Work on the State Road was closed down on Monday last and it is not likely to start up again this year. They left quite a stretch through town not finished. The road is full of large stones that were hauled on and not broken and the ditches not made and the first rain will likely flood the town. If our supervisors would leave a piece of road like that they would soon be hauled over the coals but since the State has the road they do as they please. There should be something done in regards to the ditches and large stones through town. Why don't the State live up to the laws they make?

## FRUIT TOWN.

Well, here I am again; after a few months' absence, I am back in time to hand in my news. I am always glad to see you all. I certainly had an awful time on my arrival, when my good old friends gathered around me; some janced, others cried for joy. I then got in my auto and discovered one of my tires was punctured. By the time I was repairing it a bystander walked up and said: "Any trouble?" "Some," was the laconic answer. "What power car is it?" "40-horse," I answered. "What seems to be the trouble with it?" "Well from the way she acts, I should say that 39 of the horses were dead." I then started for P. C. City when I met a little blustering man. He asked if I was the Fruit Town scribe. I said I was. "Do you know to what sect I belong?" he asked. "Well, I don't exactly know," was my answer, "but to judge from your make, shape and size, I should say you be long to a class called the insect."
