Andy Breen has picked about 40 bushels of nice winter apples this fall.

George Eike and wife transacted business in Bellefonte one day last week and took supper with his parents, Harry Eike's, at this place.

Prof. George Coble visited Rock school last week.

Andrew Breen's family and Charley Wand's family sojourned together on Sunday.

There will be quite a few movements around here in the spring, also a few sales.

Mrs. Ira Benner and daughter attended Samuel Blazer's sale at Oak Hill on Saturday.

There has been several rallies held around Rock, but the most important was held at Rock church last Sunday afternoon.

### Tax Collectors.

However not all the collectors comply with the law in this respect and the county is therefore often short of money with which to meet obligations.

### READY FOR THE CORN SHOW.

The annual Corn Show of The Pennsylvania Livestock Breeders' Association will be held the third week in January at York, Pennsylvania, in connection with the meetings of The Pennsylvania Livestock Breeders' Association, the Horticultural Association and the Dairy Union. This is the big show of the State and every farmer should have it in mind when he husks his corn and should select the best ears from which an exhibit of ten ears can later be made. Medals, cups and cash prizes will be awarded in the various classes. In the past years exhibitors from Chester and Greene counties have won more prizes than those of any other. This year the farmers of the state should show these exhibitors that these two counties are not the only ones on the map. Winners of two first prizes in previous shows will show in special classes this time, giving the new men a better chance.

## Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema by the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We just want you to give D.D.D. a trial. That will be enough to prove it.

Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee:—If you do not find that it takes away the itch AT ONCE, it costs you not a cent.

## A Carelessly Treated Cold

is the source of most sickness because drugged pills, syrups and alcoholic mixtures are uncertain and unsafe.

Scott's Emulsion has been relied upon by physicians for forty years as the safe and sensible remedy to suppress the cold and build up the enfeebled forces to avert throat and lung troubles. Don't tolerate alcoholic substitutes, but insist on the Genuine Scott's Emulsion. One bottle usually lasts longer than a cold. Every druggist has it.

That is the problem these days,—not merely to earn a living but a profit, as well.
