## BELLEFONTE ACADEMY NEWLY REMODELED

(Continued from first page.)

eric motor for running the ice cream freezer. There is a cold storage room and a telephone just off the kitchen for the convenience of the patron in ordering goods. Students who are working their way through school wait on the tables.

Another pleasant feature of the school is the cosy room fitted up by Prof. Huxford in his residence on the side next to the school, to be used as a Boys Club room. It is very cosy and homelike and here the boys can spend an evening reading books or magazines with their fathers and mothers. The room is finished with golden oak with high paneled wainscoting and has a fine brick fire place. Bookcases filled with good books, together with the latest magazines and papers are to be found here. Some of the boys play and sing and there is also a piano for their use. Leading off from the south wing is a room that is being fitted as a school infirmary. It will be furnished with six cots and be in charge of a nurse. The furnishings are the gift of Dr. and Mrs. R. G. H. Hayes. The school is heated from its own private plant and is always warm and comfortable. The second and third floors of the main building are taken up with the students' rooms. The rooms are in suites, a bed room and sitting room in each. Two students are in each room with individual closets. On each floor there are several bath rooms equipped with tubs, shower baths, and all conveniences. A glance into the rooms shows them to be clean, tidy, homelike and cheerful. It seems as if every comfort possible is provided for the students attending this school.

The architect who designed the plans for remodeling the main building was J. Robert Cole, of Bellefonte, and the contractors were the well known firm of Gehret & Lambart.

On Friday evening of this week there will be a housewarming at the Academy and we urge everyone in town to go and see what a school we have in our midst. The new social hall will be formerly dedicated and you will have a chance to listen to the new \$1000 Link endless roll piano just installed, which plays fifteen different pieces from a roll 250 feet long. It is manufactured by E. A. Link, of Binghamton, N. Y., whose son, Thornton Link is a student at the Academy. Below will be found the program for Friday evening.

Program for Academy Inspection. On Friday evening, January 23rd, from 8 to 10:30 o'clock. Approach for automobiles, sleighs or other vehicles by Logan street, stop in front of main building, exit by Bishop street. Inspect as follows: First—The infirmary and second and third floors, inspecting the boys' suite rooms with their decorations and the up-to-date toilets, lavatories and "showers." Return to main corridor, pass out under the columns by the recitation rooms in main building, until you enter the main assembly or study hall. Descend the stairs from the assembly hall and enter the basket ball room and social hall where an informal reception will be held and the young folks may enjoy a little dancing. Adjacent to this social hall are extra showers and lavatories and a small gymnasium for wrestling mats, parallel bars and vaulting bars. Visitors will be found at all times in the building where they desire to go. There will be music in the boys' club room. Christy Smith's orchestra will play in the Excelsior Editorial room adjacent to the main corridor and the new recitation plans, the finest of its kind in the world, will furnish the music in the social hall.

Refreshments will not be served. Children are not expected, unless accompanied by parents, but all invited to see the equipment of a modern up-to-date boarding school are most cordially invited to be present, whether residents of Bellefonte or any other part of the county. Many parents of the students are expected from distant cities. Keep this notice as a guide.
