NITTANY.

Friday is counted as an unlucky day. While we don't have any faith in anything like that, yet last Friday was a very sad day to a number of our surrounding neighbors.

Squire Eason met with quite an accident last week. While at the farm picking fruit he fell from a ladder and broke two of his ribs. It seems trouble never comes single in the family.

Safest Laxative for Women.

Nearly every woman needs a good laxative. Dr. King's New Life Pills are good because they are prompt, safe, and do not cause pain. Mrs. M. C. PLUM GROVE—Union Twp.

Our public school opened on last Monday with Prof. Everet, of Coburn, as teacher.

Jack Mitchel is still on the go thrashing; he has been already at fifty-seven barns since the thrashing season commenced and expects to reach eighty before the close.

Visitors at the home of P. B. Iddings on Sunday were: Miss Rachel Flick, Adia Brower and Rev. Stieck, of Muncy, who preached at the Plum Grove school house and addressed the Sunday school at three o'clock.

Last Tuesday evening your scribe had the pleasure of shaking hands with Mrs. Nelson Lucas, of Washington, D. C., at one time a resident of Centre county, and a sister of Mrs. Ellis Way of this place, where she expects to spend three weeks among old neighbors and friends before returning home. We found her to be a very intelligent and refined lady.

It is reported that the old man McCloskey said some words we can't find in the good book when Ed. Woods' sheppard dog tore up his straw hat. He cooled down when he saw the big frost.

P. B. Iddings, one of Plum Grove's busy farmer and road master, left on Saturday morning for Altoona to visit his daughters.

The frost on Tuesday and Wednesday mornings did but little damage, but Saturday night and Sunday morning Jack Frost played havoc with the tender vines.

What is the attraction that brings Forest to Plum Grove so often? Ask Ruth.

It is something new, so that the hitching post at the forks of the road, was not occupied on Saturday night; ask Helen why.

Ed. Hall's baby that has been on the sick list for the last three weeks is now improving.

Visitors at Ellis Way's last Thursday were, Mr. and Mrs. Rhoads and son, of Coleville; Calli Way, of Fleming, and Mrs. Nelson Lucas, of Washington, D. C. You can be your last penny but Mr. Way knows how to entertain her guests and make them feel at home.

The stork flew across our village last Thursday, leaving a young daughter at the home of Alvin Corman.

Bessie King spent a few days with her grandparents at Lyontown last week.

We are sorry to hear that Leroy Smith is seriously ill in the Lock Haven hospital with typhoid fever.

Any body wishing to hear Swaney River sun should call at H. E. Corman's; he has been practicing it.

Phillip Walker says his potatoes are few, but large.

FILLMORE.

The corn cutting is in full swing now. The frost is helping to ripen the green corn with the other.

The festival was well attended on Saturday evening; it was a cool evening, but that didn't hurt the sale of ice cream. A few members of the church were dissatisfied with it. One man thought they did great harm by leaving a few peanut shells on the floor. They are very glad to handle the money but do not appreciate the work of other people.

Forest fires are raging along Muncy mountain; no one seems to know how it started, unless it is the sun shining on the leaves and they ignited and started to burn. They will make good huckleberry patches in a couple years.

J. C. Rockey and wife went to Centre Hall on Saturday where they will visit relatives and take in the sights at the picnic.

On Sunday, September 28, there will be a special meeting in the Methodist church at this place. I am unable to give the time of the opening of the services.

FROM THE LAND OF TEXAS.

Port Bolivar, Tex. Sept. 6, 1913.

The Centre Democrat, Bellefonte, Pa. I notice in the papers, that many localities in the North are suffering on account of heat and very dry weather. Even Kansas and the northern part of Texas are suffering a great deal on account of the drouth.

But along the gulf coast we have fine rains always cooler weather, and good crops. I am well acquainted with several truck farmers that made over \$900 on four acres of land, with melons this summer. Melons are on market here from June until October.

Sweet potatoes are marketed now, and a large crop; the present price is from 75c to \$1 per bushel. Irish potatoes, \$1.25 per bushel; pears 50c to 75c per bushel; apples and oranges 2 for 5c; eggs 25c the year around; butter 40c. Work is plenty at Galveston, where I am working generally, and better wages paid than at any place I have ever been. But Galveston is almost a solid union organized city. Our carpenters local has some five hundred members, while there are thousands of union dock workers and International Long Shoremen.

The U. S. battleship Michigan is at present anchored in the Bolivar channel, and Galveston has been well blessed with man killers all summer. There are many Mexicans in this part of the country. But I can say the conduct of our soldiers in public generally is no comparison to that of the Mexicans. They have no respect for ladies or anybody and they boldly violate the law when one gets into trouble, even went so far as to lock a justice of the Peace up for several days and threatened him if he informed. But they are Wall Street's hirelings and are not taught to have respect for the working class who produce the wealth of the nation.

Yours respectfully, J. W. BRUNGART.

CURTIN, No. 2.

Those who were visitors in town Saturday night were M. D. Garman, Mr. and Mrs. Bruce Lingle and Mr. and Mrs. Fred Shope.

A large number of people attended the funeral of the late Mrs. Charles Emehizer, Sunday afternoon.

Well Harry, how are you and the new auto getting along? We hear L. H. Neff is contemplating buying it; wish him success.

The farmers are busy getting their corn cut and crops threshed.

Well Reuben, how is Tyrone by this time? There have been several frosts in this community.

One of our most important farmers, Bruce Lingle, is all through cutting corn and raising potatoes. Why don't we have more such wide awake men?

A certain man in this vicinity has made quite an improvement on corn huskers as he uses a pitch fork.

A great many of the farmers are waiting on rain, before sowing their fall crops.

Well Harry, Lott says one thousand is too much, if you will kindly reduce it to one-half it will be a sure sale.

William Summers is quite busy in this community trying to finish the farmers' threshing.

The Anderson Bros. have the new railroad bridge completed at last. Thos. Neff, of east Curtin, helped his son thresh last Monday.

The Evangelical congregation will hold a festival Saturday evening, Sept. 20th, at what is known as the band hall. Everybody is invited.

New Cure for Hay Fever.

An Indiana man has discovered a simple cure for hay fever. When the spells of sneezing make a preliminary announcement he hurries to the cellar and in the cool atmosphere there soon finds relief. The discovery was an accident, he says, and it has enabled him to stay at home during the hay fever season instead of going to the expense of a journey.

Good Hunting This Fall. It is now only a few weeks until the opening of the hunting season and hunters in this part of the state are looking forward to one of the best seasons in years. This summer has been a very good one for the rearing of all kinds of young in the woods, there being few forest fires to destroy or drive out the game birds or animals. Deer are unusually plentiful and are frequently seen in the fields along the mountains.

In our grandparents' time, picture taking meant long sittings in uncomfortable strained attitudes—with success always more or less in doubt.

There was excuse in the old days for not having pictures taken at frequent intervals.

But to-day, clever photographers, in comfortable studios, with fast plates and fast lenses at their command, make the experience a pleasure.

And you owe this satisfaction to your-self and to your friends
