A fine program on Mothers' Day was presented by our student grange. Penn State, Miss Ellen Garber, le turer. The program was opened by singing with a good leader; this is an effective manner in which these moments of delay in preparation for program presentation can be utilized to good advantage. We liked the suggestion in their play that every day is Mothers' Day and we fully realize that Love shown by oughtful consideration of others is live love with their associates. May

All members of Pomona Choir and all participants in the dramatics of the day are to be in old fashioned attire. Won't we have fun? Why miss it. We almost reached the 400 mark in Neighbor Night attendance, wonder if we could break that record at this Pomona meeting. Hurry up with that corn and 'taters men. You deserve a day off as well as other professional men; we know the women are managing the corners to prevent delay, we'll look for you all. Did I hear some one remark that "other prefssional men" was an error? Not at all. Farming is one of the greatest professions known to man and don't you lose sight of that fact, co-workers. Your farm is what you make it, let's be proud of it and make it proud of us. Now let's go.

Plans are being completed for our Pomona meeting, Saturday, May 28, 1938. This meeting is to be held in the new building known as the Meyers gas station, located between State College and Boalsburg, on more miles Route 322. A lovely room in which to hold such a gathering and we feel sure we will be rayally entertained by our host, Victor Grange, and also by those in charge of this fine new building. The program for the day, the menu. all matters regarding this meeting will be given you in detail in next week's "News." We suggest each person out this information of next week from your copy and retain for reference to the arrangements of the day as i was decided by the committee that our "News" be used in this manner, thus eliminating the former neces-sary expense of having programs printed and distributed through our ranges. A RESTFUL HOUR.

I love to go on a Summer day And walk down a country lane. Just to find peace and quiet Away from life's turmoil and then: Go strolling through the woods And find a shady nook, Just to sit and rest Beside a babbling brook Just to sit and listen To the murmur of the rill, Water tumbling o'er the rocks Cascading down the hill.

To listen to the birds Singing in the trees. The lowing of the cattle And the humming of the bees. To feel the summer breeze That sighs through the trees. Gently swaying all the branches The blossoms and the leaves. Then when evening shadows fall go home again Knowing my hour with nature
