Marihuana, or hashish as ft is sometimes called, was used in the eastern countries before the birth of Christ. Today in the city of Cairo, Egypt, alone, there are thirteen insane institutions filled to overflowing by persons who have become insane from the use of Marihuana. In our country, in the far western states more than eight hundred thousand cattle died last year from eating the "loco weed" or Marihunan plant. In our own state of Pennsylvania tons and tons of it have been found, being grown and sold to racketeers for large sums of

Dispensers of the drug place it in cigarettes and urge young people to buy one "just for the thrill you will get out of it." These peddlers hang around corners near to the high schools as they know students usually have money to buy lunch and they try to sell them their wares instead. The drug is also placed in

candy and chewing gum. The first reaction to the use of the drug is one of a feeling of great exhiliration, then comes a reaction which brings the desire to kill or commit other hideous crimes; after commitment of the crime there is entire loss of memory and the per-son has no idea that a crime was done. Insanity is the usual end as the drug destroys the brain cells. Capt.
