Creep Feeding Speeds The Growth of Lambs

By creep feeding lambs can be kept growing rapidly until they are ready for market, says County Agent R. C. Blaney. Most ewes give insufficient milk to keep 3 to 4-week-old lambs growing properly. Therefore, it is essential to begin feeding a grain mixture. Equal parts by weight of 3 parts cracked corn, 2 parts oats, 1 part bran, and 1 part linseed oil cake usually gives excellent results, particularly if fed with good clover or alfalfa hay.

The creep can be built in a corner of the sheep shed so that the lambs can be fed separately. It is recommended that the lambs be fed fresh grain twice daily, giving the refuse cleaned from the troughs to the ewes. After the lambs are approximately two months old, the corn may be fed whole.

Give the lambs access to sunlight at all times since no other natural agency is so efficient in the destruction of disease germs. Many of the ailments of young lambs are the result of damp, dark, sheep sheds.

Spring is another harvest time for a farmer with a sheep flock. A good lamb crop frequently means the difference between profit and loss. For that reason nothing should be left undone to give the lambs a chance.

Health and Beauty

BEAUTY DREAMERS

The little girls read fairy stories about "Golden Locks" and the transformation of "Cinderella" into the ugly little drudgey into a creature of enchanting beauty who wins the love of the prince and became queen. They run to the glass and see straight black hair, or red or slate as the case may be, and tanned or freckled faces and other features that make them very unlike the golden haired creatures of magic beauty that the story books tell them about.

them seem to realize that even God-given beauty must be cultivated, or it will soon slip away. You wonder why the slumped figure, the muddy, gray complexion, the constant chit-chat about empty nothings and "neighbors' shortcomings". Because ideals are lacking, no standards have been held in mind that must be lived up to.

We should remember that we are "temples of God." Every effort should be made to improve the gifts that He has bestowed upon us. Instead of spending the time reading light, trashy, sordid fiction why not read something that will make valuable mental furniture, something that will add to your store of useful information or at least give you elevating and ennobling thoughts.

If you have faith and wish it hard enough, you'll straighten up your slumped figure, get the extra pounds off your anatomy, and take the trouble to carry out the directions that you receive from week to week in order to be well and happy.

Walker Twp. School Notes

Junior Class Rings: The company from which the Junior class got their class rings, sent each member of the class a small budget bank to help them save their money for the payment of the rings.

Bellefonte High School: Many of the Hubersburg School students viewed the scene of the Bellefonte High School fire on Monday, February 13, 1939. When word of the fire had spread among the students, many of them asked permission to take the noon hour and go to the fire. The permission was granted and many of the boys took advantage of it and were back in time for classes in the afternoon.

American Youth Forum: The students of W. T. H. S. were very busy writing their last draft for their themes on the two subjects, "What I Love America and What America Ows Me," and "New Frontiers for American Youth," during the week of February 12. The themes are for the competition of the American Youth Forum, sponsored by the "American Magazine."

Tri-Hi-Y: The Tri-Hi-Y girls held a Valentine party at the home of Miriam Bierly, Feb. 15. The evening was spent playing cards and the new game of checkers.

Senior Class Play: The cast for the play entitled, "Oh, My Stars," has been practicing for several weeks under the direction of Miss McCormick. The play will be presented by the Senior class of W. T. H. S., March 17, 1939 in the Community Hall at Hubersburg. The play is one of the main events of the school year, everyone is hoping for a big success. Vocational Agriculture Class: Boys of the Vocational Agriculture class of W. T. H. S. heard a good lecture on "The Varieties and Selection of Seeds," during the afternoon of February 14. It is hoped that they will be more interested in the program and be sponsored by and for the people of the community.

Community Forum: Pennsylvania State College has written to the principal asking permission to bring a group of college students to the Community Hall at Hubersburg, in the near future, to conduct a group discussion on one of the very important topics of the day. If this should materialize it is the desire of the school to fill the hall to capacity with those who are interested in the discussion, or those who wish to ask the college boys some questions. An announcement will be made later.

School Lunch: The Department of Public Instruction is placing in the hands of High School teachers a booklet called "Nutrition and the School Lunch." This quotation is taken from this booklet, "Every child should be reared from earliest infancy into firmly fixed habits of right eating... It may be of interest to parents to know that almost every day the janitor at the high school finds several untouched lunches. As growing boys and girls seldom go without eating something at mealtime, it may be assumed that whoever these young people are, they are very likely eating only candy or ice cream, instead of their more nourishing lunches."

Extent of Penn State's Campus Shown in Survey: The extent of the Pennsylvania State College campus is revealed in a survey conducted by the Penn State chapter of the American Association of University Professors, which shows that ten per cent of the faculty members must travel half a mile or more between classrooms.

Three per cent must travel a mile between classrooms, the survey found. It was made to determine the extent of parking facilities on the campus. More than 500 faculty and administrative staff members answered the questionnaire.

Forty-eight per cent of the faculty and staff members live a mile or more from their offices. Eighty-nine per cent of those polled own automobiles.

Sunday School Lesson

Peter Preaches to Gentiles International Sunday School Lesson for March 5, 1939

GOLDEN TEXT: "Look unto me, and be saved, all the ends of the earth: for I am God, and there is none else."—Isaiah 45:22. (Lesson Text, Acts 10:1-48.)

Although the great Commission given to His disciples just before He ascended unto Heaven had commanded them to preach the Gospel to "all nations," the disciples were slow to carry the gospel to the Gentiles. In our lesson last Sunday we learned that the Gospel had been preached in Samaria, but the Samaritans were regarded by the Jews as partly Jewish. Philip had also preached to and won the Ethiopian eunuch but he was probably a proselyte who had embraced the full Jewish faith, else he would not have gone up to Jerusalem to worship.

Up until this time, there had been no recorded instance of preaching to the Gentiles. However, in the providence of God this was no longer to be. In the city of Caesarea, there lived a Roman centurion, a man of clean life and devout spirit. Realizing the emptiness of his pagan religion and hungry for something more soul-satisfying, this man, Cornelius, was praying to God for guidance. As he prayed, he received a message to send to Joppa for a man named Simon Peter, who would tell him what to do. Without question, Cornelius obeyed and sent three men to Joppa.

The next day, just as the messengers were nearing Joppa, Peter, who was staying at the house of one Simon, a tanner, while awaiting the noon hour meal, went upon the housetop to pray. While praying, he, too, received a vision from the Lord. It seemed to him as though the heavens opened before him and

Dear Louisa: My child, who is fourteen years old, has been allowed to play with boys and she is now very dissatisfied because we do not let her go to the parties that all her friends attend. We promised to write to you and see if you thought we were doing the right thing. Our daughter means so much to us that we feel we can not be too careful. MOTHER AND FATHER Nebraska.

ANSWER: Sometimes when we try to do the best for the ones we love we do the worst, and in my opinion you have been very unwise in keeping your child away from boys so long. It is much better for a child to play with children of both sexes from the time she is small because in this way she becomes accustomed to them and is not carried away with the first little fellow who pays her attention after she reaches the teen age.

I do not approve of children being left to their own devices but I go to think that when they are small they should be allowed to play together with some older person, indirectly keeping an eye on them to see that they do not pick up undesirable habits.

Cars Meet at Intersection: Cars driven by Earl C. Myers, of Port Matilda, and James B. Allison, of Palmira, collided at the intersection of West College avenue and Atherton street, State College, about 9 o'clock Saturday morning, causing about \$50 damage to the Myers car, and about \$100 to the Allison car. No one was injured, according to Borough Officer John B. Juba, who conducted an investigation.

A. M. E. Church Clears \$155.11: A village store and bazaar conducted February 23, 24, and 25 by the trustees of the Bellefonte A. M. E. church in the Bush Arcade building netted \$158.86, with expenses of only \$4.75, leaving a clear profit of \$155.11, which is to be applied to the church debt. The congregation takes this opportunity to thank the public for the generous patronage and for the liberal contributions.

Answers to Modern Etiquette

1. No Such humor would attract attention. Merely smile and say, "Thank you." 2. Certainly. One should be courteous to strangers as well as to friends. 3. No. A woman who does this is in the same class with the back-seat driver. The average husband resents it. 4. The bride's sister should have the preference. If she has no sister, she usually chooses her most intimate friend. 5. No. The lips should be kept closed while chewing. This is not difficult if small bites are taken. 6. Telephone for "Room Service" and give the order. 7. Never. One should acknowledge the introduction graciously. It is not necessary to form a friendship merely because one has been introduced to another person. 8. It is much better to begin the letter by writing some thing about your friend instead of yourself. 9. Gifts of wood. 10. No. Jelly should never be spread on bread. A portion of bread should be eaten, followed by a bit of jelly, which is conveyed to the mouth on the tip of the fork. 11. Ask her quietly and politely if she will remove her hat. If she refuses attract the attention of an usher to her hat. 12. Suppers.
