Bright, Neway Letters From the Various Sections of the County.

REBERSBURG.

Last week the good roads association met in Philadelphia. Among other things discussed was the \$50,000.000 bond issue for good roads. Of course everyone was in favor of good roads. One of the members made the remark that if the proposition carried, the bond could be paid without the tax payers of the county finding it out. Some years ago our county was bonded for a certain amount with the plea that the farmer tax payer would not find it out. Since that time the taxes have increased from 5 mills to 7 mills. Did the gentle farmer find it out?

Squires Carlin and Meyer were at Bellefonte Monday on legal business. Circulars are going around boasting the \$50,000,000 bond issue. These circulars are put out by the Pennsylvania Motor Federation.

Corn cutting is now on in full swing and by the way, corn ought to bring a good price this year.

There was some class to the way J. Plavins tore loose last Sunday. Everyone is keeping his or her weather eye peeled for the skunks who assaulted Mr. Roush last week.

Everyone seems pretty well satisfied with the way the primary election went last Tuesday. Numerous and sundry of our people took in the Grange picnic at Centre Hall last week.

By the way, a little artificial heat goes good these evenings.

There are five constitutional amendments advertised in the Penrose papers. Vote NO on every one. The only one that has merit is the last one, but there is a snake concealed in that, conferring power on a gang legislature which the people should reserve to themselves. The legislature has too much power now, and, judging from the reckless character of the last one, a constitutional convention called from the counties, by county representation only, should be held to further restrict the legislature and divest the governor of his accumulated duties and powers.

"Township supervisors" have now taken the place of supervisors of roads. The dirt road job passed and approved July 22, creates a "Bureau of Township Highways" and abolishes "Road Supervisors." The men elected in the townships in November will be designated "township supervisors."

The act took effect as to election of supervisors when signed. As to duties it goes into effect on the first Monday of December of this year. The township supervisors shall meet once in each month, at a time fixed by the board. The act is a clear abdication of all township road duties and the supervisors will have only one function, besides drawing pay—that is to levy taxes on the farmers of the state. Yet Gov. Tener, the state graft roads associations, a female suffering and the local appendage of the Tener-Penrose gang all yell: "Farmers will pay no taxes!"

The legislature of 1913, raised the price of bounty on weasels to \$2. It allows a bounty of \$2 for gray foxes, (red not mentioned) \$4 for wild cats and fifty cents for goshawks and horned owls. Justice must split the faces of scaps as well as cut off the ears.

RASH BEGAN TO BURN AND TORTURE

Spread Until Face Completely Covered. Ashamed to Show Face. Itching Unbearable. Cuticura Soap and Ointment Cured in 2 Months.

226 Henry St., New York City. — "The cause of the eruption of my skin was at first a sore on my forehead which finally broke over my whole face. It was a rash and spread until my face was completely covered. At first it simply itched and then it began to burn and torture. My face was in such a bad state that I was ashamed to show my face among company. The itching was unbearable. I was troubled with the sores for about six months. I used to scratch them until they were raw and bleeding and I did not know what it was to have a full night's sleep. I used many remedies, but without avail. A friend recommended Cuticura Soap and Ointment. The Cuticura Soap and Ointment eased my face so much the first night that I thought nothing was the matter, and within the short time of two months I was cured." (Signed) Miss Annie Goldstein, Oct. 12, 1912.
