

BELL PROMOTES JOHN T. HARRIS

(Continued from page one)

ager at Altoona. In 1908, following the organization of the Bell Telephone Company of Pennsylvania, he was placed in charge of the traffic department for the Harrisburg Division. After holding a similar position in Pittsburgh, he went to Philadelphia in 1923 as general traffic manager for the company's entire territory. He assumed his responsibility as vice-president and general manager for the company's Central Pennsylvania territory and returned to Harrisburg in 1926.

Born in Bellefonte on October 29, 1876, Mr. Harris was graduated from Pennsylvania State College in 1897 and now serves as a trustee of that institution. He is vice-president and director of the Pennsylvania State Chamber of Commerce and active in Market Square Presbyterian church.

Mr. Cox entered the telephone business in 1922 as an assistant engineer in Philadelphia. In November, 1927, was appointed district manager for Upper Darby District, serving Delaware County. In 1930, he became division manager for the company's Philadelphia suburban territory and three years later served in a similar capacity for Philadelphia city.

CHEMICAL CO. OFFICES SOLD TO C. HIPPLE

(Continued from page one)

Darius Waite estate when Mr. Hipple came to Bellefonte from Pine Glen about three years ago, is to be sold to Samuel H. Poorman, whose garage building is adjacent to the Hipple warehouse. It is reported that Mr. Poorman expects to raze the building to provide space for the expansion of his garage, and to provide much needed parking space.

The considerations involved in the transactions were not available. At this time it is not known whether the Chemical Lime Company offices will remain in the brick building, or whether other arrangements will have to be made to house the offices of that company.

WOMAN SAVED AS HOME IS GUTTED

the home at the time. She reported that she was aroused from sleep by acrid smoke, and barely had time to climb out the window before being overcome. Mr. Irvin stated that the fire seemed to have been confined to the second floor at the time he first looked toward the home, but it is believed that the blaze ate its way through the walls to the second floor.

Earlier in January the Farrell family moved into a new home on Adams avenue, and their former home was being remodeled into two apartments. A quantity of furniture which was to have been used in the new apartments together with a library and other possessions

of Mrs. Farrell's father, the late Prof. William F. Gibbons, were destroyed in the fire. Miss Hoover lost most of her clothing. Loss, estimated at more than \$8,000 is partially covered by insurance, according to reports.

December 13 the Pennsylvania State College foundry was gutted by fire. The Chemistry Annex, better known as the "Bull-Pen," was razed by fire December 29, and on January 5, the Thompson Mill, at Millbrook, just east of State College, was burned to the ground.

JULIAN CITIZEN DIES AT HOME

(Continued from page one)

Mrs. H. M. Cassidy, of Philadelphia, and Jesse Anderson, of Belwood, Funeral services will be held from the home at 10:30 o'clock this Thursday morning in charge of the Rev. David Sowers, of Port Matilda, Ridge cemetery, in Union township.

Mr. Tallhelm was a member of the United Brethren church. For 41 years an employee of the Pennsylvania Railroad as a telegraph operator, Mr. Tallhelm retired from active life in 1928. During his railroad career he won a wide reputation as a clock repairman, and for years he was entrusted with the duty of keeping the Pennsylvania Railroad clocks in this area in good mechanical condition and in perfect adjustment. Upon his retirement from railroad service, Mr. Tallhelm devoted most of his time to the repair of clocks at his home in Julian.

For a number of years he served as a Justice of the Peace in his home community, and also was the Julian correspondent to The Centre Democrat for a long period of time. He was well known throughout the county and was held in high regard by a legion of friends who received word of his death with feelings of profound regret.

NEEDED VITAMINS RESTORED IN BREAD

(Continued from page one)

it contains causes rapidly in flour when stored for any length of time. Wheat oil is also Nature's greatest source of Vitamin E, the life-giving vitamin essential to healthy growth, fertility and general well-being of the human body. Restored to "True-Wheat" bread through the use of Bamaco, it provides a bread of unusually fine taste—a real grain wheat flavor—plus a food which assures the necessary energy and vitality which is daily required by the human body. Bread through the ages has always provided sustenance for the human race. During the past quarter of a cen-

tury or more, there has been a steady decline in the consumption of this unsavory food, and this has been laid to the fact that much of the nutritional value of bread has been removed. In the new "True-wheat" bread, made with Bamaco, all the true nutritional value of wheat is restored; in real wheat white loaf, containing all of the health value of whole wheat bread, without any of the undesirable, indigestible parts of the whole wheat.

"True-Wheat" bread, baked exclusively in this section by Morningstar Bakesies, is made under the most modern facilities available, and is on sale at all leading groceries throughout central Pennsylvania.

REDUCED SPEEDS HAVE CUT TOLL OF ACCIDENTS

(Continued from page one)

thoughts of what has occurred. Saturday proves the most dangerous day, with Friday next; and Thursday is the safest.

Attention was called to some danger spots in Bellefonte, notably the crossing where the Highway Patrol office is located. Law and safety require a clear space of 25 feet from the curb at an intersection. A great hazard to the pedestrian particularly is created because this provision has not been enforced locally. Centre and Blair counties are tied for the unenviable position of first place in the district in motor vehicle accidents. The borough of Bellefonte has been below the average in accident rate.

The number of persons killed on the highways and on the streets of our town has been distressingly large, the speaker indicated, but that the number can be cut down vastly by the use of proper care of both pedestrian and driver and by observance of the laws of common sense and safe driving. Citizens can greatly aid the work of the Motor Police by co-operation with the police in ridding the roads of reckless drivers and in personal observance of the laws. Kiwanians W. F. Stonebraker and M. R. Hagerty, of the Philadelphia Club, and Rotarian J. B. McCool, of Lock Haven, were guests.

SALE LISTINGS SHOW SHARP DROP

(Continued from page one)

50 almost definitely stated that for 50 sales held in 1932, only 30 will be held in 1933. The reason for the reduction in the number of sales this year is difficult to determine. It may be that farmers, better satisfied with farming conditions, are content to remain where they are, rather than

to seek other means of livelihood. It may be that persons who contemplated having as a this spring do not believe their goods will bring a fair price, although there is little reason to substantiate this belief for this office has received a number of inquiries regarding sales from persons who want to buy livestock or farming implements.

Another theory that has been advanced for the decrease in sales this year is that farmers have the utmost confidence in the future and believe has farming during the coming year will bring substantial rewards.

Whatever the reason, those who

thrill at the cry of the auctioneer, or whose blood pressure increases warmly when they get into the spirit of bidding for a desired item, will have comparatively few chances to indulge in those thrills this spring. As a consequence, auctioneers are predicting record attendances and excellent prices at the sales scheduled during February and March. They point to the natural law of supply and demand to back up their predictions, holding that since there will be comparatively few sales, and comparatively little merchandise to be sold in the county, prices will hold steady and will

not be subject to sharp drops which might result if there were a large number of sales. If you are one of the persons who are going to have sale this spring take advantage of the market to the fullest extent, not only by running the time and place of your sale in the Centre Democrat Sale Register from now until the time of sale, but also by listing two or three weeks before the sale, the items which you expect to dispose of. Throughout the County there are scores of probable buyers for nearly every item you expect to put on the auction block, and there is no better way of

getting in touch with this invisible market than through the columns of The Centre Democrat. The rates for such advertising are surprisingly low. Without any obligation on your part we'll be glad to furnish estimates on the cost of giving your sale the best possible advertising you can obtain. What every community needs is broad-minded minds, above petty jealousies and personal spleens. Money plays a big part in the thinking of many men who have very little of it in their possession.
