—Miss Ethel G. Hettiger passed through Bellefonte Wednesday en route to her home in Spring Mills after a pleasant visit of two months with her aunt, Mrs. B. E. Phillips, of New York City.
—The rumor that Mrs. Morris Yeager, of this place, will take charge of a fraternity house at State College, is not correct, as Mrs. Yeager informs us that she will remain in Bellefonte this winter.
—One of the prisoners employed on the new penitentiary at Peru is said to have been sent back to Pittsburg recently for attempting to dodge his work by feigning sickness. Some men will never know when they are well off.

—Louis Hill departed Tuesday for a three weeks' vacation which he will spend with his aunt, Mrs. Jacob Whiting at Oconto, Wisconsin. He has a great many relatives in that section and during his stay there he will attend a reunion of his family. It will no doubt prove an interesting and enjoyable trip.
—Mrs. J. B. Leathers, of Mt. Eagle, accompanied by her daughter, Miss Florence, were pleasant callers at this office while in town on Wednesday. Lane who will join the Witmers on a trip which they are about to take through Canada.
—C. C. Monagan and wife, of Hagerstown, Md., visited his brother, Dennis Monagan, at Coleville, from Sunday until Thursday of last week. As this was the first time the brothers had met since their boyhood days, thirty-five years ago, it was naturally a joyful occasion. Mr. Monagan has been in Hagerstown for the past thirty years and holds an excellent position with the Baltimore & Ohio railroad.
—There are many events that could be depicted very interestingly in motion pictures, if an operator happened on the spot at the right time, but as he does not, the public is the loser. However, there are many good films shown at the Scenic every evening. To-night there will be presented an up-to-date dramatic sensation "Tapped Wires" an Essanay film in two parts. Saturday as a special feature Manager Brown will present a Vitaphone two-reel film entitled "A Prince of Evil," a photo play of great dramatic power. If you want to spend a pleasant evening go to the Scenic.
—John Baylets, the 14-year-old boy who was arrested last week upon complaint of Cyrus Shoop, of near Jacksonsville, was brought before Squire Musser on Thursday evening and granted a hearing. Mr. Shoop, who is the proprietor of a small store, complained that young Baylets had been guilty of several acts of malicious mischief, chief among which was the stealing of two empty ice cream cones about ten days before, and on a previous occasion attempting to enter his store room by a rear window. Both of these charges the boy denied, and tearfully maintained that he was being imposed upon by the prosecutor. The fact that the youth is still under the care of the probation officer, while serving a term of parole from the Glen Mills school, made his case more serious than it otherwise might have been, and the Squire was in a state of perplexity for a while regarding its disposal. Mr. Walters, a farmer residing near Jacksonsville, who was present as a witness, furnished a remedy by testifying that the boy had worked for him on his farm and had given a good account of himself. It was then decided to turn Baylets over to Mr. Walters' care, until a final disposition of the case can be secured in the juvenile court.

—John Ammerman, of the Glass Works, who has been in the employ of M. R. Johnson the past summer, was confined to his home last week with a severe attack of sciatic rheumatism. He is now able to be about again.
—Sheep dogs on J. N. Hoyer's farm near Pine Grove Mills one night last week, killing two of his choicest ewes. The same night dogs mangled A. C. Kepler's flock, wounding a number of lambs.

—When the new high school building was erected several years ago concrete steps were built on a deep fill at the south end of the building. The ground settled and the steps broke loose from the concrete entrance. They were torn away last week and a new set will be built.
—Rev. Ezra H. Yocum, the faithful and efficient pastor of the Methodist church, left last week for a month's vacation, his first stop being Bedford county where he will spend a week or ten days then to Luzerne county and from there to Lackawanna. Everyone wishes him a pleasant vacation.
—John Tate, formerly of this place, but now of Washington, Pa., was visiting friends and relatives in Bellefonte from Saturday until Tuesday. Mr. Tate is superintendent of a tin plate mill at Washington and one of his reasons for making the trip here is to see the Squire.
—The Bell Telephone company of Pennsylvania on Friday received a new Kritt delivery car for use in the Bellefonte district. Their traveling equipment here now includes, in addition to the above delivery car, two Buick touring cars to haul it from place to place, and is said to give one of the best two-ring performances of its class in the world. It has been giving the best of satisfaction wherever produced. Remember the tents will be erected on the new Hughes athletic field, east Bishop street.
—The Lock Haven Express says: "Miss Louise Swope and Miss Vera Marge, two of the popular operators in the Commercial telephone exchange in this city, spent Sunday as the guests of Miss Madge Gehret in Bellefonte. The young ladies report a delightful time in the town built on a hillside and every minute of the time while away was that of pleasure.
—Prof. Lewis E. Boob, who for the past twelve years has been an instructor in music in Akron, Ohio, where he is meeting with great success, was a caller at the Democrat office on Monday while on his way to his old home at Aaronburg. Mr. Boob's visit to Centre county at this time was prompted by the serious illness of his mother, Mr. Robert Boob, who is confined to her home in Aaronburg suffering from the result of a slight stroke of paralysis.
—Mrs. Toner Aikey, of this place, has received news from her brother, John Barner, who is a patient in the Wills Eye Hospital at Philadelphia, that the doctors give him no encouragement for saving his eyesight. In fact, he has reason to believe that in a few weeks he will be totally and permanently blind. Mr. Barner is a former resident of Bellefonte, and he will have the sympathy of many friends in his misfortune. For several years he has been employed as fireman on the Pittsburg division of the Penna. railroad, and the intense heat to which his eyes have been subjected is attributed as the cause for his loss of sight. A diagnosis by the hospital physicians has revealed the fact that the tear ducts of both Mr. Barner's eyes have been burned out, and his case is considered hopeless.
—A merry party of young people drove from Union City, Pa., to this place in a large Paige touring car last week, arriving here Thursday afternoon. They were the guests of Mr. and Mrs. D. L. Willard, north Thomas street, until Monday morning. The party consisted of Mr. and Mrs. Paul S. Ronse, Mr. Paul G. Kunkle, Misses Imogene and Kattie Hayes, and Miss Vera M. Willard. They spent the day visiting the many interesting points around our town and all agreed it was a charming country. Miss Willard, who had been in Union City since last June, taking care of the victims of the automobile accident, an account of which appeared in this paper at the time, will now remain with her parents and resume her work here as professional nurse.

DR. VAN TRIES' OBSERVATIONS.
On Friday evening of last week Dr. Thomas C. Van Tries returned home from an extended tour of the west. Among the cities and places he visited were Chicago, Omaha, Lincoln, Neb., Denver, Colorado Springs, Manitowish and Pikes Peak, Salt Lake City, Ogden, Sacramento, San Francisco, Los Angeles, Pasadena and adjacent towns. He traveled nearly eight thousand miles, not so bad for a young man as nearly 74 years. The doctor was delighted with his trip and talks very entertainingly of the scenes and incidents through which he passed.
He was delighted with Salt Lake City. It is beautifully situated at the base of the Wasatch mountains. Population 110,000. Most of the Mormons, and looked into their peculiar institutions. Was introduced to Joseph F. Smith, President of the Mormon church, and his Board of Councilors when they were in session in the city of Salt Lake. The gentleman is a pleasant and courteous man.
California is emphatically the land of flowers, greatly surpassing the south in this particular.
The doctor was surprised and forcibly impressed with the immense area of excellent land which is useless from the want of water. This is especially true of Arizona and New Mexico. The river beds in summer are as dry as a city street and irrigation is impossible. This largely explains why Congress delayed so long in the admission of these two states. These lands are as level as the prairies of Illinois, and when irrigated, are just as productive. The doctor thinks San Francisco is the crowning glory of the United States. The Panama Canal will bring it into connection with the trade of Europe. China and Japan are destined to be among the leading civilized nations of the world. Their traffic with the United States will then be immense. The Golden Gate is the entrance to San Francisco bay, and is about one and a half or two miles wide. Inside of the bay or Harbor of San Francisco, which is about 70 miles long, varying in width from 5 to 15 miles. Completely sheltered on all sides, it is the largest landlocked harbor in the world, into which the largest and heaviest ships can enter with ease on all sides. The harbor has few if any equals in the world. Its ferry and excursion boats are screw steamers, not side wheeled.
Los Angeles is a delightful city. Pasadena is eleven miles from Los Angeles, and is a city of homes. Its population is 35,000. Has no saloons and few manufacturing concerns. The residences of forty millionaires from all parts of the United States. Part of Pasadena abounds in the most wild and romantic scenery. Its orange groves are famous. The doctor was much interested in the many large orchards of English walnut trees. Also some almond orchards which he saw in the Sacramento Valley. Orchards in California frequently contain from 50 to 100 acres. There are also immense fields of sugar beets and lima beans. The climate is tropical. Palm trees, especially the date palm, abound, to say nothing of the beautiful magnolia and oleander with their gorgeous and fragrant flowers.
On the opposite side of the bay from San Francisco is Oakland, a city of 250,000 inhabitants. Trains from the east come to Oakland, and are then run upon ferry boats or transports, and the passengers are thus conveyed across the bay to San Francisco.
Mrs. J. M. Mullinger, of Chicago, surprised her many friends in Spring Mills on Monday when she arrived at the home of her parents, Mr. and Mrs. C. C. Bartrages. Mrs. Mullinger has been away for more than a year, and although city life holds attractions for her, she still retains her love for the beautiful and wholesome country. Mr. Mullinger is employed by the Acme Supply Co., and his duties would not permit him leaving the city at this time. Mrs. Mullinger will visit her husband's parents at Pleasant Gap before returning to Chicago.
