—During the past week the Linn & McCoy furnace has adopted the old style method of hauling fuel through the streets to the Bellefonte to their charcoal furnace between here and Milesburg. —Feeling a little shaky from a recent illness, yet bearing up remarkably well for having passed through ninety years of a useful lifetime, Squire Michael Shaffer came up from Smulton the latter part of the week and spent a brief time circulating among his many friends in this place. While each succeeding year finds the Squire growing older in body, his mind remains young, and is keenly alert to current events. That fact makes it a pleasure for his friends to greet him, as they always find the Squire a ready conversationalist. Our earnest hope is that he may reach the century mark with ease.
—B. Paulson, of Titusville, gave the Democrat a call while in town last week on business. Before coming to Bellefonte Mr. Paulson stopped in Howard for a brief chat with friends, and upon leaving signified his intention of going to Centre Hall for the same purpose. At both these places Mr. Paulson will be well remembered as a former manufacturer of handles, an industry he successfully conducted at respective periods until the scarcity of raw material obliged him to remove to another location. Titusville is now his home, where he is still turning out handles of the same superior quality that years ago established for them a ready market.

—Finding that he could not respectably support himself on the money he picked up by selling post cards, Harold Dougherty, the young man who passed through Bellefonte several weeks ago on a hike across the continent, abandoned the idea a few days ago when he reached Joliet, Illinois. In endeavoring to emulate the example of two Shamokin men, who are passing across the continent and who are now nearing their destination, young Dougherty, who lives in Philadelphia, started from Mt. Carmel on September 15th. He spent one night in Bellefonte and left the next morning for Tyrone, hiking it upward ever since. Dougherty claims that he has met with many misfortunes and has been compelled to subsist on a meal costing no more than ten cents each day.
—Mr. Geo. T. Bush has just lately been elected to membership in the Circumnavigators Club composed only of those who have made one or more passages completely around the world for pleasure or business. The membership ticket is a unique affair being a small book illuminated on parchment with the pledge of the club bound in bog skin and fastened with copper rivets. Its motto is "Luck to You." They publish an unique bulletin called the "Log" in which is contained the doings and travels of the members, whom are called by the name given, as for instance, Mr. Bush's designation would be Circumbush. The membership is strewn all over the earth and have many prominent men among their members some of whom being, W. J. Bryan, Ex-Pres. Taft, Richard Harding Davis and others. TO BOOST THE APPLE.
International Shippers Association Adopt Unique Plan.
Can King Apple be so advertised as to increase the consumption from year to year sufficiently to provide a profitable market for the great and steadily-increasing crop? The advertising committee of the International Apple Shippers' Association believe they have the solution, in the following plan: To print hundreds of thousands of attractive apple recipe booklets, "197 ways to cook apples" and distribute them broadcast to the people of the United States thus opening immense avenues for consumption; to enlist 20,000 dealers in large consuming centers in the campaign with the view of having them cut out exorbitant profits on apples, relying instead on increased sales for profit; to publish in papers of wide circulation interesting articles on the value of the apple as a regular food thus making the product a household topic among consumers everywhere.
The problem of providing funds with which to carry on this "boosting" of the apple has been successfully worked out in the "Stamp Plan" by which each shipper will contribute an amount so small that it will scarcely be felt by the one so doing, yet the aggregate sum will amount to considerable as an advertising fund. The plan is patterned after the method used by the various governments when it becomes necessary to raise large sums. The stamps will be issued in two denominations—one cent and two cent. On every box of apples one-cent stamp will be placed and for every barrel a two-cent stamp will be used. The man who has fifty packages to market will buy 50 stamps, while he who has 1,000 packages will buy 1,000 stamps, etc. The entire issue of stamps will be in the custody of the Equitable Mortgage and Trust Co., of Baltimore. This Trust Company, through the many banks that are its agents in the various sections of the country, will sell the stamps to every grower, shipper or dealer in the apple.
Among those who have consented to become members of the advisory committee of one hundred, representing the growers' interests, is found the name of T. C. Foster, state orchard inspector, of Lewisburg. Mr. Foster is so well known in Centre county for his good work in promoting the interests of fruit growers that he needs no introduction at this time. His connection with the apple publicizing campaign being launched will meet with the approval of everyone who is acquainted with Mr. Foster's reputation as an orchardist. The Union National Bank of Lewisburg has two sections principal of the distributing points for the stamps. This plan will provide the means for carrying on a continuous, country-wide advertising campaign, through newspapers, magazines, printed matter and other media, that will acquire the masses of the United States and Canada with the great food and health-giving value of the apple; with the fact that it is open to a wider range of uses than any other product, easily prepared, easily digested, and applying to all; and with the further fact that, when bought in substantial quantities, it is one of the most economical foods.

RECENT DEATHS.
GREGG.—James Gregg, a native of Centre Hall, this county, and for the past twenty years principal of the Tyrone public schools, died in that place on Saturday morning, last, after a brief illness with paralysis. Just a few weeks ago Mr. Gregg was in Bellefonte greeting friends and the mourners of his sudden demise was a profound shock to his acquaintances in this vicinity. Professor James Gregg was a son of the late Mr. and Mrs. Andrew Gregg, and was born on the old Gregg homestead near Centre Hall. Early in life he applied himself to the study of teaching, and about twelve years ago moved to Tyrone and became an instructor in the public schools. Soon after he was elected principal, a position he held with fidelity up until his death. Mr. Gregg united with the Presbyterian church when a young man and lived his life according to the teachings of that faith. He was also a prominent lodge man, and a member of the Tyrone borough council. Surviving to mourn his death is his wife, Mrs. Molly Sankey Gregg, and the following brothers and sisters: John, of Ratan, New Mexico; Andrew, of Alintown; Mrs. Mary Miller, of Ratan, New Mexico; and Mrs. Mary Edmonson, of State College. Funeral services were held at the home of Mrs. Catherine Roger, in Tyrone, where Mr. and Mrs. Gregg have been boarding, on Sunday afternoon at 4 o'clock, and on Monday the body was taken to the home of Mr. Gregg's aunt, Misses Julia and Sue Gregg, at Milesburg. Additional services were held at this home on Tuesday afternoon, conducted by Rev. George C. King, pastor of the Methodist Episcopal church, following which interment was made in Union cemetery at Bellefonte.
A man never makes a bid for notoriety when he does his duty.
