There is little danger of a war with Japan over the California dispute. IMPROVED SERVICE.

A Washington special to the Pittsburg Post, on Monday, shows that the new Postmaster General Burleson, like President Wilson, is attending to business, and, among other things of importance to the people, has discovered why the postal service in many business centres has lacked expedition. It will be remembered that his immediate predecessor boasted of his achievement in erasing the deficit in the department. Mr. Burleson has discovered that this result was accomplished at the expense of efficiency in all arms of the service and remedy by requiring postmasters in national committee, treasurer. the large offices to work and earn their salaries, instead of running political conventions, in the role of party bosses.

known, was too busy rounding up varicolored Taft delegates, and set the pace for all the big guns in his department. So it happened that in large cities like Philadelphia, Pittsburg, Reading, and wherever there was a boss, the service degenerated. Even the subordinates became politicians and the public was helpless. Mr. Burleson will do well to go through the entire system from centre to periphery.

The inquiry followed accusations made about three weeks ago in the course of a debate in the National House of Representatives by A.
