STRAP YOUR PACK—!

Should school equipment be carried with you everywhere you go, or should space at the school be provided for its storage? Since the time when studies were resumed in the academy building, no provisions have been made for storing books. As a result of this, many makeshift arrangements have been made. This applies especially to the pupils, for many students have provided themselves with bookbags in which to carry their belongings. On the other hand, some pupils are putting books in drawers, bookcases, or on shelves where they expect to find them when they return. These methods are inconvenient. They also offer many opportunities for additional loss. The school system cannot afford to lose many of the newly acquired texts through inability to provide proper storage facilities. For these reasons we think that some arrangements should be made for the proper storage of such equipment.

SONGSTERS HAVE NO FLAT TIME

Now that the excitement of getting settled in a new school is over, the glee clubs are continuing their former schedule. The Girls' Glee Club will hold a banquet the latter part of April, with all the sophomores and juniors in charge of the arrangements. The banquet is an annual activity of the glee club and promises to be quite an event.

Early in May the Glee Club will travel to Philadelphia to present a concert. The annual concert presented by the boys' and girls' glee clubs will be presented sometime during the latter part of May. Since this is the last concert of the year, it is usually the most brilliant and interesting of all the programs presented.

SENIOR TOUR PLANS PROGRESS SENIOR CLASS NEWS

As most of you know, the senior class has been planning to go on a trip to Washington at the close of this school term. After the fire it looked rather bad for their project but the class president, James Craig, Jr., took upon himself to look into the matter. He had a conference with Mr. Bachelor, the manager of the tour who reduced the rate from \$17.00 to \$11.75, a very substantial reduction when one remembers that the original price was \$26.00. The only sacrifice that the pupils would need to make is that they will have to leave in the middle of the night instead of in the afternoon. However, they will spend the same length of time in Washington. The class president is going to send questionnaires around to the seniors each of whom will be asked: "Do you want to go?" "If your way is paid, would you go?" "How much of your fair could you pay?"

Death is taking quite a toll from our village since the first of this year, practically every Monday some one has been taken from our midst. Our sympathy is extended to the bereaved family.

Dear Diary, It's a beautiful day in Bellefonte. When I got up this morning, I felt that I couldn't stay in the house today. It was "back to the soil" for me; in other words, I wanted to go for a hike. I got the gang together and we had loads of fun. Our hike turned into a leisurely stroll up Spring Creek. We were regaled all the way by Jimmy Thompson's telling us about and showing us where he caught all his great big fish. Strange how so many got away!

Dear Diary, Sunday, March 5. Coming home from church this morning, I saw a robin and thought spring must be just a hop away. As a result, I decided to get out of my clothes from last summer and try them on. Well, anyhow I had a good laugh over them because they are so long compared to this year's styles.

Dear Diary, Monday, March 6. Cold, cold, everywhere and not a coat in sight. We had a fire drill today, and Jack Frost bit many a nose and toe as we stood outside our present building and froze. I was smart; I had my coat in class with me as I was late for my ninth period class, but I now have fifty lines to write. It certainly pays to be prompt.

Dear Diary, Tuesday, March 7. Since we are not compelled to stay in study hall because of crowded quarters, many of us feel free to loaf. Personally I think it's a marvelous idea even though I know I ought to study. A gang of us go down to the drug store second period every morning and top off our breakfast with a stundie.

Dear Diary, Wednesday, March 8. Oh to be a basketball star, for Coach Miller took the varsity team to Gettysburg this afternoon to see a big basketball game. I bet they will have loads of fun.

FIRE PHOTOS ON SALE

Amateur pictures of the disastrous school fire have been placed on sale by Gordon Vars and are displayed on the main bulletin board. These pictures depict the various stages of the fire and are priced at three cents each. Among the different angle shots is one which shows the heavy, overhanging eaves at the back of the building crashing down. Another shows the front of the building as the fire was breaking out on the second floor. One even shows the firemen on a ladder playing a hose in the study hall window. There are many different views to choose from, and they make fine souvenirs of our recent catastrophe.

BASKET BALL TEAM TOURS GETTYSBURG

The B. H. S. basketball team made a tour of Gettysburg, Thursday, March 9. They visited many historical places, such as the Gettysburg Battlefield. They went to a place which was called Devil's Den where there were huge rocks displayed. They witnessed a basketball game between Franklin and Marshall College and Gettysburg, in which Gettysburg was the victor. The team also met many of Mr. Miller's friends, with whom he went to school. The trip was very much enjoyed by the team, and they went home tired but happy.
