EDITORIAL.

Last fall Penrose's road botmers constantly pointed to the millions that New York state appropriated for improved highways. Now the contractors and politicians who handled the money are on the road to the penitentiaries.

Now that the general currency bill is out of the way the next important measure to be advocated by the President is a system of agricultural banks to aid the farmers of the country. If he is convinced that such banks will be a help to the farmer it is safe to predict that they will be established.

PEACE IN THE BUSINESS WORLD.

A recent speech of Vice President Marshall in which he set forth the desirability of promoting peace between business and the Government instead of conflict and friction, has been heartily approved by the business world and business men of all sections.

Clinton county farmers and fruit growers are much interested in the recent statement of Dr. H. A. Surface, state economic zoologist, that Pennsylvania apples are as good as the best in the United States.

PRODUCTS OF TWO MACHINES.

Bart Dunn, Tammany leader of New York city, had as powerful political backing as any henchman of the Penrose machine in Pennsylvania.

New York State voted many millions for good, state roads, but Democratic politicians who control the Penrose machine, robbed the state.

What the Democratic-Tammany machine did to New York, the Penrose-Republican machine tried last year to do in Pennsylvania by the proposed \$50,000,000 bond issue.

It is to the credit of the Pennsylvania Democratic organization that it was not record as opposed to this vicious measure, and that it also used every legitimate means possible to defeat it.

Calamity Howlers Silent.

The calamity howlers have been silent for a few days. What's the reason?

Let's see whether we can't make 'em sit up and take notice. Here's a choice morsel for them:

Eighteen cotton mills in one district have shut down!

Oh, wurr, wurr, for one grand old calamity howl with the Philadelphia Press and Philadelphia Inquirer as howl leaders—ready? Let 'er go!

PENNSYLVANIA APPLES BEST.

Clinton county farmers and fruit growers are much interested in the recent statement of Dr. H. A. Surface, state economic zoologist, that Pennsylvania apples are as good as the best in the United States.

"While in Ohio recently," says Professor Surface, "I met a gentleman who was enthusiastic in praising the apples raised in Pennsylvania, and he said he was but one of many Ohioans of the same way of thinking."

Lock Haven Business Man Dies. Wilson Kistler, Lock Haven's foremost citizen, was stricken with apoplexy on the street while on the way to take a train Tuesday evening.

Business Booming in the West. Business throughout the middle west is so good that merchants are sending for traveling salesmen to hurry out with their lines of goods so that new stocks may be laid in.

CAN'T BLAME WOODROW.

The following dispatch is taken from the Philadelphia Ledger, January 4th, 1914, where it appeared in the financial section as a news item.

"Settlement of the tariff question and the passage of the currency bill, with the prospect of extension of rural credits, has put a sudden end to the hand-to-mouth buying of the last few months," said Mr. Salisbury.

Pennsylvania's Good Record. Reports to the General Office of the Pa. R. R. Co. indicate that not a single passenger out of 111,000,000 carried by the Pennsylvania Railroad Company in 1913 was killed in a train accident.

WHO IS TO BLAME?

Senator Oliver, of Pittsburg, recently returned to Washington after a trip of several months abroad, and went to Constantinople to visit his daughter. Later he visited Greece, Italy and toured through Continental Europe.

There was no reduction of the tariff or change in currency laws in foreign countries, and if "business is not good over there, they can't blame it or Woodrow Wilson or the Democratic party.
