Award 2 Prizes At Pleasant Gap

(Continued from page one) names receiving the highest number of votes are submitted to the faculty, from these three boys and three girls one in each group is selected by the faculty through secret ballot and award the prize. The Brotherhood is seeking means by which finer character traits may be encouraged in the community and have adopted this as one method toward that end. People of character and quality should come out of our schools, not only to become natural. The Brotherhood Educational Committee of the Brotherhood, and greater cash prizes are to be offered in the "Character" award of the next school year. A good way for under-classesmen to win the prize is to start now to train themselves so that good traits will become natural. The Brotherhood Educational Committee asks parental help in encouraging young folks to win the "Character" prize, not so much for the prize itself but for the habits of life that will be developed. It is felt that the means of winning the prize is much greater in real value than the prize itself.

Reduction of insurance rates in Bellefonte because of adequate fire protection has saved the citizens of this community many times the cost of modernizing the fire department.
