Mrs. Gardner, whose rapidly falling eyesight makes it impractical for her to care for herself, has taken up with them, and is therefore assured the best of care, as Mrs. Wyland is one of our kindest and most capable young women.

Miss Eva Neff returned home last week from a three-weeks' trip westward and northward, and probably saw as much of our country in that time as any girl of our town has ever seen. Buffalo, Niagara, Tonawanda, Toronto, Loraine and Cleveland, all contributed liberally to the enjoyment and improvement which her trip yielded her.

Wedding cards have been received here for the marriage of George C. Haagen, one of our excellent young men and Miss Ada M. Hess. The happy event will take place at the Hess home in Lancaster, Thursday, Sept. 25. Miss Hess is a niece of Rev. Enoch Hess, who preached in his neighborhood when he was connected with The Pennsylvania State College, as student and teacher.

The Howard letter thus makes his compliments to three of his very, very young lady friends, the Misses Pearl Coffer, Vonda, Johnson and Pearl having out a car load of fertilizer in his house last Friday evening, pitying him because of his loneliness in the absence of the more important member of his household and prepared for him, and themselves as his guests, a handsome and appetizing supper. Neither of his mothers, their sisters, nor their aunts could have made any improvements. The meal was fine and their company delightful.

J. Will Orr, one of Nittany's substantial farmers and good citizens, was twice in our town last Thursday, an unusual thing for him, unless he is hauling out a car load of fertilizer or bringing in some of the fine crops he grows by their use. He wore a white collar and a clean-shaven face, and some other appropriate things, and it is presumed that on the first occasion he was making a heavy coat of the water as he was seen in consultation with president Abraham Weber. The second time he was in a nervous condition over the loss of his fine gold piece-ness which he found missing when he returned home from the morning journey, and assumed he had lost in Howard. After vainly searching at all other places he visited, he called at the Weber store, and reported his trouble. Mr. John listened attentively to his tale of woe, and having had many a similar experience of his own he dived straight for Orr's several pockets with the expertness of either a pickpocket or a policeman searching a suspect, and landed on Orr's glasses at the bottom of the inside pocket of his own vest! Orr is side good a Presbyterian to say what he thought, but I would give the big red apple standing on the top of my desk to have heard what he said when he got away up in the lonely narrows when on his way home.

CHERRY TREE DISEASE.

The following from Chas. A. Green, the veteran fruit grower of Rochester, N. Y., and editor of Green's Fruit Grower, will interest all readers who have cherry trees, which show exudation of gum from twigs and limbs:

Dear Sir: "It is very difficult to tell from the samples of twigs you send us just what is causing the gum to ooze forth from the bark. This oozing of gum is not a symptom of any one disease. There are a great many causes that cause the gum to ooze forth. If the tree is affected by borers or if the wood growth has been too fast, or if the tree is producing too much fruit, or if the tree becomes bruised or half struck, or if it has ripe rot, it is very apt to produce this gum. The most common cause for it is the ripe rot. You can tell this disease because it causes the wood to shrivel up and the fruit to become first brown, then black, and finally to become decayed before the season of ripening arrives. If the symptoms you have noticed would indicate that it is the latter, disease we suggest spraying with a very weak solution of Bordeaux mixture while the foliage is on, and then this fall spraying with a strong solution, and again next spring, following this up with weak sprays during the season of foliage. Yours very truly CHAS. H. GREEN.

Must File Expense Accounts. When the candidates who run for office at the coming election are finished with their campaign, whether successful or unsuccessful, in either primary or general election, they must file their expense accounts in the same manner as formerly, according to the primary act. Where the amount received or expended is less than \$50, an affidavit to that effect is sufficient. Any candidate receiving or expending more than \$50 must make a full and itemized account of his receipts and expenditures, which must be sworn to. Expense accounts must be filed within 15 days after the primary and within 30 days after the election, with the secretary of the commonwealth for state offices, and with the clerk of the quarter sessions for the county and other purposes.

Last week, Mr. Thos. Lambert, by direction of the town council, turned into the water of the large spring into the cellar or better known as reservoir but I am sorry to say that the water ran out as fast as it ran in. That the "cellar" wall would leak was a forgone conclusion. It was condemned by a member of the State Board of Health. It is about the "burnest" piece of contract work we ever saw.

We had the pleasure of shaking hands with Mr. R. H. Stamm, of Marion township, who is a candidate for Jury Com., and I want to say that I was very favorably impressed with the gentleman, and if he gets the nomination (and he will) we'll bet dollars to cents he'll be the majority Jury Commissioner for the next four years, with a large M.

As Mr. and Mrs. Holderman were returning from the fair on last Thursday evening in a buggy, their horse frightened at an automobile, jumped to one side overturned the buggy and threw them all out on a heap but fortunately no serious damage was done. The auto was standing, not moving and as they came opposite, the chauffeur "cranked" his machine which frightened the horse causing the accident. It occurred not far from the M. E. parsonage in Milesburg.
