

All Pennsylvania Is Fishermen's Paradise

Superimposed on an outline map of Pennsylvania, this picture of fishing along Spring Creek, Centre county, renowned "fishermen's paradise," typifies the good fishing to be found all over the state.

Grateful for Free Country

By a Staff Correspondent of The Christian Science Monitor. "I am thankful that I live in a land where the youth of all races have a tomorrow... I am thankful that I am happy and free."

Sarah Ann's Cooking Class

Perfectly cooked asparagus, plenty of it—hot, well seasoned and liberally buttered, on toast, a bit softened in the middle by the rich buttery sauce and yet crisp at the edges—this is a dish fit for a king, seemingly there is nothing better. But there are other combinations in soups, casserole dishes, in hot vegetable dishes and cool refreshing salads. Give them a trial.

DID YOU KNOW

On the death of a man in the upper Congo, all his wives go about naked, bodies smeared with white clay, for a year, and are then distributed to the dead man's brothers and sons. Smyrna's fig industry depends on an insect, the blastophaga, which carries the pollen. Without the aid of this insect the crop fails.

IRIDESCENT!

Definitely vibrant are these iridescent skin tones and dazzling collars that have caught on so tremendously. They're just right for your Spring clothes. 79c and \$1.00

Vegetable Cocktail

1 1/2 cups cooked asparagus tips, 1/4 cup of finely cut celery, 1 tablespoon finely cut chicken, 1/4 cup tiny dice of cucumber, 1 1/2 cups tomato sauce, 1/2 teaspoon lemon juice. Mix and chill thoroughly. Serve in cocktail glasses, with cheese crackers.

Sardine and Asparagus

Pat dry on paper towels large sardines which have been drained from oil. Dip in melted butter and arrange on a baking platter. Place pieces of toast on the platter with asparagus tips dipped in butter. Pile hot mashed potatoes between fish and toast. Put the platter beneath broiler flame and brown as quickly as possible. Serve at once. Garnish with fancy cut lemon.

Continental Salad

Have all ingredients well chilled. Use individual plates well chilled. Arrange shredded lettuce in a mound in the center of the plate. Pour a little French dressing over it, then arrange the asparagus tips around the mound. Make a little nest-like cavity in the top of the lettuce mound and fill the pieces of lobster-boiled preferred. Arrange around the base either artichoke heart, or cubes of cucumbers and cubes of tomato.

Asparagus and Mushroom Sauce

Toasted buttered biscuit. Poached eggs. Asparagus tips, buttered. Mushroom sauce. On a platter arrange the biscuits with the poached eggs. Pour the mushroom sauce around them. Garnish with bundles of asparagus and bacon curls.

Asparagus Shortcake

Make the shortcake without any sugar, in the form of large biscuits. Bake, split, and butter, cover lower half with creamed asparagus, put on top, buttered side up cover with creamed asparagus. Sprinkle with grated cheese and paprika. Run under the broiler until cheese is melted.

Salad Vinaigrette

It requires asparagus, sliced tomatoes, sliced cucumbers, sliced cold boiled potatoes, peas or lima beans, fine strips of boiled ham, hearts of lettuce. Arrange lettuce on individual plates. On this arrange the asparagus wheel fashion, tips out. Mix other vegetables and toss lightly in French dressing. Pile in the center of the plate. Pour over all vinaigrette dressing made by adding to 1 cup of dressing, 1 small sour pickle, chopped fine, 1 teaspoon each of minced parsley, Chives, sweet green pepper and 1/2 teaspoon of hot green peppers.

Harris Township School News

Oratorical Contest: The preliminary oratorical contest was held on Thursday morning, April 7, at 9:30 o'clock, with the Reverend Kaufman, Miss Anna Sweeney, and Mrs. Maud Graham judging. The following Juniors were selected to participate in the final contest Tuesday evening, April 26th, at the new High school building: Kathryn Tussey, Martha Irvin, Lorna Dunkle, Priscilla Ross, Virginia Patterson, and Robert Bailey. This will be the eighth annual contest sponsored by the Boalsburg Civic Club. The contest is part of the Junior English course and is directed by Miss Dorothy Ristinger.

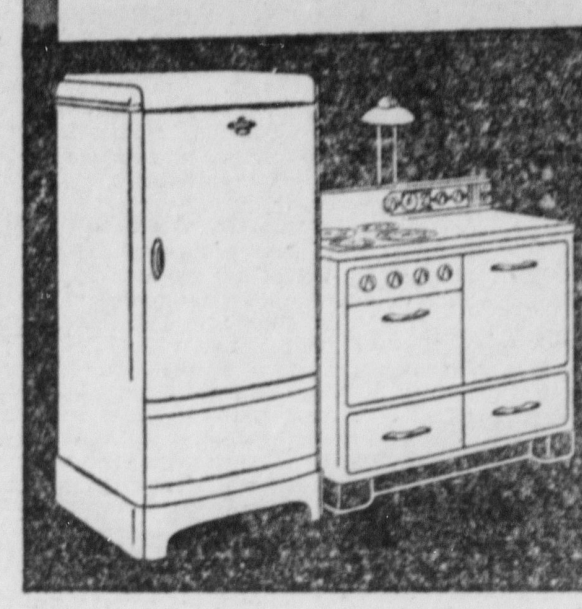

Shrubby Planting

Mr. E. H. Dale, vocational teacher, is in charge of a shrubby planting program on April 22 at 9 o'clock, at the new High school building. All friends and interested persons are invited to attend at the school grounds. The Senior class is donating the two trees for the front of the school building. The six trees bordering the drive are to be donated by various people. The Future Farmers Association of the Harris Township High school donated fifteen dollars for shrubbery, the remainder being purchased by the School Board.

Athletes

Recreation was begun on the week of March 28th, but was interrupted by the bad weather the past week. Our boys' first baseball game will be with Snow Shoe on April 14th at the home field.

FARM CALENDAR

Timely Reminders from The Pennsylvania State College School of Agriculture. Feed Chickens Right—Proper feeding is important in successful rearing of chicks. It is not advisable to hold chicks more than 72 hours without feeding, say poultry specialists of the Pennsylvania State College. Placing a small amount of scratch grain on the mash will start them eating later, mash and scratch grain may be supplied in separate hoppers. Start Flowers Growing—April is a busy month for the home flower gardener. Jobs that should be done seem almost endless. Fancy plants started last fall should be transplanted. The last week in April is a good time for planting dahlias tubers, particularly where there is little danger of frost, according to Penn State agriculturists. Pasture Affects Milk—During the first few weeks that cows are on pasture, the percentage of fat generally increases. This is due to the watery nature of the grass. The cows are unable to secure sufficient nutrients to meet the needs of production, say dairy specialists of the Pennsylvania State College. Because of the underfeeding, the fat percentage rises at the expense of the cow's body. Dry in the Wet Spot—Many Pennsylvania fields cannot be brought into a uniformly high state of cul-

homes against robbers and kidnapers, according to a group of radio engineers at Rockefeller Center. The heart of the alarm system is a radio set which, when in operation, produces a radio field around the antennas. This field is very sensitive to the movements of the human body. When a person gets within a certain distance of the aerials, a circuit is broken, and an alarm goes off. This alarm will, if properly regulated, illuminate the entire inside and outside of a home.

RADIO "CURTAIN" GUARDS HOMES AGAINST KIDNAPERS

By employing the electrical capacity of the human body in an entirely new way, engineers have developed a radio "curtain" to guard
