Many young men eschew matrimony because of the "failures" which come to their notice, some because of the alleged expense, and more because of the alleged expense of the selfishness of their natures. The latter class prefer the grosser enjoyments of life and care not for the spiritual and mental companionship which only a pure woman can give, and the deluge which center about the sacred name of home.

QUEER THINGS IN NEWS

Lady Cook, who was one of the Claffin sisters in the Henry Ward Beecher trial, favors the branding with a hot iron of men physically unfit for marriage, so girls may shun them.

Sued thirteen times by his wife for divorce since 1910, a Pittsburgh man wants an injunction to make her stop.

A wedding ring lost thirty-seven years ago has just been found in Jersey, six inches under ground.

A Morristown carpenter has built a stable 148 feet long, 14 feet wide and one story high in twenty-four hours.

A college professor who turned you-nut peddler says he can save \$200 a month now, which is more than he could do teaching French to college students.

A man held five aces in a pokker game at Sharon, Pa., and at the local hospital surgeons say he hasn't a chance to recover.

An analysis of the Huntington, W. Va., water shows a considerable quantity of gold, but the temperance lecturers aren't using the fact as an argument.

The finish of the count of \$7,000,000 in the San Francisco mint showed fifty-one cents more than should have been on hand.

Dreaming of a burglar, a man in Frederick, Md., fired at what he thought to be a man and gave the surgeons a job of picking a bullet from the calf of his own leg.

Father's Business—"Mother, is father in fruit business?" "No, son. What put that idea into your head?" "Well, when he took me for a walk the other day he met Mr. Jones, and all they talked about was peaches, pippins and dates."

A Lost Friend—Never worry about a lost friend—that is, one who ceases to be friendly. There is no such thing. You never lose a friend, you only find out that he is not your friend. If he is a friend to your youth, he will flee on the coming of age and wrinkles. If he is the friend of your success, he will flee at the approach of failure. If he is a friend to your full purse, the flattening of that will show you his heels. If he is a friend to any influence you may have, you will lose him when you need him most. But he never was your real friend. His going is only an opportunity for you to rectify your judgment of him. The friends you have can never be many—some three or six strong, loyal men and women—and the rest are congenial acquaintances, that is all. Friends are the limbs of the soul—we walk by reason of them, breathe by aid of them, work in the great strength of them. And we don't often think of them as friends, they are as hands and feet and heart and brains—we have them, we know we have them, and that is enough for life.
