a "tale"—but it does not sometimes, nevertheless, yet, always "take," as it were.

Capt. James Corman takes deep interest in the success of Decoration Day exercises.

Harry Musser is pursuing his vocation as tutor in Philadelphia.

"Squire Carlin keeps up to date on laws. It takes a sleek greyhound of law, nowadays to catch the jack rabbit of a trading and log-rolling legislature.

There are many gifted young musicians in our valley—and their parents have the price and the zeal to pay for the very best instruction. Numerous requests have come to Prof. Karl Reed Herly to organize and instruct a violin class, during his sojourn here. Rebersburg might as well have a musical conservatory, as Freeburg in Snyder county. Not so?

If a man would be a successful politician he should bear in mind what Cornelius Nepos said of Cimon, son of Miltiades: "Nulli fides ejus, Nulli opera, nulli res familiaris defuit"—that is: His faith to none, his services to none, his estate to none was wanting. The same maximum was taught by Cicero. A true politician who is also a statesman, always keeps faith with the people.

The arrangements for this year by the local G. A. R. post for suitable observance of Decoration day, contemplate the usual ceremonies of decoration at Rebersburg cemeteries early in the day; then at Madisonburg; afterwards at Millheim and last at Aaronburg, where more elaborate exercises will be held.

The U. S. mail route from Logan to Rebersburg has been captured by Ed. Stover.

Ed. Brungart has the contract to serve Uncle Sam's postal business between Rebersburg and Livonia.

Fires have raged all around the past week. The rains came none too soon.

The state forestry outfit were planting trees last week on the reserve east of Livonia.

The late frosts destroyed plums and cherries on lowlands, but it seems the uplands did not suffer, thus proving the old saying that frosts settle down in the valleys. Trees protected from the forenoon sunshine were also saved.

Jasper Brungart made a trip last week to Union county, over the old market route through the long narrows, which revived memories of boyhood days.

A number of our citizens attended the obsequies of William Kreamer at Millheim on Thursday.

Miss Sarah Meyer is visiting her sister, Mrs. Weber, at Washington, D. C.

Constables are no longer fire wardens. If fire endangers your woods remember the adage: "God helps those who help themselves."

All glory to Gov. Hiram Johnson, of California, for standing up for sacred democratic state rights. There are some people here who know that the California Japs are nuisances.

The early watermelons and citron crops are irretrievably ruined by Boreas' shaking his frosty whiskers; but the strawberries are safe and our ice cream purveyors, Madames Hackenberg and Gephart, will not want for delicious flavors to satisfy the most fastidious taste. If the strawberries should fall they can fall back on walnuts and hickory nuts as substitutes.

Amos Fehl and wife, of Smulton, paid a visit to relatives in WilliamSPORT.

Elk creek has staid in its crooked bed pretty contentedly this spring.

Cal. Weaver is banking on a large acreage of corn this year. "Corn is king."

You can generally make a little truth go a long way by stretching it.
