FORD CAR

HYDRAULIC BRAKES?

NO? Then climb into any 1939 model, slip that satinsmooth 8-cylinder engine into high and head for a traffic light. You've got a real thrill coming!

OK . . . green . . . amber . . . RED! Just touch the pedal. It goes down evenly, easily-under full control all the way. You stop smoothly, swiftly, surely -from any speed-in a straight line, without swerve or side-slip.

Those things you can feel underfoot. Just as important are the things you seldom see - the husky construction of the hydraulic system—the big brake drums and the large lining areas that contribute so much to fast stops and long life.

Grand new brakes are only one reason why all America's cheering the 1939 Ford cars. Some of the others are listed below. Read them there and prove them for yourself on the open road. Seeing is believing-and a lot of fun!

TOP-VALUE FORD FEATURES

Style leadership - The luxury Hydraulic brokes - Easy-acting

car in the low-price field. -quick, straight stops. Stabilized chassis No frontend V-type 8-cylinder engine Scylbobbing or dipping. Level inders give smoothness. Small
