

Clarence Introduces Town and Folks In News Letter of Late Happenings

Howdy folks, let me make you acquainted with Clarence, which is located in Snow Shoe township, Centre county. It is the largest town in this township, is a coal mining center; has a thriving brickyard business; is listed on the New York Central Railroad as Snow Shoe station. Clarence has a second-class post office, three churches, approximately 350 pupils in eight separate grades; seven stores, six filling stations, three garages, a hotel, theatre and restaurant. Really, Clarence is an up and coming town. It may have its foreign element and a reputation to live down but show us any mining community that is any better. Hereafter it has been a bit backward in getting itself publicized but we want to claim residence there pronto. Of course the "Office Cat" may criticize Clarence girls but he doesn't say much about local bachelors, old maids, widows, etc., so if you should find your name in print take it as naturally and be grateful that you are at last getting more for your money when purchasing the best County paper.

Remember the winter is not infallible. This column is non-political, non-sectarian and shows no favoritism, so don't feel too bad if you find yourself misquoted, misjudged, etc. This issue is only an experiment. Give us your cooperation in gathering facts. Emulate a favorable reaction to a worthy enterprise and the project may warrant its merits.

News here written may include any within the radius of representatives attending Clarence schools.

Enduring gratitude is still felt in Belgium for Hoover's services as chairman of the Commission for Relief in Belgium from 1915 to 1919, in recognition of which King Albert I. conferred on him the title of "Friend of Belgium."
