EDITORIAL

CONDITIONS AS WE SEE THEM

The result of the primary election in Pennsylvania has furnished a lot of food for discussion and speculation.

Republican leaders are making much ado about the big vote rolled up by Judge Arthur H. James in gaining the Republican nomination for Governor. Judge James defeated Gifford Pinchot by a majority of more than two to one, but by no manner of figuring can Judge James be listed at this time as the favorite over Charles Alvin Jones in the November race.

It is true that the size of the James vote was one of the surprises of the campaign. It is true that Jones slipped in by less than 70,000 votes and that he is a minority candidate, in that his total vote did not exceed the votes cast for Thomas Kennedy and Charles J. Margiotti. However, it appears more likely now that the Margiotti and Kennedy supporters will be for Jones in the Fall than it does that the Pinchot supporters will be for James.

Pinchot was placed on record early to say that he would be for the Republican nominee, no matter who he was, after the primary.

Pinchot had to say this because he was being attacked by the New Deal-hating Republican faction as a mild New Dealer. Mr. Pinchot had to say in effect: "I am not a New Dealer; I am a Republican."

Pinchot says he will be for James, but it does not follow that the Pinchot voters, many of whom changed their registration from Republican to Democrat for the primary, will go along.

The vote that Pinchot attracted was the Progressive Republican vote. Such a bloc of voters could hardly cast their lot with an avowed conservative like Judge James. Jones and Earle undoubtedly will attract a large majority of the Pinchot votes.

Secondly, the Guffey Democrats and Kennedy Democrats have no place to turn other than to the Democratic sideration as others which dodge their responsibility and then rush to Washington, after a crisis has developed, for assistance.

The census of unemployment conducted some months ago by the Government should provide a partial guide at least to the allotment of Federal funds. That job should be done at regular intervals and on a compulsory rather than voluntary registration basis so that an up-to-date check on relief needs may be constantly available.

AIR MAIL GROWTH

The air mail has made considerable progress since that day in May, 1918, when two planes set forth simultaneously from New York and Washington, flying the first mail between two American cities. On that route, short as it was, the mail was carried in relays, with the planes being changed at Philadelphia.

Beginning with four planes that operated the first 218-mile route, there are now more than 400 airplanes used in flying the mails over 63,000 scheduled miles. Last year, airmail pilots covered more than seventy million miles. From the use of open-cockpit war-time planes, the airmail has grown to all-metal planes, sometimes with a crew of four, carrying out their duties in large, multi-cabined airplanes.

Last week thousands of towns and cities in the United States celebrated the twentieth anniversary of airmail service. In many instances, the use of the airmail saves much time. The greatest value, is to the larger cities on the direct airmail routes.

For the smaller towns and cities which have to dispatch mail by train to catch airplanes at other points, the use of the airmail saves time only on long distances. This will be remedied in time. Just as the rural mail service made a small beginning and gradually spread out to cover almost the entire nation, the airmail will expand and, eventually, carry most of the first-class mail in the country.

NEUTRALITY ACT FAILS

In the summer of 1935, Congress passed the first Neutrality Act. As revised and re-enacted, it provides that the President, whenever he finds a state of war existing, shall proclaim the fact and this will automatically shut off the export of munitions to belligerents, ban loans to the belligerents and place American trade with them on a cash-and-carry basis.

Senator Gerald P. Nye, of North Dakota, is generally regarded as the father of the present act. Under his leadership, a committee investigated the munitions industry, seeking to show that American loans and munitions sales to the Allies led this country into the World War. The legislation was an attempt to prevent anything like this from happening in the future.

Regardless of the purpose in view, there is general consent that the present Neutrality Act does not successfully serve the purpose intended. There has been considerable controversy over the application of the law in Spain and the failure to apply it in the situation in the Far East. Recently, Senator Nye introduced a resolution to repeal the special prohibition on export of munitions to Spain and this was supported by many American liberals. The move was opposed by Secretary of State Hull, who called the measure dangerous, since "we do not know what lies ahead in the Spanish situation."

Since the present statute expires May 1st, 1939, something will have to be done about the matter at the next session of Congress. Whether the present law will be revised, or altogether abandoned, remains to be seen. Certainly, as it stands and as applied to the conditions in Spain and the Far East, the Neutrality Act does not seem to be effective in safeguarding this country from the danger of arousing ill-feeling abroad.

DOWN ON THE FARM

Little Willie, precious "Kitten," Drove in hogs where Ma was knittin'. Pleaded Willie, "Oh Mother mine, "Do cast some purls before the swine."

Me And My Mule

Over the hill trailed a man behind a mule drawing a plow. Said the man to the mule: "Bill, you are just a mule, the son of a jackass, and I am a man made in the image of God. Yet, here we work, hitched up together year after year. I often wonder if you work for me or I work for you. Verily, I think it is a partnership between a mule and a fool, for surely I work as hard as you, if not harder. Plowing or cultivating we cover the same distance, but you do it on four legs and I on two. I, therefore, do twice as much work as you do.

"Soon we will be preparing for a corn crop. When the crop is harvested I give one-third to the landlord for being so kind as to let me use a small speck of God's earth. One-third goes to you and the rest is mine. You consume all your portion with the exception of the cobs, while I divide mine among seven children, six hens, two ducks, and a banker. If we both need shoes, you get 'em. Bill, you are getting the best of me, and I ask you, is it fair for a mule, the son of a jackass, to swindle a man-the Lord of Creation-out of his substance?

"Why, you only help to plow and cultivate the ground, and I alone must cut, shock and husk the corn while you look over the pasture fence and hee-haw at me. All fall and most of the winter the whole family, from baby up, need clothes, and I have to raise money to pay taxes and buy a new set of harness and pay mortgages on you. And what do you care about the mortgage? Not a thing, you ornery cuss. I even have to do the worrying about the mortgage on your tough, ungrateful hide.

"About the only time I am your better is on election day, for I can vote and you can't. And after election I realize that I was fully as big a jackass as your pop. Verily, I am prone to wonder if politics were made for a man or a jackass, or to make jackasses of men. And that ain't all, Bill. When you're dead that's supposed to be the end of you. But me? The preachers tell me that when I die I may go to hell forever. That is, Bill, if I don't do just as they say. And most of what they say keeps me from getting any fun out of life.

face and still look so dumb and solemn?"

DAINTY, BUT NOT NOURISHING

- In Pamela's wardrobe a moth once appeared;
- Exceedingly hungry was he; He downed some sheer stockings and speedily cleared A bundle of choice lingerie;
- Ate four evening dresses and then passed away
- With a sigh of profound resignation, An inquest was held on the following day
- And the verdict was: "Death from starvation."

Too Many Questions

Illustrating the oft repeated advice "Don't ask too many questions." is the following: The defendant was charged with mayhem and was being defended by two attorneys; one of long practice, the other only ferers in Spain? beginning his professional career; the older lawyer was examining the witness. The specific charge was that the defendant had bitten off a \$98,479 to date. These grants of \$41,000 for Americans stranded in Spain; part of the ear of the complainant.

- This is the examination.
- "Did you see this fight?"
- "Yes, sir." "Did you see the defendant bite the complainant's ear?"
- "I did not."
- "What was the condition of the ground where the fight occurred?" "It was covered with sharp stones and tree roots."
- Were the combatants on the ground?"
- "They were." "Might not the complainant's ear have been injured by being cut some of the stones or tree roots?"
- "It could have happened that way."
- "That is all."

The younger lawyer nudged the older one and whispered to him. Ask him if it didn't happen that way." The older lawyer hesitated.

Query and Answer Column

PROBLEM: How far is it possible to see at sea-level and on level ground with no obstructions? (Answer elsewhere in this column.)

L. G .-- Did Turkey and Greece ever have a war in modern times? If what was the cause of the war?

Ans .-- Yes; they had two wars in modern times--one in 1830, when Greece threw off the Turkish yoke and became an independent kingdom; and again in 1897, when both the Turks and Greece claimed Crete as part of their respective kingdoms. This last war was shortlived and disastrous to Greece, when the Powers intervened and an armistice was concluded.

D. C .-- I am told that Thomas Jefferson was a Republican. Is that true? Wasn't he elected on the Democratic ticket?

Ans .- Thomas Jefferson was a Republican in that he founded the original Republican party in 1801, which in reality was the same as the present-day Democratic party. When Jackson was elected-or just prior to his election-the name of the original Republican party was changed to Democratic party. The present-day Republican party was founded during the turbulent days preceding the American Civil War.

R. H .- Which is the oldest nation in the world so far as civilization is concerned?

Ans .- As to the oldest nation in the world the best historians are not in full agreement. China claims to have records and facts that date back for more than 5,000 years before the Christian era, while the Egyptians first appear on the pages of history they are already possessed of a marvelous advanced civilization, extending back thousands of years even before the remote period of the pyramid builders. This would bring it to about the period of the Chinese claims.

D K .- What was the maiden name of the wife of President Buchanan? Also the name of the wife of President Theodore Roosevelt?

Ans .- President Buchanan was never married. The name of President Theodore Roosevelt's wife was Alice Lee.

F. C .- Do the people of Brazil speak the Spanish language?

Ans .- No. The Brazilians speak the Portuguese language. Portuguese people settled in Brazil, and in 1822 they declared their independence from the mother country.

M. S .- I was born on Sept. 7, 1902. What day of the week was that, and what is my horoscope?

Ans .- Sept. 7, 1902, was on Sunday. We do not give personal horoscopes

S. H .-- What words do the letters "S. O. S." represent?

Ans .-- "S. O." is a distress signal and does not represent any particular words In wireless telegraphy "S. O." are the easiest to transmit, "Tell me, Bill, considering these things, how can you keep a straight When repeated continuously it sounds like "SOSOSOS."

J. O. B .- What size hat and shirt does President Roosevelt wear?

Ans .-- President Roosevelt wears a size 71/2 hat and a 161/2 shirt. E. F. L .- Who said that nothing is certain but death and taxes?

Ans .- Benjamin Franklin said, Our Constitution is in actual operation; everything appears to promise that it will last; but in this world nothing is certain but death and taxes.

C. B. S .- What is the elevation of the Skyline Drive in Virginia?

Ans .- The elevation of the Skyline Drive varies from 2500 to 3800 feet. The highest point is at Skyland which is ten miles south of Panorama, Virginia.

L. R .- Do sea-lilies belong to the vegetable or animal kingdom? Ans .- They belong to the animal kingdom and are related to the starfish

L. W .- How much money has the Red Cross given to aid war suf-

Ans .- Funds sent by the American Red Cross to aid Spain total \$50,000 to the International Red Cross Committee for its work there; \$5,000 for relief of Basque refugee children in France; \$1.000 for children in Spain; and the sum of \$1,479 contributed by the public.

S. F. L .- What is a sin eater?

Ans --- Henry the Eig

Ans .-- A sin eater is a person hired to eat the sins of one who has just died. The practice used to be common in England. A piece of bread was placed on the breast of the corpse. This the sin eater devoured and, supposedly, with it, the former occupant's sins. The rite has been known as recently as 1893 in Shropshire in England and still is followed in parts of Bavaria and the Balkans.

E. F .- What is the speed of a tank when used in battle?

Ans .- A battle speed of eighteen to twenty miles per hour is considered most desirable.

core the first builted silk stock.

ing for a ten days' trial. If he and

his companions were not in better

health at the end of that period than

party.

The labor record of the Republican party in Pennsylvania has been reactionary. Under Governor Earle, labor has made great gains. It is well known by this time that it was Charles Alvin Jones who drafted the labor planks of the party before it was placed into power. On his record, James has nothing to offer labor.

In addition, the regular Democratic ticket conducted its campaign in such a way that it will have little to explain in the Fall. The Republican candidates, on the other hand, cast discretion to the winds, and placed themselves on the record on a different controversial subject every day. This will provide much campaign ammunition for the Democrats in November.

One of the big issues of the campaign will be the New Deal. Earle and Jones will be standing behind the policies of the Roosevelt Administration, but they also will be standing behind the record of the Earle Administration.

A third factor that enters into the discussion results from an analysis of the total vote cast at the primary.

The registered vote was 2,000,000-odd on each side. the closest it has been in years. The vote was approximately 1,300,000 Democrats and 1,380,000 Republicans, a difference of only 80,000.

If the Democrats succeed in uniting their forces in November and attracting a sizable bloc of the progressive Republican vote that went to Pinchot, they will win in a walk in November.

REVOLTS IN BRAZIL

There is a general suspicion that foreign influences had a hand in the rebellion which was crushed by the Brazilian Government one night about two weeks ago.

Of course, revolutions are not new to President Vargas, the 55-year-old wielder of assumed dictatorial power in Brazil. In 1930, he became President after a revolution. In 1932, he put down a civil war after two months of fighting. In 1935, his Government had another period of struggle, but again conquered the malcontents. In March. President Vargas announced the discovery of a plot to overthrow him and many persons were arrested and much arms seized.

The last revolt was credited to the Integralistas, an organization of Green Shirts that grew up in the early thirties. Demanding a totalitarian State and posing as the enemy of Communism, the organization is regarded as fascistic. While, for a time the group had the favor of the President, he banned the organization last November.

SPECIAL SESSION HINT

Governor Earle indicates that the relief load has increased to such an extent that funds now available will be exhausted and the Legislature may have to be called to approve new taxes.

Nobody in Pennsylvania wants to see repeated here the scenes which have been enacted recently in Cleveland and Chicago. The needy must be provided for. But it is incumbent upon the State relief administration to cut down all unnecessary overhead and make the money reach just as far as possible. New taxes would be an additional barrier to business recovery.

The Federal WPA administrator announced last week that quotas were being raised in Cleveland and Chicago to alleviate the critical conditions in those cities. This may be justified in view of the emergency, but it raises again the lack of systematic planning. The discretionary powers of the Administration in the allotment of Federal funds are almost unlimited. States which make reasonable provisions for relief may not get the same con-
