Mrs. Charles Alexander, Mrs. Harold Alexander and Mrs. Dave Christian spent Thursday evening at the home of Mr. and Mrs. Harry Winslow of Tyrone.

BUSH HOLLOW

Attendance at Sunday school was better last Sunday. We had 51 present. There is room for many more and there are many more in the hollow who should be in Sunday school on Sunday. A good sized crowd attended the Wednesday night service, but where were all the Bush Hollow people? Services this week on Thursday night instead of Wednesday evening and Mrs. Byrd expect to attend a Young Peoples' Rally at Lock Haven on Wednesday. Everybody welcome to the mid-week service and Sunday school Sunday morning at 9:30.

Rev. and Mrs. Byrd visited homes in Unionville last Wednesday and there took supper at the Andrew Irvin home before coming to church.

Mrs. Edna Spotts and Mr. and Mrs. Martin Spotts and children visited last Thursday with Mr. and Mrs. Martin Moore at Port Matilda. Also took dinner on Sunday with Mr. and Mrs. Joseph Spotts of Chestnut Grove.

Some of the people from this community attended a farewell party for Mr. and Mrs. Joseph Spotts and family last Friday night. They intend to move to Buffalo Run Valley in the near future. We wish them the best of luck in their new place. Come back and see us sometime, Joe.

Mr. and Mrs. Roy Spotts and children took supper with Mr. and Mrs. D. H. Custer of Unionville, last Friday evening.

Supper guests at the Roy Spotts home on Monday evening in honor of Mrs. Spotts' birthday were: Miss Daisy Bobb, a missionary from Mexico; Rev. and Mrs. J. A. Byrd, of Coyleville; Mr. and Mrs. Andrew Irvin and family; Mrs. Edna Spotts; John Spotts and Mr. and Mrs. Martin Spotts and family. A good time was had by all present.

If the American people really want to work for world peace, they might as well realize that economic barriers to the development of peaceful commerce between all peoples as one of the greatest sources of friction that leads to war.

With Germany pledged to assist Italy and Great Britain pledged to assist France, the stage is set for a big war.

Scientists say that the world is gradually growing warmer. Maybe this explains the bellicose attitude of people.

Lyons Building Fire

(Continued from page one)

The Levine room, was considerably damaged by fire, while water exacted a heavy toll. Much equipment stored there was destroyed by fire, while all foods not in cans were ruined by smoke, fire and water. Saleable goods were disposed of at a fire sale, Tuesday.

In the front basement room where James Bailey had conducted a barber shop since November and water damage was quite extensive. The loss is covered by insurance. Mr. and Mrs. Yorks fired did little damage in these rooms.

The second floor were three apartments. One front apartment was occupied by Mr. and Mrs. Roy Buchberger, who had to be assisted from their quarters by firemen after the stairway was blocked by fire. All their furniture, clothing and other goods is a complete loss, which will be partly covered by insurance.

The other front apartment was occupied by Mr. and Mrs. David Bathurst and their son, Sam. The fire was of a serious nature, extending along the building through Cherry Alley carrying 2,300 volts, were disconnected to remove danger in the event the wires were burned. It developed that fire was not intense enough to destroy the cables.

Water Pressure Excellent. Water pressure in fire hydrants in the area was sufficient to carry to the top of the building, but pumps were used to service later to give extra insurance power to break windows and drive into the interior.

Several sections of hose owned by the local fire companies, as well as sections owned by the Milesburg and Pleasant Gap companies, were damaged during the fire. Some sections burned under the pressure, another one or two were damaged by falling pieces of metal. One hose uncoupled under high pressure, got out of control and whipped madly about until it was "tackled" by several firemen. Alpha firemen of State College, working at the rear of the structure, doused with water when a hose held by other firemen broke near the nozzle, showering water in all directions.

Despite the early morning hour, it is generally believed that there were more spectators on hand for the Lyons fire than were present at the school fire last Monday. Six Penn State students, taken to the jail by local and county officers when they heeded firemen, were released after the fire under the custody of the State College fire chief.

Amateur and professional photographers were on hand, but extremely poor lighting conditions, together with the fall of smoke that hung over the scene, made picture-taking a difficult task. Even the best professional pictures of the fire show little more than glares at windows, and streams of water playing on the dark building.

Restaurants in the area did a large business as shivering people longed for a cup of coffee and a sandwich. The Diamond Restaurant and other eating places distributed hot coffee among the firemen.

The Lyons building is owned by Samuel Goodis and Harold B. Schrier, nephews of Mrs. Louis Gramer of Philadelphia, formerly of Bellefonte. The Mary M. Faubus real estate agency has been acting as local agent for a number of years.

The Faubus agency yesterday reported that the building has been inspected and that most of the walls and the heating plant are in usable condition. Tuesday morning carpenters began clearing away debris preparatory to erecting a temporary roof over the Levine store, to afford protection from the elements until the building's future has been decided upon.

The Winner Market is now seeking a new location. James Bailey is tentatively preparing to open a barber shop in his property on West Bishop street until permanent quarters have been secured.

Many friends and neighbors of Mrs. Sarah Smith gathered at her home near Marengo last Thursday to help her celebrate her eighty-first birthday. At noon a delicious dinner consisting of chicken and every delicacy known to our cooks and a dessert of cake and ice cream was served for twenty-two guests. Mrs. Smith is in excellent health and does all her own housework. She has seven grandchildren and eight great-grandchildren.

Since the death of her husband about ten years ago she has lived alone in her house near Marengo. Those present were: Mr. and Mrs. Milton Walker and Sara and Curtis Walker, Mrs. Alva Johnson, Mrs. Helen Johnston and son Johnny; Mrs. Violet DeArmit, Mrs. Edith Rider, Mrs. Ance Barr, Mrs. Elsie Barto, Mrs. Grace Albright, Mrs. Holly Stiver, Mrs. Nan Eves, of Gatesburg and Marengo; also Mrs. Clyde Rider, of Penna. Furnace, and Mr. and Mrs. Chester Musser and family of State College.

The chicken pox is leaving its mark on many of the youngsters. Quite a few are housed up with the grip.

Mr. and Mrs. Lee Harpster are the proud parents of a baby born Saturday at their home near Gatesburg. Rumors have it that Mr. and Mrs. Russell Eyer have purchased a John Strayer property in Gatesburg and mean to move there in the near future.

Many of our "Three Linkers" motored to Stormtown Thursday night for an oyster supper. Many of our young folks motored to Milesburg last Monday night to attend the Young Peoples Conference.

Some prunes require only a half hour's soaking because so much moisture was added to the prunes in packing. Others are so dry that they must be soaked overnight before they take up enough moisture to be fit to eat. Some prunes on the market are so tender they require only brief soaking.

Original Building Threatened. Considerable fear was felt for the safety of the Bernstein building on the south and the Temple Court

Thomas Loss \$3500

(Continued from page 1)

As is the custom in all fires, Victor Watson and Allen Cruse, of the West Penn Power Company, arrived shortly after the firemen and immediately disconnected all power lines running into the building to eliminate danger of further fire, and for the protection of firemen. Lights in the building were cut off at 7:28 o'clock, and because of darkness, spectators endeavored efforts to carry household effects from the structure.

West Penn employees stood by through the entire fire, ready at a moment's notice to cut off the 22,000-volt line serving the American Lumber and Stone Company should such action become necessary. The high tension line extends along Thomas Street, and passed within 25 feet of the burning house. Had the whole building been involved the power line would have been in danger. In such an eventuality, power would have been sent to the American Lumber Company over another route, and the Thomas Street line would have been disconnected.

Water pressure on the Thomas Street pumps was sufficient to carry streams to the roof of the building without the necessity of using pumps, although pumps were used when additional lines were placed in operation. Bellefonte citizens definitely fire-conscious since last Monday's fire at the school, turned out by the hundreds to watch the progress of the blaze.

As soon as the flames had been routed to some extent, ladders were raised and firemen ascended to the roof and opened holes through which loose lines were used in lighting the fire in the attic. In less than an hour's time the blaze was well under control.

One or two rooms on the second floor and some on the first floor were damaged considerably by water. One or two rooms on the second floor also were damaged by fire. The attic and roof over the old part of the building was destroyed and will necessitate complete rebuilding.

A newer wing on the structure was covered with a tin roof, and this successfully warded off fire and water damage.

Mr. and Mrs. C. Arthur Thomas, owners of the building are at a loss to account for the fire. The attic, used only for storage purposes, was kept locked at all times. Mr. Thomas declared that it is possible that a spark from the chimney fell on the shingle roof, causing the blaze, although firemen are of the belief that the fire started first in the attic and spread to the roof.

The total loss, including that suffered by tenants, was placed at about \$3,500, most of which is covered by insurance.

A survey of the ruins the following day revealed that most of the second floor apartments will require replastering, repapering and general re-fitting, owing to the fire. The attic and roof are a shambles of charred wood and scattered furniture. Most of the furniture had been in usable condition.

Yesterday Mr. Thomas reported that repairs on the building will be made at the earliest possible time.

The Robinson apartment on the first floor figured in the news last week when an automobile proceeding north on Thomas Street vaulted a concrete abutment, ran across the yard and crashed through the door, carrying the door frame and part of the stone wall with it.

Mr. and Mrs. Charles Neff of Centre Hall, accompanied Mr. and Mrs. A. E. Cummings to Dewart and Williamsport on Sunday last.

Senior Class Play. "The Mystery of the Third Gable," a three-act mystery comedy, will be presented by the Senior Class of the Miles Township High School in the I. O. O. F. Hall at Rebersburg, Saturday evening, February 25. The curtains will open at 7:30 p. m. The story takes place in a lonely gray dwelling of Samuel Brown, a miserly miser, who would like to see his blood drop upon your hand when you sit quietly in your room? Would you be frightened if someone or something grabbed you? These and many others are the disturbing adventures which come to the occupants of the house with three gables.

Various explanations are being circulated as to the origin of the fire. All reports concur that the fire was first discovered in the basement. Whether it was caused by a short circuit of electric lines, or whether a defective boiler or flue was responsible, will probably never be known. James Bailey is positive in his belief that the blaze did not originate in his barber shop. Before leaving the building at 11:30 o'clock Saturday night, he claims he made everything was in order. He declared that there was no sign of smoke or fire at that time.

Considerable fear was felt for the safety of the Bernstein building on the south and the Temple Court

Building on the North as flames reached out from the windows of the Lyons property. Although there was no wind, and although few sparks or embers existing was forced into the air, the danger was obviously demonstrated when an awning in front of the Goldman Food Market, Brookerhoff Hotel building, caught fire. Persons in hotel rooms above extinguished the small flames by dousing a bucket of water over the awning.

Allegany Street, from the Diamond to Bishop Street, was closed to traffic, and a network of hose lines extended along the thoroughfare. Fire apparatus was stationed on that street, as well as on Bishop Street and in Cherry Alley. While the building was being drenched with water, the fire department worked over the sidewalk, routed down Allegheny Street and taxed to capacity the sewer in front of the Bellefonte Hardware store.

Water pressure on the Thomas Street pumps was sufficient to carry streams to the roof of the building without the necessity of using pumps, although pumps were used when additional lines were placed in operation. Bellefonte citizens definitely fire-conscious since last Monday's fire at the school, turned out by the hundreds to watch the progress of the blaze.

High School To Re-Open

(Continued from Page 1)

Grades 7-1 and Miss Mary Wloka's fifth and sixth grades are to reopen Monday morning in the former Army building on North Spring street. Rooms have been provided in the building and are now being equipped with necessary furniture and supplies.

Mr. Stook indicated that the former schedule of high school and grade school classes will be followed as closely as possible, and that arrangements are being made on a semi-permanent basis in order to continue routine and avoid confusion.

The Academy property is rapidly being made ready for occupancy. The heating system has been placed in operating condition, portions of the building which will not be needed for high school use have been partitioned off. The lighting system has been renovated, the building thoroughly cleaned, and desks and chairs salvaged from the ruined building have been cleaned and set in place in Academy classrooms.

Supplies of paper, textbooks and other school items are arriving daily and everything will be in readiness by the opening date.

A system of classroom bells in the Academy, formerly operated by push buttons to signal the end of periods has been modernized by the installation of an automatic clock, which will guarantee regular changing of classes. The clock was loaned by a firm manufacturing automatic signaling systems.

Salvage work at the fire-torn building on Allegheny street has been completed, insofar as the removal of usable equipment is concerned. All desks and seats, blackboards and frames, window glass, cupboards, cabinets and lighting fixtures not destroyed in the fire have been removed. Many of them are now in use at the Academy or in other school buildings in the borough, and the remainder will be reconditioned for future use.

None of the expensive equipment in the home economics department was damaged, and all stoves, refrigerators, tables and other articles have been removed. Juniors' supplies and tools in the boiler room escaped destruction and have been salvaged.

O. F. Sollenberger, principal of the high school, has established offices in the Academy building, while Mr. Stook's office will remain in the Army building.

All teachers, with the exception of Miss Ann Ebert, who is a patient at the Centre County Hospital, are expected to report for duty Monday morning. Mrs. Fred Fisher, of Bellefonte, who taught commercial subjects last year, will substitute for Miss Ebert.

The school board at this time has made no decision as to the disposition of the ruins of the former high school building, but action is anticipated in the near future. Lamb street, between Allegheny and the alley at the Episcopal parish house, remains closed to traffic because of the danger of a failure of the walls.

The Board has not taken action on the matter of providing permanent quarters for the High school, and insurance claims have not reached final settlement, it is reported.

POTTERS MILLS

Edward Foust, wife and Mrs. Russell Brungart of West Chester visited over the weekend at the Mr. J. M. Casson home. Their coming at this time was to see the ladies mother, who was quite sick last week with gall bladder trouble. Other callers at the Casson home over the weekend were Burton Fetterolf and family of near Centre Hall.

Kenneth Mowery visited at his brother, William's at Spring Mills Sunday afternoon.

Clyde Walker and family of Bellefonte, spent Sunday at the E. B. Palmer home. In the evening Mr. Walker took Mr. and Mrs. Palmer up to Coyley to see their brother-in-law, Thomas Farmer who has been seriously ill and is now improving.

Roland Palmer of Millroy visited among relatives on Sunday afternoon.

Miss Margaret Kimpert of State College visited at the home of her cousin J. W. Slack over the weekend.

Mr. and Mrs. G. H. McCormick made a business trip to Bellefonte on Wednesday.

Miss Geraldine Hoover visited Miss Dorothy McMichael at Centre Hall over the weekend.

J. Roy Smith and family attended a birthday dinner at Millroy on Tuesday evening given in honor of her father Mr. Treaster.

A woman, in another state, recently died after a 38-day fast. As far as we are concerned, she can have the championship.
