Bright, Newsy Letters From the Various Sections of the County.

REBERSBURG.

Miss Maggie Winters visited friends in Aaronsburg last week.

Miss Mary Bright is rapidly progressing in her musical studies at Temple University, Philadelphia, and is the recipient of many well-deserved compliments.

Willis Frank Bierly has recently made heavy investments in pork.

Not the least of the troubles of those who invested recently in Colorado wild horses, is to learn just what to do with them.

The gun once owned by veteran Elias Stover was bought by Willis Reed Bierly. Wonder whether he could hit that bear, if he saw it?

Last week Rev. Dr. Tom Miller, a unique character, singing master, and inventor of agricultural machinery, came over the mountains from "Holy Schmutvale," leading an intelligent tan dog of the "good graft roads" variety. His visit was quite a surprise, since he had been reported "translated."

Jerome A. Meyer, on Thursday, left for Pueblo, Colo., where his brother Calvin was reported ill, at the point of death. Many called upon him at his departure, to express their sympathy.

Mrs. Ethel Hubler came in from Pittsburgh to be present at the crucial time of illness of her father, John W. Harter.

Whist Vic Walker is breaking his bronchus, Mrs. Walker acts as chauffeur to the touring car and Clem Gramley steers the old-fashioned "diligence."

Cal Weaver is quite a trapper. Among his recent captures was a large opossum, which he presented to Wall Doehbler for a corn-husking premium. Wall is quite a "corn-stripper."

Those who have traps set for rabbits, skunks, etc., should visit them once in every 24 hours.

Wesley Hackenburg got seven rabbits and one pheasant the first. Is it that seductive smile of his or real hunting wit, that pushes his score upward?

Wm. H. Frank and Wall Doehbler hunted in cahoots Saturday. Each got two rabbits and their dog treed a skunk for the pet of which they will get a couple dollars.

Ernest Harry, by a still hunt, got three cotton tails, on Saturday.

A baby ice cream freezer came by parcels post on Saturday. Next they will be sending babies this way by P. P. to replenish the fast diminishing supply.

Among the Sunday visitors to their homes were Wilson Cole, Charles Faxson and Charles Waite.

Frank Waite spent a week at home, because of a severe internal pain, which made him unhappy.

Eugenics are quite essential here.

Miss Emma Sholl was quite ill the past week, but is up and doing good again.

Postmaster Snyder Miller made up his report on the weight of mail received at this office during October. He received from Coburn alone about two tons during the month. The classes must be weighed separately and a report made of every weigh during the month. P. M. Genl. Burlington is trying to get at the true facts.

If the axe question was too hard for our high class mathematicians, we will give them Major John Reynolds' conundrum: "As I was going to St. Ives I met seven wives; each wife had a sack, in each sack were seven cats and each cat had seven kittens. How many wives, sacks, cats and kits were going to St. Ives?"

When Dr. Ball came over from Lock Haven to assist Dr. Bright in removing John W. Harter's troublesome appendix, last week, he brought two hospital nurses with him. One, however, went to Altoona to nurse typhoid fever patients. Mrs. Maria, who is a trained nurse, remained over during the critical period of Mr. Harter's illness.

Prof. Samuel A. Bierly promises to go to Philadelphia soon and size up the N. American street Irish Jew, on the egg question. Will he teach him how to make an egg stand on its little end? He can do it.

On Saturday the poor summer side cotton tails were so frightened by the crack of shot guns, that they came to town and under the stables and some took refuge in the cemeteries.

How many are hunting without Dr. Kalfuss' tags?

The pot hunters find a lot of woodlands posted with trespass notices.

There is still a vacancy in the Lutheran churches. Appeal to Gettysburg.

That Rebersburg has urban manners was amply proved by the Halloween ceremonies. The masqueraders met in the Peoples' college and formed for the celebration. They had their fill of fun.

Howard Krape is an expert organ artisan. If your organ is "out of whack," do not suffer the pangs of discord, but send for Howard. He will put into it the oil of harmony, and make it sing the old songs.

If you happen to meet Herr Tom Miller, get him to tell you how he earned \$150 teaching music in Cogan valley, when he only knew several "Do ra, me, sol, do, la, fa, me."

Joe Kleckner, the great singing maestro Joe Kleckner sing, and that catnata.

"Come where my love lies dreaming!" That Tom is a genius is proven by the fact that when he was forced into the contract he learned the whole theory of clefs, staff, transposition, sharps and flats and the position of the letters on the staff, in one night.

But this was many years ago and now Tom is old, and the grey hairs straggle over his brow. But he can sing that clarion tenor yet, which was wont to entrance the girls and make their beaus tremble with envy.

In those days when Joe Kleckner, Jacob Meyer, Rev. J. K. Millet, Cyrus Kreider and others taught "singin' shule" and held conventions, real native vocal talent was developed and there were singers then, whose rich and melodious voices still ring in our memories and will continue down through the endless corridors of eternity. Now, there is a pretense to teach music in some of the schools. But what is it? Mere fiddle-diddle, like most of the so-called church and Sunday school "chunes!" It lacks the inspiration of man's social faculties, the divine unfolding of love, planted in our very being, so essential to genius which is ever accompanied with the divine afflatus.

George Winters husked 758 bushels of corn from seven acres, an average of 109 bushels to the acre. He uses phosphate, 100 pounds to the acre.

Mr. Ocker raised 350 bushels from about three and one-half acres. He uses lime and stable manure.

A handsome monument in memory of the late David Meyer, has been placed in the Evangelical cemetery by his widow, Fietta, and son, Henry.

The favorite escapade of our school girls consists in stealing each other's beaus!

Prof. Geddes, of Lewisburg, did not come to join Hackenburg in the cotton tail pursuit. He will come later, but the game will then be exterminated.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a running ear, or it is entirely closed, and you are unable to hear. Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; and the only way to do this is by using Cuticura, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by HALL'S CATARRH CURE. Send for circulars, free.

HAND PAINED ITCHED AND BURNED

Fingers Used to Crack and Bleed. Could Not Sleep Night or Day. Little Water Blisters. Used Cuticura Soap and Ointment. Cured in Four Weeks.

R. F. D. No. 2, Friendsville, Pa. — "I suffered for five years with my left hand supposing the trouble to be salt rheum. What I think started my hand to be sore was by using lye. My fingers used to crack and bleed. I was unable to use my hand at all. I could not sleep night nor day; it pained, itched and burned. I could tear my fingers to pieces. My index and middle fingers were swollen twice as large as they ought to be and they were white as could be and full of little water blisters and they would burn and itch something awful. I could hardly stand it.

"I used ———, home made tetter salve, and ———, and could not find any relief. I discovered that Cuticura Soap and Ointment were relieving me. I washed my hands with Cuticura Soap and applied the Cuticura Ointment and it was cured in four weeks." (Signed) Mrs. Chas. Anderson, May 1, 1913.

The regular use of Cuticura Soap for toilet and bath not only tends to preserve, purify and beautify the skin, scalp, hair and hands, but assists in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the skin. Cuticura Soap and Cuticura Ointment (50c.) are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."
