### MARRIAGES.

Searle—Farley.
At the Presbyterian manse, Dec. Richard B. Searle, of Beech Creek and Miss Maggie Farley, of Lock Haven, were joined in marriage by Dr. G. E. Hawes. Mr. and Mrs. Searle will make their future home at Beech

Stark-Lauck. The marriage of Thomas J. Stark and Miss Sarah M. Lauck, a well known Snow Shoe couple, took place on the 2nd of November, the cere-mony being performed in Pittsburg. Rev. Frank H. Stevenson, paster of Presbyterian church, officiated. contracting parties were made man and wife by the ring ceremony. Mr. and Mrs. Stark departed immegroom had a home already furnished. diately for Brownsville, Pa., where the Stark is a popular employee at the machine shops in that place.

Snow-Haines Allen Bayard Snow, of Altoona, and Miss Mary Elizabeth Haines, Bellefonte, were quietly married at the parsonage of the First Lutheran church at Altoona, on November 26 and I believe that the studies and reat 4 p. m., by Rev. Marion Justus cently formed plans of the department Kline, D. D., pastor. Dr. Kline read the solemn ring service of the Lutheran church in the ceremony. Mr. Snow is the son of Mr. and Mrs. E. B. Snow, of Altoona. Mrs. Snow is the daughter of Mr. and Mrs. William E. Haines, of Bellefonte. Mr. and Mrs. Snow left Monday on their wedding journey, which will include Pittsburg, Buffalo, Niagara Falls and other points. They will be at home to their friends after December 15 at 1708 Sixth avenue, Altoona.

Special Church Notice. The Rev. Simpson B. Evans, super-intendent of Altoona district, will preach next Sabbath, Dec. 7th, as fol-lows: Pleasant Gap M. E. church, 10:30 a. m.; Coleville M. E. church, 1:30 p. m.; Weaver M. E. church, 3:30 p. m.; Axemann, 7:30 p. m. A special offering will be taken at each service for the combined benevolences excepting missions, and superanuated claim. The third quarterly conference for Pleasant Gap charge M. E. church will be held at Lemont, on Saturday, De-cember 6th, at 2:30 p. m. D. J. FRUM, Pastor.

Elks Will Memorialize. Sunday, December 7th, 1913, at Petrikin Hall, the annual Memorial services for the deceased members of Bellefonte Lodge, No. 1097 B. P. O. E., will take place at 2:30 p. m. The Memorial address will be delivered by Benjamin M. Nead, Esq., of Harris-burg, an eloquent and brilliant orator, whose address will no doubt be in-teresting. A program of more than ordinary interest has been arranged for this occasion. The sevices will be open to the public and a cordial in-vitation to be present is extended.

BASKET SALE.

Special Christmas Sale of Belle-fonte Baskets at China Hall, Bellefonte, Pa., commencing Dec. 13th. All Baskets will be sold at attractive prices. This is an opportunity to pur-chase your Christmas Presents.

# PRESIDENTS MESSAGE

(Continued from first page.)

tience, as for something fundamental to its whole business life and necessary to set credit free from arbitrary and artificial restraints. I need not say how earnestly I hope for its early enactment into law. I take leave to beg that the whole energy and atten-tion of the Senate be concentrated upon it till the matter is successfully disposed of. And yet I feel that the request is not needed—that the members of that great House need no urging in this service to the country. I present to you, in addition, the urgent necessity that special provision the

be made also for facilitating the credits needed by the farmers of the country. The pending currency bill does the farmers a great service. It puts them upon an equal footing with other business men and masters of enter-prise, as it should; and upon its pass-age they will find themselves quit of many of the difficulties which now be given no special privilege, such as extending to them the credit of the government itself. What they need and should obtain is legislation which will make their own abundant and substantial credit resources available. hamper them in the field of credit. The farmers, of course, ask and should

The Power of the Farm.

It has, singularly enough, come to pass that we have allowed the industry of our farms to lag behind the Islands to ourselves by ties of jus-other activities of the country in its tice and interest and affection, but development. I need not stop to tell the performance of our duty toward you how fundamental to the life of the Philippines is a more difficult and the nation is the production of its debatable matter. We can satisfy the food. Our thoughts may ordinarily be obligations of generous justice toward of sickness I again extend to you a concentrated upon the cities and the the people of Porto Rico by giving cordial greeting, hoping that you will concentrated upon the cities and the hives of industry, upon the cries of them the ample and familiar rights the crowded market place and the clangor of the factory, but it is from the quiet interspaces of the open valleys and the free hillsides that we draw the sources of life and of prosperity, from the farm and the ranch, but in the Philippines we must go every office deserted, every factory fallen into disrepair. And yet the independence as steadily as the way farmer does not stand upon the same can be cleared and the foundations oting with the forester miner in the market of credit. He is ne servant of the seasons. Nature etermines how long he must wait for is crops, and will not be hurried in her processes. He may give his note, but the season of its maturity depends tures, lies at the gates of the market where his products are sold. And the security he gives is of a character no known in the broker's office or as familiarly as it might be on the counter of the banker.

Meet Farmers' Needs.

The agricultural department of the government is seeking to assist as ever before to make farming an effiient business, of wide co-operative ef prize porkers, the largest one tipping for foodstuffs. The farmers and the government will henceforth work to-gether as real partners in this field, where we now begin to see our way Mrs. Margaret Ghaner, who has been on the sick list, is siovly improving.

Mrs. Meese, of Loveville, is visiting her daughter, Mrs. Wilson Ghaner. cilitated the moving of in the present season and prevented the scarcity of available funds too often experienced at such times. we must not allow ourselves to de pend upon extraordinary expedients. We must add the means by which the farmer may make his credit constantand easily available and command when he will the capital by which to support and expand his business. We ag behind many other great countries the modern world in attempting to lo this. Systems of rural credit have been studied and developed on the other side of the water while we left our farmers to shift for themselve

n the ordinary money market. You have but to look about you in any rural district to see the result, the andicap and embarrassment which have been put upon those who pro-duce our food.

Conscious of this backwardness and neglect on our part, the Congress respecial commission to study the varous systems of rural credit which have been put into operation in Eur-ope, and this commission is already prepared to report. Its report ought to make it easier for us to determine what methods will be best suited to our own farmers. I hope and believe that the committees of the Senate and House will address themselves to this matter with the most fruitful results, them very greatly in their work of framing appropriate and adequate legislation. It would be indiscreet and presumptious in anyone to dogma upon so great and many-sided a question, but I feel confident that common counsel will produce the results we must all desire

Fair Play For Business. Turn from the farm to the world of usiness which centers in the city and in the factory, and I think that all houghtful observers will agree that the immediate service we owe the business communities of the country is to prevent private monopoly more effectually than it has yet been prevented. I think it will be easily agreed that we should let the Sherman anti-trust law stand, unaltered, as it is, with its debatable ground about it, but that we should as much as possible reduce the area of that debatable ground by further and more explicit legislation; and should also supplement that great act by legislation which will not only clarify it but also facilitate its administration and make it fairer to all concerned. No doubt we shall all wish, and the coun try will expect, this to be the central subject of our deliberations during the present session; but it is a subject so many-sided and so deserving of careful and discriminating discussion that I shall take the liberty of ad-dressing you upon it in a special message at a later date than this. It is of capital importance that the business men of this country should be relieve repders now in improving the conditions of mine labor and making the tions of mine labor and making the mines and a clear path indicated which they can travel without anxiety. It is as important that they should be relieved of embarrassment and set free to prosper as that private monopoly should be destroyed. The ways of action should be thrown wide open.

Direct Presidential Primaries.

I turn to a subject which I hope can be handled promptly and without serious controversy of any kind. I mean the method of selecting nominees for ed of all uncertainties of law with regard to their enterprises and invest-

the presidency of the United States. I feel confident that I do not misinterpret the wishes or the expectations of the country when I urge the prompt enactment of legislation which will provide for primary elections throughout the country at which the voters of the several parties may choose their cern. You already have under consideration a bill for the reform of our system of banking and currency, for which the country waits with impathal this legislation should provide for the retention of party conventions, but only for the purpose of declaring and accepting the verdict of the priin the Senate of the United States, the leviation of the very senators whose terms have not yet closed, the national committees, and the candidates for the presidency themselves, in order that platforms may be framed by those responsible to the people for carrying them into effect.

American Dependencies.

and burdensome conditions which now surround the employment of sailors and render it extremely difficult to obtain the services of spirited and competent men such as every ship needs if it is to be safely handled and brought to port.

May I not express the very real

These are all matters of vital do-mestic concern, and besides them, outside the charmed circle of our own national life in which our affections command us, as well as our consciences, there stand out our obliga-tions toward our territories over sea.

responsibility to them as toward our own people in our domestic affairs. energy at their disposal like in coun-No doubt we shall successfully enough | sel and in action. bind Porto Rico and the Hawaiian but in the Philippines we must go further. We must hold steadily in view their ultimate independence, we must move toward the time of that thoughtfully and permanently iaid.

Acting under the authority conferred upon the president by Congress, I have already accorded the people of the is-lands a majority in both houses of their legislative body by appointing five instead of four native citizens to the membership of the commission. I believe that in th! way we shall make proof of their capacity in counsel and their sense of responsibility in the exercise of political power, and that the success of this step will be sure to clear our view for the steps which to clear our view for the steps which are to follow. Step by step we should extend and perfect the system of self-government in the islands, making test of them and modifying them as experience discloses their successes and their failures; that we should more and more put under the control of the native citizens of the archipel ago the essential instruments their life, their local instrumentalities of government, their schools, all the comtrol. At last, I hope and believe, we beginning to gain the confidence f the Filipino peoples. By their ounsel and experience, rather than by our own, we shall learn how best to serve them and how soon it will be possible and wise to withdraw our supervision. Let us once find the path and set out with firm and confident tread upon it and we shall not wan-der from it or linger upon it.

To Open Up Alaska. A duty faces us with regard to Alaska which seems to be very pressing and very imperative; perhaps I should say a double duty, for it concerns both the political and the maerial development of the territory. The people of Alaska should be given the full territorial form of government, and Alaska, as a storehouse, should be unlocked. One key to it is a sysem of railways. These the government should itself build and administer, and the ports and terminals it should itself control in the interest of all who wish to use them for the ser-vice and development of the country and its people.

But the construction of railways is

only the first step; is only thrusting in the key to the storehouse and throwing back the lock and opening the door. How the tempting resources of hie country are to be exploited is another matter, to which I shall take the liberty of from time to time callng your attention, for it is a policy which must be worked out by wellonsidered stages, not upon theory, out upon lines of practical expediency. It is part of our general problem of conservation. We have a freer hand in working out the problem in Alaska than in the states of the Union; and yet the principle and object are the same, wherever we touch it. We must use the resources of the country, not lock them up. There need be no con-flict nor jealously as between state and federal authorities, for there can be no essential difference of purpoe between them. The resources in ques-tion must be used, but not destroyed or wasted; used, but not monopolized upon any narrow idea of individual rights as against the abiding interests of communities. That a policy can be worked out by conference and concession which will release these resources and yet not jeopard or dissipate them. I for one have no doubt; and it can be done on lines of regulation which need be no less acceptable to the people and governments of the states concerned than to the people and government of the nation at large, whose heritage these resources are. We must bend our counsels to this A common purpose ought to make agreement easy

Mines and Railroads. Three or four matters of special im-portance and significence I beg that

ou will permit me to mention in clos-Our bureau of mines ought to be equipped and empowered to render even more effectual service than it enders now in improving the condi- the

the country than to the advantage of those whom they employ. The ex-perience of a large number of the states abundantly proves that.

We ought to devote ourselves to meeting pressing demands of plain justice like this as earnestly as to the accomplishment of political and eco-nomic reforms. Social justice comes first. Law is the machinery for its realization and is vital only as it expresses and embodies it.

For Safety at Sea. An international congress for the discussion of all questions that affect maries and formulating the platforms of the parties; and I suggest that these conventions should consist not of delegates chosen for this single purpose, but of the nominees for Con-gress, the nominees for vacant seats among other things, to the prompt alsenators whose terms have not yet and burdensome conditions which now

May I not express the very real pleasure I have experienced in co-operating with this Congress and sharing with it the labors of common service to which it has devoted itself so unreservedly during the past seven months of uncomplaining concentra-tion upon the business of legislation? trustees. Porto Rico, hilippines, are ours, inours to do what we Union" to express my admiration for government itself. What they need and should obtain is legislation which will make their own abundant and substantial credit resources available as a foundation for joint, concerted local action in their own behalf in getting the capital they must use. It is to this we should how address ourselves.

deed, but not ours to do what we please with. Such territories, once regarded as mere possessions, are no longer to be selfishly exploited; they are part of the domain of public conscience and of serviceable and enlightened statesmanship. We must administer them for the people who live in them and with the same sense of selves.

> UNIONVILLE. To the readers of the Unionville tems: After a silence of over two months, occasioned by a serious spell cordial greeting, hoping that you will put up with the same stale old diet and I promise to throw in a little nonsense on an air ship trip occasionally, for dessert. During my absence, my pulpit was ably filled by Miss Ruth Parsons and the "items" that appeared the Centre Democrat for the last five or six weeks, were written by her and she deserves much credit for the ably written items in which are the car-marks of developing into a first class correspondent. But better things awaited her. She has secured a pleas ant and lucrative position in Salyda's department store—the largest in Jer-sey Shore, where we wish her abundant success. So much for myself introduction.

Mrs. Clara Leathers, of Washington, D. C., came up from that village last Tuesday to take her mother, Mrs. Sp-

Stover, representative ladies of Bellewere visitors to our city last

Miss Nina Davis, of Julian, was the guest of Miss Jennie Parsons last Saturday. Miss Jennie accompanied her ome and in the afternoon they went across the creek to gather huckle berries. (There you go with your non-

James M. Stere, up to date, has mon interests of their communities, and so by counsel and experience set up a government which all the world will see to be suitable to a people whose affairs are under their own conkilled the largest porker—463 lbs. Mr. and Mrs. W. Reeves, of Monon-Mrs. Reeves was formerly Miss Lucila Way, of Union township.

Miss Annie Baney, a pretty young

lass of Bellefonte, was the guest of Elnora Holt on Thanksgiving day, at the home of her parents, Mr. and Mrs. Jasper Holt. Mrs. Chas. R. Eckenroth with her

daughter, Marian, will leave for Ardara on Thursday of this week where she will visit her parents, Mr. and Mrs. Col. E. E. Erhart, Indefinitely. Billy Parsons has installed a hotwater heating system in his home. He says he can have June weather in

the middle of the coldest winter now. David Keatley has been quite ser-ously ill for more than a week with quinsy, but, we are glad to report that convalescing nicely. A 14-year-old son of Percy Black-ford, formerly of Bellefonte but now of New Castle, accidently shot himself through the heart, killing himself

instantly. His mother, Mrs. Black-ford is a daughter of Mr. and Mrs. George Bowmaster of this place. We extend our sincere sympathies to the stricken parents and grandparents. Eliphus Lucas, who lives on the Blair farm, while hitching up his team, was stricken with acute indigestion and was found in an unconscious condition by his wife. A physician was at once sent for and he has recovered. Laura, the sweet little three-year-old daughter of Mr. and Mrs. William Eckenroth who live about a mile out of town, accidently fell down over the porch steps, about five feet and broke one of her arms above the elbow. Dr. Irvin reduced the fracture and the dear little tot is doing as well as can

be expected. Miss Sallie McGarvey has gained 10 pounds in weight during the last or three weeks. Cause why
