CHICHESTERS PILLS

For the Minute that Seems Like a Year!

On most of your telephone calls there may not be much need for split-second speed. Why, then, have telephone people made the service so fast?

Because there may come a time when an emergency will strike. Then a minute will seem like eternity.

To be on the safe side, we aim to handle every call as if it were marked "URGENT!" Seconds may be vital, so we try to give you split-second service every time.

To do this requires the world's finest telephone plant, a highly-trained personnel and never-ending research. Millions have been spent to improve telephone equipment and methodsto save a second here and there. Some day you may find that second priceless!

Try a long distance call tonight after 7 or any time Sunday, when rates are lowest. See for yourself how fast your call goes through! The Bell Telephone Company of Pennsylvania.

The tatalog of folly is endless. In public school to witness a drill for which it had become famous. The which it had become famous. The school principal was cordiality it—through a drill contending indigschool to witness a drill for a Delaware school I saw 37 student trying to sell is a decent fire-drill A son was born to Mr. and Mrs. J.

The children had to about fire hazards and behavior with stand on the window sill and swing a grasp of the subject that would got 12 feet from the ground they fire escape doors. I should like to MODERN WOMEN school fire prevention. In this state, he study of fire hazards is in in every curriculum, and two firedrills a month are held in all schools. Student committees have charge of

these drills and often call them vithout the knowledge of the faculty. The state supervisor of this revolutionized the former nonde-

Here is how the Texas system are appointed Room Captains, Floor mains. Captains, Fire Marshals and Deputies. They all have specific duties: one is responsible for assisting lame and crippled schoolmates; another for seeing that his room is empty before closing the door; still another leads the line from his floor, giving necessary orders; others check on cloak rooms and toilets to see that they are vacant. All signals are given by hand to prevent shouting and confusion. The whole process of emptying a school completely should not require more than two minutes. If it takes longer, the sit-

uation calls for investigation and egress are explained to the students, in what football coaches call "skull practice." The location of the primary and secondary exits for each the Twelsth Regiment. ip is made clear; the treacher-

a fire drill really is, and why they must or must not do certain things.

the second step is to keep the children moving to a safe distance where they will neither endanger themselves from falling debris nor swarm

every school.

Recollections of A War Governor R. D. 1.
