OBTAIN TRACT

(Continued from page one)

State College highway and the proposed new highway which would follow nearly a straight line from the Houserville intersection to Mill-

Last Thursday afternoon members of the school board met on the site with Mr. Wasson; Clarence M. Bauchspies, Satte College architect who has been named to plan the st:ucture; Michael Baker. Jr., State College engineer, and Arthur W. Crowell State College landscape architect. The location of the building upon the site was tentatively decided upon, plans being to have the building facing the town of Lemont from the knoll on which the site is situated

Preliminary sketches of the proposed building are now being drawn by Mr. Bauchspies, for submission to vey by representatives of the depart- leaving the road struck a telephone sician. ment indicated that approval will pole. be granted.

37 Head of Colts

18 Suckers, 19 Yearling two's and three's. These colts are all Belgians and English Shires.

More bone shape, quality and colors than you will find on any other load of colts this fall. The English Shire was declared by our War Department to be the most valuable draft horse in service during our World War. They have the endurance and can take it; come and inspect these colts before the sale. They will stand inspection.

It will be a good bet for any farmer or investor to buy colts this fall, and feed your cheap hay and roughage, into colts this fall.

Be on hand day of sale as every colt will be sold. Conditions-cash.
