C. H. Vonada and son, Honer Vonada, of Aaronsburg, were Bellefonte visitors on Monday morning and called at the Democrat office.

Flower note: Why do they set hospital patients' flowers outside the room at night? Is it because they really cause insomnia, or is it because they use the oxygen in the air?

Candid comments, breezy column in a local weekly, expresses the hope that this department names more Dapper Dames. While reminding her that she only ranked the 10th in the Dapper Dames Society Editor, we might step out of our role long enough to mention that Candid Comments, together with all the gorgeous gals she says are to be seen parading on Allegheny street most any afternoon surely rate mention as Dapper Dames. We'll have to get our stogie down to naming more names.

Among the callers at this office Monday were Mr. and Mrs. H. E. Lutz, of Meadville, who were preparing to return to that city after a visit with Centre County relatives and friends. Mrs. Lutz came here three weeks ago to hunt, and before she returned she and her husband found themselves smiling, take into account that she shot a large wild turkey, 2 rabbits and a squirrel. To top that off she visited the Lound Bingo game and won a 1934-35 pound turkey. During her stay here Mrs. Lutz was a guest at the home of Mrs. W. H. Adams, at Meadville. She will be home during the weekend to take his wife and the turkey she won, home for Thanksgiving.

Frank Stevens, son of Dr. and Mrs. R. L. Stevens, of East Curtin Street, played a leading role in a three-act mystery play, "The Bat," presented by members of the Dickinson College Dramatic Club at Carlisle, November 10 and 11, at the opening play of the 1938-39 school season. Stevens was cast in the role of Reggie Beresford. The play, written by Mary Roberts Rinehart and Avery Hopwood, was an outstanding success, nearly half the student body, of the college and a number of out-of-town high school students attending the first performance. After the second performance, Tau Delta Pi, the dramatic fraternity, was host to the dramatic club in the customary after-the-show party, held at the Beta Pi House.

While Bellefonte County trawlers, its thumbs the canine arrangement of stop signs at the corner of Allegheny and Linn Streets continue to cause a traffic jam, consequently, reckless motorists continue to wreck their cars and damage their persons through accidents which would seldom happen if the signs were placed to help motorists rather than to trick them. The latest accident, one more step nearer a probable fatality, occurred which can be laid directly at the door of Council—happened at noon Saturday when cars driven by Elwood Young and Wilson Parker, both of Red Rock, came together. It was the same old story—Young going east on Linn Street, and Parker going north on Allegheny Street. Under the stop sign arrangement, both had the right of way. Both machines were damaged, but no one was injured.

Rock-A-Bye Baby A youth stole a car at Yorkers, N. Y., without realizing that 18-month-old Marguerite Oliver, daughter of the owner, was doing in a basket in the rear of the vehicle. In his flight the thief crashed into a truck, wrecking the car so badly he left it and fled on foot. When the worried parents arrived on the scene, a policeman led them silently to the smashed car. FARM CALENDAR

Timely Reminders From The Pennsylvania State College School of Agriculture

Store Leafy Crops—Home gardeners often store celery and Chinese cabbage in cold cellars, coldframes, or trenches while endive is either stored by one of these methods or covered in the row with waterproof paper and straw. Vegetable gardeners at the Pennsylvania State College say that is essential to keep the roots moist.

Mulch Strawberries—It is best to mulch strawberry beds after the ground is frozen. Penn State specialists point out. This prevents alternate freezing and thawing which often kills some plants out of the ground, seriously injures the roots of others, and in general reduces the yield of fruit.

Select Brood Sows—Selection of sows and gilts for breeding from large litters is a good practice, reports Penn State animal husbandmen. Placing them on full feed for several weeks before breeding usually results in an increase of 10 to 20 per cent in the number of pigs farrowed.

Grain Feed Values—The amount of grain to feed dairy cows depends upon the breed and the volume of milk produced, explain Penn State dairymen. Knowledge and judgment of these matters aid in keeping production costs down.

Get Rid of Insects—Lady bugs, box elder plant bugs, a waspe and other wintering in houses, sheds, and other buildings, say Penn State entomologists. If they become a nuisance, windows may be opened on warm days and often they will leave.

Save the Soil—Soil erosion can be controlled by simple methods in farm practices, say Penn State agronomists.

was scarce in the four counties named in the South Mountain range and asked that these territories be kept closed. An adverse court decision last year forced the commission to call off a scheduled open season on antlerless deer in certain counties and refund fees collected.

Judge Niles, whose decision was concurred in by President Judge F. B. Wickersham of Dauphin county, criticized the complaining sportsmen as being "guilty of delay in failing to take action until too late to allow for hearing, consideration and decision by this court and orderly review thereof and other public action by the commission in case it be required."
