MILESBERG.

Married.
Prof. L. C. Smith, principal of the Milesburg and Boggs High school, and Miss Bessie Bryan were united in marriage in Clearfield last Thursday. The young couple selected the morning train in order to elude some folks who were expecting them to depart at 1:05 p. m., but they were followed to Bellefonte by some of the school boys who gave the alarm as the train pulled into Milesburg. About thirty boys and girls boarded the train and accompanied Mr. Smith and his intended bride. In order to avoid giving them a good shower of rice almost the entire distance, Mr. Smith and his bride returned Saturday to Milesburg where a grand reception awaited them at the home of Mr. and Mrs. George McCullough. About fifty persons were present and refreshments were served. After wishing the bride and groom a long, blissful and prosperous journey through life, all departed for their homes thinking how

At a given signal the girls unmasked. The evening was spent in introducing and carrying out all sorts of unique games characterizing the Hallowe'en season. NERVOUS PEOPLE

are usually thin and easily worried, sleep does not refresh and the system gradually weakens from insufficient nourishment.

Scott's Emulsion corrects nervousness by its force of concentrated medical nourishment—it restores the healthy action of body cells, enriches the blood, sharpens the appetite, and leads the nerve centres by distributing energy and power all over the body.

Don't resort to alcoholic mixtures or drug concoctions that stimulate and stupefy.

Get a bottle of Scott's Emulsion for your nerves—nothing equals or compares with it, but insist on Scott's.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years." It will take away the itch the instant you apply it.

In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a 5¢ bottle on our guarantee that it will cost you nothing unless you find that it does the work.

OAK HALL.
Miss Mary Corman has returned home after spending some time at the home of William Daugherty of Lemont.

There is a young man in our beautiful little town that is the pleasantest looking guy you ever ran across, and the only reason we can give for it is because he is papa. Mr. Earl Whitehill says it's a boy spelled with a capital B.

Two of our young men (ladies' men) made a call at Lemont last Wednesday evening, their initials are Doc and Edwin, but we did not learn the nature of their business.

The farmers in our vicinity are pretty well on with their corn and report a fair crop.

Arthur Peters and family Sundayed at the home of Curtis Meyers of the Branch.

The Twilight Club after training their melodious voices under the leadership of the famous musical instructor, William Tressler, have decided to have a feed on Wednesday evening, Nov. 6th, and you can wager your old barlo that there is going to be something good to eat as the committee composed of the following gents know what is good: Claude HaZel, Frank Reish, Fred Roush.

Kill every fly in sight. This is the slogan uttered by the Department of Health. Now is the time to hunt down the impudent enemy and reduce his miserable business of carrying poison germs. About this season of the year the fly gets chilly and slow. He hates the breath of frost and seeks comfort indoors. By and by he will creep into any warm crack of the boards and lodge there through the winter. Swat these domestic imps before they have the chance to lay plans for the next summer and before they have the chance to lay eggs.
