

Over The County News

The baseball diamond at Centre Hall was given attention recently with a view of improving it. Centre Hall, has one of the best fields of any of the clubs in the Tri-Valley league.

State highway workers under David Noll are making repairs on the Brush Valley road west of Centre Hall. The road had become in a very bad condition, due to the road bed yielding to the effects of freezing and thawing.

A large flock of wild geese, apparently lost during the heavy weather storm last Tuesday night, flew about Millheim for more than an hour. It is probable that they were attracted by the lights when they lost the usual V formation. They flew quite low in the central part of town.

Mrs. Margaret Strohm, whose physical condition has been extremely bad for some weeks following a stroke, is not improving. One side of her body is partially paralyzed. Mrs. Strohm, formerly a resident of Centre Hall, is living with her son, Rufus Strohm, in Scranton, and has attained her 83rd year.

Further reports received on the condition of Jean Mueser, granddaughter of Mr. and Mrs. Harry E. Fye of Centre Hall now a patient in the Eye and Ear hospital, Pittsburgh, are to the effect that the operation she underwent is proving to bring about a correctional condition. The operation consisted in the removal of a tumor, on Friday, located back of the right eye, which had pushed the eye forward into an unnatural position.

A comparatively new variety of potatoes known as the Katahdin is becoming popular among farmer potato growers in this section. They are secured in Cambria county direct from a grower. John Rimmey delivered a truck load made up of several varieties for distribution among farmers. The Katahdin is said to be selling at \$1.45, at the growers pits. It is a white, smooth skin potato with shallow eyes, in a general way very much like the Rural New Yorker of years ago.

Miss Jean Cable, older daughter of Mr. and Mrs. Russell Cable who had been ill at her home in Millheim for over a week, was taken to the Lewistown hospital last Thursday afternoon, where the underwritten surgical treatment on Friday morning. The young lady, an eighth grade pupil in the Millheim schools, was in a rather serious condition for several days, having an abscessed appendix, but responded satisfactorily to treatment, and is getting along nicely in the Millin county institution at this time. However, in about three months, she will have to return to have the diseased appendix removed.

Dealers in All Kinds of Grains

BELLEFONTE, PA.

The financial report made by Dan S. Daup, treasurer President's Birthday Party, held at Centre Hall, Thursday evening, January 26, shows a net profit of \$58.78. The total receipts were \$194.56 and total expenses, \$135.78.

Township and grade schools, 1 to 4 inclusive, in Centre Hall borough, will close April 28. Grades 7 and 8 and Centre Hall-Potter high school will close May 31. May 30 or Memorial Day will be observed as a holiday by the above mentioned schools.

Farmer M. A. Burkholder, of West Penn Power Company's office in Bellefonte, has been absent from work most of this week suffering from a dislocated left shoulder and a cut over his left eye sustained when he fell from a horse at Boalsburg early last Friday morning. Mr. Burkholder and a friend were taking an early morning ride when the accident occurred. Burkholder's horse stumbled and fell, throwing its rider. The injured man was taken to a doctor's office where his injuries were treated.

The continuous wet and cold weather to date has greatly hindered farming operations in this section. At this date, late April, in years gone by, oats and barley had been sown and much ground for corn turned, whereas for 1939, the seed continues lodged in granaries or bags, and little of the ground prepared for seeding. Farm work to one or two days at a time, not long enough to get into full swing except for these short periods by farmers favorably located on high grounds. Considerable fall plowing was done, but in this section plowing stalks is not generally practiced, thus the seeding to small grain is not speeded.

State highway workers are making general repairs on a portion of the forty miles of roads in Potter township to treatment, and is getting along nicely in the Millin county institution at this time. However, in about three months, she will have to return to have the diseased appendix removed.

RECALLING AN OLD-TIME BATTLE

(Continued from page one)

ducked the blows and Corbett clinched him, striking with his right hand back of the ear as he did so.

The blow was not hard as the unfortunate Californian was very weak from the punch under the heart. Fitz took no notice of him and his seconds dragged Corbett away. It was an unsportsmanlike act on the part of Corbett and it lost him many friends in the years that followed.

Fitzsimmons started a dance for victory when he saw his opponent down.

He waved a little flag above his head and started lightly down the ladder into the arms of his wife who was awaiting him in a box right below the ring.

"I never saw such a clever man in my life," said Fitzsimmons that evening. "He got away from me time and again when I thought I had him dead to rights. I knew I could wear him out, so I kept coming right along until my opportunity arrived. He was weak in the last round and all his cleverness did not keep him out of that left punch under the heart. The only blow that really worried me was the one which split my lip. The others I never felt. He fought fair and hereafter he may have my respect if he continues to merit it."

Corbett's version of his own Waterloo did not vary greatly from Fitzsimmons. "I made a great mistake in not keeping away," was the way he put it. "Fitzsimmons I knew to be a terrific puncher, but I never calculated on his being able to reach me. If the truth round had lasted ten seconds longer I would have landed him to a certainty. His nose was clogged with blood and his legs were wobbly. The gong sounded just as I was about to plug him with my right and end the battle. He recuperated wonderfully and I stayed away from him until I thought he was about ripe for another drubbing at short range. My neglect in standing off when he tapped me on the cheek in the fourteenth lost me the championship.

"That heart punch certainly choked me up. I could not breathe for several minutes before I realized that I had committed a breach of etiquette in trying to follow up on my opponent after he put me out. I meant it when I said I would be his friend hereafter. He whipped me fair and square, but I don't think he is the best man yet and we will have another if money can bring him into the ring."

FARM CALENDAR
Timely Reminders from The Pennsylvania State College School of Agriculture.

Feeding Calves on Pasture—It is a good plan to feed some grain to calves on pasture to keep them growing and developing normally. Believe dairy extension specialists with the Pennsylvania State College. Equal parts of corn and oats are suggested. Add a little bran and soybean meal. The pasture becomes short and dry. Raising Poultry—Keep the pullets healthy and growing if you expect to place good pullets in the laying house next fall. Penn State poultry extension specialists recommend. Sturdy, disease-free chicks lessen the danger from disease.

Caring for Trees—Unless tree injuries are treated promptly, the entire tree will be destroyed gradually. Claim extension specialists at the Pennsylvania State College. Every broken limb or other external injury that penetrates to the inner bark is a source of future trouble.

Providing Supplemental Summer Feed—When pastures become short in summer, dairymen will find soybeans and sudan grass an excellent source of additional feed. Say Penn State dairy extension specialists.

Repairing the Home Lawn—Don't rake the lawn in the spring, warn turf specialists at Penn State. It simply improves conditions for the germination of weed seeds and makes the lawn more susceptible to crabgrass. Raking is particularly beneficial to crabgrass, lawn weed.

Light Seeding of Oats—Sowing more than two bushels of Patterson or Cornellian oats per acre may result in a thick stand having fine, soft straw that lodges easily, report Penn State extension agronomists. The straw in thin stands is usually coarse and stronger.

DRIVERS INJURED IN EARLY MORNING CRASH
One man is a patient in the Lock Haven Hospital as the result of an automobile accident at 3 a. m. Thursday in Porter Township on Route 120 near St. Paul's Reformed Church on the road between Mill Hill and Bellefonte.

John F. Keller, of Flemington is suffering from a fractured knee cap, chest injuries and shock received when his sedan collided with the car driven by Nyle E. McClain, of Mill Hill R. D. 1. McClain traveling east on the highway is reported to have cut in front of the Keller machine to enter the lane leading toward his home at Parry where he operates a grist mill. It is believed that he misjudged the distance from the oncoming car in which Keller was en route to work at the Rockview Penitentiary.

McClain was treated by a Mill Hill physician for chest injuries and lacerations of the knee and around the mouth.

Bankruptcy Notice.
The first meeting of the creditors of James Raymond Gearhart, who was adjudged bankrupt on April 15, will be held in the law offices of the referee, John T. Taylor, in the Peoples' National Bank Building, State College, at 10 o'clock Friday morning, April 28, at which time creditors may attend, prove their claims, appoint a trustee, and conduct such other business as may come before the meeting.

When you pay your taxes do you ever stop to think what you are contributing to?

THE CENTRE DEMOCRAT, BELLEFONTE, PA.

SIMPLE AND EFFECTIVE TREATMENT FOR STAINS

Accidents will happen at the dining table but the stains need not mar the beauty of the table linen if they are removed at once, according to Miss Helen S. Butler, home economics extension representative of Centre county.

A small amount of common solutions such as peroxide of hydrogen, borax, ammoniac and carbon tetrachloride or other grease solvents are an aid to easy and quick stain removal.

Miss Butler suggests some effective treatments for the more common stains.

Candle Wax. Scrape off as much of the candle wax as possible with a blunt knife. Place a blotter beneath and above the waxed spot and press with a hot iron. Change the blotter often until the grease is removed. If a stain is left, remove with a bleach such as peroxide of hydrogen and wash thoroughly.

Cocoa and Chocolate. Wash in cold water. If stain is fresh spread a little borax over the stain, immerse in cold water, and wash in warm suds. If grease spot remains, use a dissolving agent such as carbon tetrachloride.

Coffee. If this can be treated at once, pour boiling water from a height onto the stain. If it has set, just cover the stain with borax and wash with glycerine and ammonia. Wash and rinse thoroughly.

Cream. Wash as soon as possible in cold water, then in warm suds.

Egg. Egg stain is set by heat, so scrape off as much as possible with a dull knife. Soak in cold water, bleach with peroxide of hydrogen if necessary. If grease spot remains, use carbon tetrachloride and wash thoroughly.

Meat Juice. This contains some protein which is set by hot water; therefore, soak in cold water. To this add a little ammonia. If a grease spot remains use grease solvent.

Fruit Juices. If fresh, pour boiling water from a height onto the stain. Moisten an old stain with glycerine, allow to stand for a few hours, then pour boiling water through it. More stubborn stains like peach may require a bleach.

Ice Cream. This gives a sugary spot with protein and fat and sometimes fruit or chocolate stain. Soak in cold water to remove sugar and protein, then use a grease solvent for the fat. Treat remaining stain according to its kind.

LEGAL NOTICES
CAUTION NOTICE
My wife, Elmira Adeline Zimmerman, having left my bed and board without my consent, I hereby caution the public not to harbor or trust her as I will not be responsible for any debts she may contract.
M. W. ZIMMERMAN, Millersburg, Pa.

ORPHANS' COURT SALE OF VALUABLE REAL ESTATE
The undersigned, in pursuance of the last Will and Testament of OLIVER F. STOVER, late of the Township of Spring Mills, deceased, and in conformity with an order and Decree of the Orphans' Court of Centre County, Pa., March 17th, 1939, directed to the undersigned Executor of the said estate, do hereby offer for sale at public sale on the hereinafter described farm property, which is situated about 13 miles out of the Centre County, Pa., and is bounded on the north by the public road leading to Wolf's Store, on

SATURDAY, MAY 6TH, 1939, commencing at 1:30 o'clock P. M., the following:

TRACT NO. 1—BEGINNING AT STONES, thence by other land of Tract No. 2, South 66 degrees, West 138 1/2 degrees, to stone; thence by land of John Kramer, South 20 1/2 degrees, East 131 1/2 degrees to stone; thence by land of the said Jonathan Spangler, Sr., North 76 1/2 degrees, East 140 1/2 degrees to stone; thence by land of William Walker, North 20 1/2 degrees, West 152 1/2 degrees to the place of beginning. CONTAINING 116 acres and 13 1/2 acres and also the

TRACT NO. 2—BEGINNING AT A certain tree, thence by land of Spangler, Sr. and H. Corman, North 21 1/2 degrees, West 95 1/2 degrees to stone; thence by land of the said Jonathan Spangler, Sr., South 74 1/2 degrees, West 89 degrees to stone; thence by same South 89 1/2 degrees, West 26 degrees to stone; thence by same South 20 1/2 degrees, East 131 1/2 degrees to stone; thence by land of John Kramer, South 20 1/2 degrees, East 131 1/2 degrees to stone; thence by same South 81 1/2 degrees, East 65 degrees to point;
